Crows Landing Road Reconstruction
STANISLAUS COUNTY, Calif. Crows Landing Road at designated sites from the Tuolumne River to Modesto to State Highway No. 33 at Crows Landing.

Force Account

(Continued from Page One)

in California for example, it has been charged that the California Fruit Growers Association is trying to break down the small land owners' water rights so that it can, in turn, move in and buy up the small operators, resulting in need for greater projects and more construction through expenditure of government funds to build larger projects to supply water.

In this connection, William Locke, editor and publisher of the Dinuba Sentinel, in the San Joaquin valley, told a senate subcommittee that revocation of the 160-acre limit on the central valley project might put small farmers in that area out of business. He believes that with additional water supply, the big farmers could build their output into "market blocs".

Could Force Sale

"They could press prices down to the point of running the small farmers out of business, then the big interests could buy up their land cheaply," he testified.

The subcommittee is considering a bill to exempt the Central Valley Project from a restriction that permits delivery to one farmer of only enough project water to irrigate 160 acres.

Restore Rec Funds

(Continued from Page 1)

the Central Valley project can proceed as rapidly as possible and be placed on a fair return basis in the shortest possible time.

He wants te dams built, the power sold, and irrigation water furnished.

Cancels Industry Gain

Meanwhile, idustry is looking forward to a power famine in the west within the next five years if the reclamation jobs are not hurried along.

Aluminum stands in a peculiar position to be struck first and hardest by any inadequate supply developments. Alcon, Reynolds, and other aluminum producers and users are said to be viewing Canada as a refuge for operations if the famile comes about. Troudale at at Spokane, Wash., is another.

In the competition for power, steel and many other industries can well afford to outbid aluminum which already is priced to the limit at 14 cents per pound. Aluminum is nno longer just a new metal but through its adaptation as a substitute for wood and steel in many products has taken on a new importance in the building materials field.

McNary Dam Vital

Failure of WAA to dispose of the Torrance aluminum plant near Los Angeles is a case in point. Those who know, say the industrial property would have been bought in a flash if power supply had been assured in the future. Farther north, they expect the shortage to develop within five years if the McNary dam on the Columbia is not built. For the same reason potential expansion of the Bonneville project is being watched closely. (Kaiser has leased an aluminum plant near Spokane for production of aluminum prefabs but his position, over the long range, would also be threatened, it was said.) Alcon already is operating a plant at Vancouver, B. C.

Build your FACTORY or WAREHOUSE with STEEL for $1.89* per square foot of floorspace
*Erected, complete with doors, windows and slab concrete floor, READY FOR USE!
Here's an Opportunity to get needed factory, warehouse or shop space now at less than pre-war building prices! You get a better building, too—a firesafe, rot-proof permanent steel structure that costs less to maintain through the years.
★ SIZES TO MEET YOUR NEEDS EXACTLY ... A full range of widths and lengths offers exactly the size and shape of building to fit your use and property.
★ SPEEDY ERECTION ... Buildings can be truck-delivered from our stock at Niles, and erected without delay because all needed structural materials are included.
Get the Facts ... mail the coupon or phone your nearest Kraftile office (below) for prompt, complete information and prices.

5/15/47 32
Bond Issue in Amount of $70,000 Approved
Sewage Disposal System Cost $116,510
WATERMORE, Calif., Tulare Co.
Owner—Strathmore Public Utility District, L. C. Morton, president of the board of directors, Strathmore, Calif.
Engineer—Irving H. Althouse, Box 87, Porterville, Calif.
Includes sewage treatment plant, lateral sewers and outfall sewer:

33— BRIDGES

5/16/47 33
Owner Taking Bids—Due June 12, 2 P. M., in Los Angeles
Separation Structure, Etc.
LOS ANGELES, Calif., Los Angeles County. Intersection of Hollywood Parkway and Arroyo Seco-Harbor Parkway.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Four-level reinforced concrete separation structure, grading of approaches and installation of storm drains and sanitary sewers.
Bids will be opened in the State Bldg., Los Angeles, Calif.
The work involves:
(1) 4,000 cu. yds. remove conc.;
(2) 20 acres clear and grubb;
(3) 185,000 cu. yds. rdwy, excav.;
(4) 24,000 cu. yds. struct. excav.;
(5) 3,000 sq. yds. compct. original ground;
(6) 59,000 cu. yds. import borrow;
(7) develop water supply and furnish water equip;
(8) 1,500 M gals. apply water;
(9) 250 tons plant mix surf.;
(10) 14,960 cu. yds. class A Port. cem. conc. structs.;
(11) 210 cu. yds.class C Port. cem. pipe reinf.;
(12) 155 lin. ft. rubberstops;
(13) 89,000 lbs. misc. iron and steel;
(14) 10,952 lin. ft. furnish 10 in. steel piling;
(15) 10,400 lin. ft. furnish 12 in. steel piling;
(16) 1,455 each drive piles;
(17) 145 each steel pile splices;
(18) 60 cu. yds. class A Port. cem. conc. curbs, gutters and sidewalks;
(19) 10 lin. ft. 21 in. reinf. conc. pipe stand. strength;
(20) 80 lin. ft. 24 in. reinf. conc. pipe 1500-D;
(21) 220 lin. ft. 24 in. reinf. conc. pipe 1750-D;
(22) 220 lin. ft. 27 in. reinf. conc. pipe 1750-D;
(23) 140 lin. ft. 27 in. reinf. conc. pipe; 2000-D;
(24) 120 lin. ft. 30 in. reinf. conc. pipe 1750-D;
(25) 130 lin. ft. 36 in. reinf. conc. pipe 2000-D;
(26) 170 lin. ft. 60 in. reinf. conc. pipe 1250-D;
(27) 350 lin. ft. 60 in. reinf. conc. pipe 1500-D;
(28) 214 lin. ft. 12 in CMP 16 gage;
(29) 10 lin. ft. 6 in. vit. clay pipe stand. strength;
(30) 36 lin. ft. 8 in. vit. clay pipe extra. strength;
(31) 930 lin. ft. 15 in. plain conc. pipe;
(32) 130 lin. ft. 4 in. stand. drain tile;
(33) 90 cu. yds. filter mtl.;
(34) 15 lin. ft. type B manholes;
(35) 15 lin. ft. pipe shaft manholes;
(36) 3,511,000 lbs. furnish bar reinf. steel;
(37) 3,511,000 lbs. place bar reinf. steel;
(38) 5,688 lin. ft. steel railing;
(39) elec. equip. and anchor bolts;
(40) engineer's offices.
Specifications obtainable from the above office of the engineer.

5/16/47 33
Low and Only Bidders
Bridge Cost $83,325
KERN COUNTY, Calif. Across the Kern River about 6 miles southwest of Bakersfield.
Owner—State of California, Division of Highways, Public Works Bldg. Sacramento, Calif.
State Highway Engr.—G. T. McCoy, Public Works Bldg., Sacramento.
Reinforced concrete slab bridge.
Low Bidder—O. B. Pierson, 621 Flower St., Bellflower, Calif., $83,325.
Work involves:
(1) 500 c.y. struc. excav.;
(2) 2,600 c.y. imported borrow;
(3) 225 M. gals. apply water;
(4) 946 lf. timber bridge railing;
(5) 7.3 M. ft. BM timber sheet piling;
(6) 720 c.y. Class A portland cement concrete;
(7) 7,300 lbs. misc. steel;
(8) 2,720 l.f. furnish conc. piling;
(9) 68 each drive concrete piles;
(10) 155 c.y. sacked conc. riprap;
(11) 174,000 lbs. furnish bar reinf. steel;
(12) 174,000 lbs. place do;
(13) engineer's office.
Total bids submitted May 14 were:

	(A)	(B)	(C)
(A) O. B. Pierson, Bellflower,	$85,- 325.		
(B) A. R. Coffeen Co., Corona,	$93,- 496.15.		
(C) C. H. Tuttle Co., Long Beach,	$105,004.		
Unit prices were:			
(1)	$ 3.50	$ 1.50	$ 2.55

(Continued from Page 9)

HUNGRY HORSE PROJECT, Montana. Lion Lake about 3.5 miles north of Coram, Montana.
Owner—U. S. Bureau of Reclamation, Hungry Horse Govt. Camp, Montana.
Plans by engrg. dept. of owner.
Includes construction of Lion Lake dikes and erection of 150,000-gal. water tank.
Unit quantities were given April 23.

5/15/47 34
Low and Only Bidders
Cherry Creek Outlet Works
Cost $1,748,037
ARAPAHO COUNTY, Colo. About 6 miles SE of Denver and ¼ mile upstream from the existing Kenwood Dam on Cherry Creek.
Owner—United States Government Dist. Engineers Office, Col. Craig Smyser, District Engineer, 200 Railway Exchange Bldg., 909 17th St., Denver, Colo.
Private plans.
Includes concrete intake structure, a cut and cover concrete conduit and concrete stilling basin; 400 days completion time.
Low Bidder—Al Johnson Constr. Co., 606 Pillsbury Tower, Minneapolis, Minn., $1,748,037.
Other bids submitted May 12 were: Massman Construction Co., Kansas City, $1,856,655.
David Gordon and Bressi & Bevanda Construction Co., Denver, $1,-992,275.

5/14/47 34
Owner Taking Bids—Due May 23, 2 P. M. (Unit Quantities)
D-8 Canal Extension Siphons
NEVADA COUNTY, Calif. About 3 miles east of Grass Valley.
Owner—Nevada Irrigation District, Thomas Mulcahy, president; Elizabeth P. Frey, secretary, Grass Valley, Calif.
Engineer—Blackie & Wood, 514 Market St., San Francisco, Calif.
Includes two 48-in. steel siphons with total length of 1195 ft., together with concrete inlet and outlet structures, concrete piers at creek crossing and all appurtenances.
The work involves:
(1) 1195 lin. ft. install 48-in. steel pipe;
(2) 66 cu. yds. concrete in inlet and outlet structures;
(3) 18 cu. yds. concrete in piers.
Specifications obtainable from the office of the engineer upon payment of $5, not refundable.

38—ELECTRIC LIGHTING TRANSMISSION LINES

5/15/47 38
Low and Only Bidders
Electric Distribution System:
Serial 47-27 Cost $350,090.23
MURAC, Calif., Kern County. Muroc Army Air Field.
Owner—Los Angeles District, Corps of Engineers, War Department, 751 S. Figueroa St., Los Angeles, Calif.
Plans by owner.
Overhead and underground extensions to existing 4800-volt electric distribution system for electric service to the housing area and alterations to existing distribution system for temporary family quarters.
Low Bidder—Schurr & Findlay Electric Co., 11,835 Anza Ave., Hawthorne, Calif., $350,030.23.
Other bids submitted May 12 were: Stetson Electric Co., $379,005.53.

PLANS and Speculations

There is a civil service position open for a light power shovel operator ($230-$270); one year's experience in operating a light power shovel is required. Exams will be given July 19.

oOo

War assets administration has opened a big sale of 1½- to 25-ton trucks, and other motor vehicles and accessories, at Honolulu T. H. Vehicles are not on the veterans' set-aside list.

oOo

U. S. Plywood Corporation has under construcation at Portland a plant for manufacture of synthetic resins required for its plywood plants, with completion expected by August 1. An additional research laboratory will be built there, also.

oOo

Guaranteed market contracts have been requested for Preco Corp., Bellingham, Wash., for production of 750 prefabricated one-story, two-bedroom wood frame and plywood panel houses of conventional design, as a licensee of the Ivon R. Ford Lumber Company of McDonough, N. Y.

oOo

San Francisco supervisors last Monday appropriated $55,000 for acquisition of a site in San Mateo County for the Crystal Springs filtration plant, and approved purchase of additional land for the airport and for Sunset Community Center.

oOo

Objections to the proposed highway bridge across Corte Madera Creek at Greenbrae must be filed with the army engineers not later than June 2. It would be the fixed type, with a 21-ft. clearance above mean high water.

PRICE LOWERING HAS OKAY OF ATTORNEY-GENERAL'S OFFICE

WASHINGTON.—It was learned here today that Housing Expediter Frank R. Creedon had a clearance from the attorney general's office before he conferred with building materials producers concerning lower prices.

In a letter dated May 1, Attorney General Tom C. Clark wrote Creedon that any attempt on the part of building materials producers themselves to make combination agreements for the reduction of prices would be considered a violation of anti-trust laws. However, a distinction was made for the type of conferences Creedon then expected to hold with the building materials manufacturers. These individual meetings, Clark ruled, would not constitute a violation of the anti-trust statutes.

The opinion was written in answer to a request made by Creedon before his recent western trip aimed at stimulation of the production of building items.

#

PLANNING DIRECTOR TO DISCUSS ZONING

Thomas J. Kent, Jr., city planning director, will address a luncheon meeting of the San Francisco Planning and Housing Association on Wednesday, at the Bellevue Hotel.

Kent will discuss urban redevelopment, zoning changes and traffic problems.

#

$32.5 MILLION CAA AID

WASHINGTON—The house has allowed $32.5 million for the federal-aid airport program, included in the Commerce Department's greatly reduced budget.

This is slightly under the $33,367,315 which was anticipated, to cover the federal share for some 800 airports.

Senate Passes Bill For Timber Roads

WASHINGTON. — Legislation to provide access roads for reaching out-of-the-way timber stands in government-owned properties passed the senate this week on voice vote and went to the house.

Senator Cordon of Oregon, in reporting the bill, said it would accelerate construction of the access roads in great volume, bringing more lumber for veterans' housing and other construction uses. Furthermore, it is expected to increase treasury revenue from stumpage sources, the legislator said.

A review of the access road program to date showed that of the $15 million originally available for this purpose, $12 million has been alloted to the Forest Service of Agriculture for roads into national forest timberlands. But all of these funds will have been obligated by June 30, this year.

The housing expediter's office has informed the forest service that the authorized $15 million fund now is virtually gone. In view of this condition, any further construction of access roads by money authorized for use by OHE must come from an increase in the OHE authorizations as prescribed in S. 800, the bill passed by the senate.

In fiscal 1947 (closing June 30) forest service had approximately $18,000,000 available for access road construction and betterment from the housing expediter forest road development funds.

The budget bureau recommended $12,500,000 for the fiscal year for forest road development and this item now is before the house appropriations committee

Should the access roads bill pass and become law, $7 million of the $12,500,000 would be apportioned for non-deferable maintenance of the forest development road system, and $5,590,090 for new road construction. The forest service said it plans to use nearly all of its funds available in fiscal 1948 for building timber access roads. The $5,500,000, it is estimated, would build 574 miles which would bring out an estimated 100 million board feet of timber by Dec. 31, 1947, and 300 million board feet annually thereafter.

#

BARKLEY LENDS HIS SUPPORT TO ANTI-POLLUTION MEASURE

WASHINGTON—The chances of the new anti-pollution bill, which would result in a sizeable construction program involving sewage treatment plants throughout the country, were enhanced over the weekend as Senator Barkley, Democrat of Kentucky, threw his weight behind the measure.

"The health and welfare of the people are at stake," he said in commenting on the Federal Works Agency bill. He recommended passage of the water pollution control measure because states and local agencies now lack authority to deal with navigable streams.

This bill would authorize the Federal government to contribute one-third of the cost of an anti-pollution program. Two-thirds of the money would come from states and other local interests.

Members of an anti-pollution board would be appointed by the President instead of the surgeon general as originally specified.

#

DENIES ALLEGATION

WASHINGTON.—In response to inquiries, Housing Expediter Frank R. Creedon stated today that he has not requested the interdepartmental export policy committee to relax export controls on lumber other than to permit an increase in exports commensurate with the eased domestic lumber situation.

Washington Circles Consider Assessments On Sewage Systems

WASHINGTON.—Industrial circles in Washington were disturbed this week by reliable reports that most of the sewage systems in America's larger cities are taxed to capacity at the present time and cannot receive more discharge as these cities expand in population.

A spokesman for the nation's milk producers and ice cream industries said this condition is forcing many of these plants either to move to outskirt areas or build their own disposal systems or, in some instances, both of these things.

The concern expressed was particularly timely for congress has started committee consideration of a stream pollution bill which projects an ambitious construction program for the immediate future.

A bill introduced and now before a subcommittee of the senate's public works committee, would give administration of this program to public health officials. The federal works agency has entered violent objections to this proposal on grounds that administration of the construction involved belongs rightly to its own constituent agencies.

Bright spot in this picture for FWA's developed when the subcommittee, after hearing Major General Philip B. Fleming testify that his agency should handle construction of disposal plants under the contemplated program, sent the administrator back to draft a bill to his own liking, FWA's new bill, on which work is now in progress, might be substituted for

With Senator Francis Maloney of Connecticut, presiding, the subcommittee heard witnesses on both sides of the fence.

Harry Gandy, Jr., representing the National Coal Assn., opposed federal intervention in the sewage plant construction program. "As we have pointed out," he said, "it is our position that elimination of stream pollution is a local function that the legislation proposed is neither necesary nor will it serve a helpful adjunct to pollution elimination activities underway."

#

MARCH PRODUCTION GIVES IMPETUS TO ANNUAL STEEL RATE

WASHINGTON.—In March, latest month on which a report is available, shipments of sheet and strip steel were at an annual rate of 18,260,000 net tons, according to the American Iron and Steel Institute.

In 1941 shipments of sheet and strip steel established a record at 15,743,829 tons. The March shipments totaled 1,551,510 net tons.

The total included 609,747 tons of hot rolled sheets, 483,051 tons of cold rolled sheets, 136,300 tons of galvanized sheets, and 45,741 tons of electrical and enameling sheets.

Hot rolled strip shipments in March totaled 144,268 tons, and cold rolled strip shipments amounted to 132,403 tons.

#

BUILDING MACHINES SOLD HERE WEDNESDAY

Construction, farm and mining machinery will be offered for sale by war assets administration on Wednesday and in Sacramento on Friday.

Equipment valued at $700,000 will be offered in San Francisco, at the Masonic Temple, 25 Van Ness, from 8 a. m., on.

At Sacramento, 26 crawl type tractors, six truck mounted cranes and other items will be offered for sale.

Assail Conflicting WAA Estimates of Stocks in Honolulu

WASHINGTON.—The Associated Equipment Distributors of America are not satisfied with the explanation they have received from war assets administration concerning vast quantities of surplus construction machinery reportedly lying idle in the Hawaiian islands.

Statements Conflict

Distributors and manufacturers who have visited the islands recently say that millions of dollars worth of construction and road building machinery is standing idle in army and navy yards, serving no good purpose while the industry in the United States faces continuing shortage problems.

The AED points out a discrepancy in WAA figures which they would like to have explained.

On April 21, they say, Col. Fred A. McMahon, deputy administrator of disposals for U. S. Territories and Possesions, reported that the island surpluses amounted to $4,100,000. In a subsequent announcement, AED charges, the availability of $18,600,000 worth of surplus machinery and equipment was evidenced.

Inventory Sketchy

The WAA regional director in Honolulu has given this explanation:

"We have currently on hand and not offered or advertised for sale only $180,000. The balance making up $4,100,000 is practically all offered for sale. Most of the ads have been published already, and the balance will be very shortly. The best information we can get from the owning agencies here is to the effect that no more of this type of equipment will be declared.

. . . . The total amount of property on the outer islands is very limited and I doubt if there are a half dozen pieces of equipment of the type that you mentioned."

Needs Unfathomed

The large storage yards full of equipment on Oahu have given rise to the complaints. But WAA explains that this machinery is being held for shipment to forward areas, at least until congress has determined the future size of America's armed forces.

#

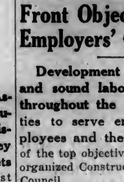
FOSSI COURTS JOB WINS FHA APPROVAL; CONTAINS 10 UNITS

PORTLAND—Approval of a 10-unit rental housing project in Portland for World War II veterans and their families was announced today by State Director Folger Johnson at the Portland office of the federal housing administration.

The project, to be called Fossi Courts, will be built by Carl A. and Albert O. Fossi of Vancouver, in the 500 block North Terry St., Portland, and will be financed by the Investora Syndicate with a mortgage of $68,000 to be insured by FHA under Title VI of the National Housing Act. It will consist of two-story row houses containing seven units of 3½ rooms and three of 4½ rooms.

This brings to eight the total of veterans' multi-family rental housing projects in Oregon approceed under the new FHA program.

#



PRESS 15% BOOST

WASHINGTON. — Senator Albert W. Hawkes of New Jersey, has opened his drive for senate approval of the 15 per cent rent increase wherever landlords and tenants "mutually agree" on a lease extending through calendar 1948.

Peace on the Labor Front Objective of Employers' Council

Development of uniform and sound labor practices throughout the six Bay counties to serve employers, employees and the public is one of the top objectives of the newly-organized Construction Employers' Council.

In a first draft of tentative by-laws submitted to sixty contractors representing some twenty companies at a meeting Monday morning, it was revealed that the CEC would act to establish a standard Bay Area labor pattern. Proposed labor agreements of its members would have to be submitted to the Council to determine the effect that they would have on the industry as a whole.

Milton Morris

Establishment of the Council will enable employers to receive first-hand information on the labor situation. One of the first problems of the Council, it was stated, will be to promote labor efficiency and reduce dissatisfaction between the various crafts caused by inequities within the various labor groups.

The by-laws and objectives will be submitted for approval to the CEC employers within a week or ten days, Milton W. Morris, executive secretary of the Associated Home Builders of San Francisco, announced.

The organization's other stated purposes are to better serve the public through:

1—Closer coordination of prime and sub contractors;
2—Better understanding between contractors and suppliers or distributors;
3—Better relations between construction employers and labor;
4—Modernization of local building codes;
5—Encouraging development and use of modern methods and materials.

#

SCRAPPING OF EXPORT CONTROLS WOULD RAISE LUMBER OUTPUT—BLUNT

WASHINGTON. — J. R. Blunt, representing the West Coast Lumbermen's Association, appeared before the Cooper subcommittee of the senate judiciary committee this week with the information that increased supply of finished lumber products for the housing industry will result from removal of export controls over lumber.

(The subcommittee group is hearing government and industry experts on extension of the Export Control Act for one year to June 30, 1948, at President Truman's special request.)

Blunt said the industry now is hampered in production of flooring and other types of shop lumber because of its inability to export heavy construction lumber in sufficient volume to keep up with domestic demand for finished lumber. The amount of shop lumber obtained from logs is small compared with the volume of heavy construction lumber from the same logs, it was explained. Because of this, west coast lumbermen are faced with unexportable surpluses of the heavier grades of lumber.

Even a Child Can Open Them!
STRAND-STEEL OVERHEAD-TYPE GARAGE DOORS

YES, these new Strand-Steel Overhead garage doors are so simple to operate that a mere child can handle them. At a finger's command these modern overhead doors open and rise gracefully and smoothly... lowering with like precision. Although constructed of steel for strength and endurance, Strand-Steel Overhead-Type doors are perfectly balanced to permit easy opening and closing. Ready now for immediate installation, these garage doors are always out of the way, protecting your car from fender knocks so often received from swinging doors. For additional information regarding the Strand-Steel Overhead garage door, call your local P. C. A. office or mail the coupon below.

TWinoaks 1672 ENterprise 10930

plan for pleasant washdays in an AUTOMATIC LAUNDRY

1 CEILING LIGHT
2 IRONING LIGHT
3 AUTOMATIC WASHER
4 AUTOMATIC DRYER
5 AUTOMATIC IRONER
6 HAND IRON
7 HOT PLATE
8 VENTILATING FAN
9 CLOCK
10 SEWING MACHINE

Here are the five essential parts of a modern home laundry. Be sure they are included in the laundry room you are planning.
(1) PREPARATION CENTER...for sorting clothes and making repairs. (2) WASHING CENTER...with washer near tubs or sink...served by a new automatic, family-size water heater. (3) DRYING CENTER...with Automatic Clothes Dryer and rack. (4) IRONING CENTER...with Ironer, arm chair and shelves above. (5) IRONING BOARD...well lighted and folding into wall. Plan and budget now for a modern, automatic home laundry that you will be proud to "show off" to your friends or relatives.

Contracts Awarded
Grading & Bridges
WASHINGTON
Owner — State of Washington, Clarence B. Shain, Director of Highways, Olympia, Wash.
Plans by engineering department of owner.
Projects include:
(1) construction and reconstruction work on Everett to Marysville and Swinomish Slough Bridges on P. S. H. No. 1 in Snohomish and Skagit Counties, a State Project involving about 28,940 pounds of structural steel, 14 M. B. M. timber and lumber, lump sum, removing portions of bridges 1/211, 1/209 and 1/208 and other items.
Awarded: Aiton V. Phillips, Seattle Wash., $19,732.
(2) cleaning and painting Everett to Marysville bridges Nos. 1/208, 1-209, and 1/211 on P. S. H. No. 1, in Snohomish County, a State project, involving lump sum, each bridge;
Awarded: Antonsen Painting Co., Tacoma, Wash., $22,000.
(3) grading, draining and paving 0.445 miles of P. S. H. No. 5, Auburn to Enumclaw Revisions, Sections 4 and 5, a State Project in King County, involving about 8 acres of clearing, 3 acres of grubbing, 33,600 cubic yards of excavation, 3,340 cubic yards of selected roadway borrow, 5,735 square yards of cement concrete pavement, 4,780 square yards of removing concrete pavement, 70 linear feet of culvert pipe and other items.
Awarded: Northwest Constr. Company, Seattle, Wash., $52,594.
(4) clearing, grubbing, grading, ballasting and surfacing on 2.7 miles of P. S. H. No. 12, Point Ellice to Megler in Pacific County, a State Project, involving lump sum clearing and grubbing, about 680 cubic yards of common excavation, 6,020 cubic yards of solid rock excavation, 12,160 cubic yards of ballast, 5,020 cubic yards crushed stone surfacing, 117 linear feet of pipe culverts and other items.
Bids Rejected. Low bidder was T. W. Thomas, Portland, Ore., $39,533.
(5) cleaning and painting 5 bridges on P. S. H. No. 12 and S. S. H Nos. 1-S, 8-B and 12-D, bridges Nos. 12-3M/1, 1-S/11, 8-B/1, 12-D/1 and 12-D/2, in Clerk, Cowlitz, Pacific, and Wahkiakum Counties, a State Project, involving lump sum each bridge;
Awarded: Industrial Painters, Tacoma, Wash., $9375.
(6) constructing a steel girder bridge over the Sammamish River and grading, surfacing and constructing asphaltic concrete on approaches to bridge, 0.188 miles, S. S. H. No. 2-A in King County, a State Project, involving lump sum clearing and grubbing, about 355 cubic yards of unclassified excavation, 5,285 cubic yards of borrow for roadway embankment, 1,085 cubic yards of selected roadway borrow, 201 tons of asphaltic concrete, 760 linear feet of beam guard rail 449 linear feet of culvert pipe, 187 cubic yards of concrete, 22,000 pounds of steel reinforcing bars, 16,500 pounds of structural steel, 3,500 pounds of cast steel, 3,300 linear feet of treated timber piling, lump sum erecting structural steel and other items.
Awarded: Nelson Constr. & Engrg. Co., Seattle, Wash., $57,947.
(7) constructing, including structures, heating, painting, plumbing, and electrical work of maintenance buildings on the maintenance site at Stevens Pass on P. S. H. No. 15, in Chelan and King Counties, a State Project.
Awarded: Mason Constr. Co., Seattle, Wash., $185,000.
Second bidder, Brazier Constr Co., Seattle, Wash., $188,752; 3rd low, S. S. Mullen, Seattle, Wash., $216,842.

5/20/47 40
Contract Awarded
Resurfacing Cost, $22,066
VENTURA COUNTY, Calif. Between Ellsworth, Barranca, and Santa Paula.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Includes about four miles resurfacing with plant mix surfacing and placing imported borrow on shoulders and applying bituminous surface treatment thereto.
Contractor—O'Brien Bell Constr. Co., 1123 Freeman, Santa Ana, Cal.

5/20/47 40
Contract Awarded
Surfacing Cost, $28,277
SOLANO COUNTY, Calif. Between Fairfield and 3.5 miles north and in Vacaville.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 4.8 miles repairing by placing plant mix surfacing over the existing pavement.
Contractor—Fredericksen Bros., 1259 65th St., Emeryville, Calif.

5/20/47 40
Plans Completed—Owner Will Ask Bids Soon
Street Improvement Cost $70,000
SAN LEANDRO, Calif., Alameda Co.
San Leandro Blvd. from Oakland city line to Williams St.
Owner—City of San Leandro, H. H. Burbank, city clerk, City Hall, San Leandro, Calif.
City Engr.—C. P. Martin, City Hall, San Leandro, Calif.
Remove present base and lay new 12 in. crushed rock base with 2 in. asphaltic wearing surface from curb to curb, etc.

5/20/47 40
Contract Awarded
Grading and Surfacing
Cost $1,431,227.80
IMPERIAL COUNTY, Cal. Between El Centro and Brawley.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 13.1 miles grading and surfacing with plant mix surfacing on cement treated base.
Contractor—Basich Bros. & Basich Bros. Constr. Co., Box 151, Alhambra, Calif., $1,431,227.80.
Contract Awarded
Grading, School Site Cost $2650
HANFORD, Calif., Kings Co. Northwest corner Jersey and 9th Aves.
Owner—Lakeside Union Elementary School Dist., Robt. Burr, Clerk, Rte 3, Box 467, Hanford, Calif.
Plans by owner.
Contractor—W. H. Harris, Box 143, Avenal, Calif.
Other bids submitted May 6 were: James E. Anderson, Visalia, $2475. Anthony T. Bernard, Hanford, $3045.
Geo. Stout, Merced, $3154.75.
Forrest E. Kerr, Hanford, $3473.

5/20/47 40
Contract Awarded
Repair Highway Cost $42,593
SANTA CLARA COUNTY, Calif. Between Alameda County line and Milpitas.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About one mile repairing with crusher run base and asphaltic concrete.
Contractor—A. S. Jones, Box 3067, Brown's Valley Rd., Napa, Calif.

5/20/47 40
Contract Awarded
Cost Cost $60,968.50
MERCED and STANISLAUS COUNTIES, Calif. Between three miles north of Livingston and Stanislaus County line and between Modesto and Empire.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 8.9 miles resurfacing with plant mix surfacing.
Contractor—J. Ruddy, 922 J St., Modesto, Calif., $60,968.50.

5/20/47 40
Contract Awarded
Widening Cost $74,177.30
SAN MATEO COUNTY, Calif., At Geneva Ave. near San Francisco County line, and in Brisbane near Visitacion Ave.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 0.6 mile net length widen existing pavement to provide channelization of intersections and installation of traffic signal systems.
Contractor—Chas. L. Harney, Inc., 575 Berry St., San Francisco, Calif.

5/20/47 40
Owner Taking Bids—Due June 3, 7:30 P. M.
Site Improvements
SAN LUIS OBISPO Calif., San Luis Obispo Co. San Luis Obispo High School.
Owner — San Luis Obispo High School Dist., Carl G. Beck, Clerk, San Luis Obispo, Calif.
Civil Engrs. — Burch & Beck, 318, Courthouse, San Luis Obispo, Cal. Includes grading, installing culverts, etc.
Specifications obtainable from office of the engineers upon payment of $5.00.

5/20/47 40
Contract Awarded
Grading and Bridges Cost $117,702.20
INYO COUNTY, Calif. Near Bishop on Warm Springs Road and Pleta Road.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer, G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Net distance of about 4.4 miles grading and applying penetration treatment thereto and constructing two timber trestle bridges.
Contractor—Basich Constr Co. and Basich Bros., Box 151, Alhambra, Calif.

5/20/47 40
Contract Awarded
Surfacing Cost $16,463.40
INYO COUNTY, Calif. Between Route 23 and Mono County line; between west city limits and Route 23 in Bishop, and between Route 23 and Keeler.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 3.2 miles surfacing with road-mixed surfacing.
Contractor—Brown & Krull, 644 Schofield St., Palo Alto, Calif.

5/20/47 40
Hearing of Protests Set for May 23, 8 P. M.
Street Improvement; Res. No. 2619
SACRAMENTO, Calif., Sacramento County. Alley between W and X Sts. from 14th to 15th St.
Owner—City of Sacramento, H. G. Denton, city clerk, City Hall, Sacramento, Calif.
City Engineer—Fred Klaus, City Hall, Sacramento, Calif.
Includes grading, concrete curb, wall, hydraulic concrete pavement 6-in. thick, etc.

5/20/47 40
Hearing of Protests Set for May 23, 8 P. M.
Street Improvement; Res. No. 2563
SACRAMENTO, Calif., Sacramento County. Southerly half of T St. from western boundary of Trainor Vista to 58th St.; U St. from 58th St. to 59th St.; 58th St. from B St. to 2nd Ave., 2nd Ave. from 57th to 59th St.
Owner—City of Sacramento, H. G. Denton, city clerk, City Hall, Sacramento, Calif.
City Engineer—Fred Klaus, City Hall, Sacramento, Calif.
Includes grading, sidewalks, sewer, asphaltic concrete pavement 5½-in. thick, etc.

5/20/47 40
Contract Awarded
Street Improvement Cost $4,293.29
MONO COUNTY, Calif. Leevining streets.
Owner — County of Mono, county clerk, Courthouse, Bridgeport, Calif.
About 0.95 mile applying bituminous surface treatment.
Contractor — Browne & Krull, 644 Schofield St., Palo Alto, Calif.
Bids submitted May 8 were: George E. France, Visalia, **$4426.62.** Bishop Construction Co., Bishop, **$4746.61.**
Al Bainter, Long Beach, **$7893.20.**

5/20/47 40
Contract Awarded
Street Improvements Cost $8,583.50
BRIDGEPORT, Calif., Mono County.
Owner — County of Mono, county clerk, Courthouse, Bridgeport, Calif.
Grading, applying imported borrow and road-mixed surfacing.
Contractor — Browne & Krull, 644 Schofield St., Palo Alto, Calif.
Other bids submitted May 8 were: George E. France, Visalia, **$8267.20.** Bishop Engineering & Construction Co., Bishop, **$11,277.20.**
A. A. Bainter, Long Beach, **$22,348.**

5/20/47 40
Contemplated
Street Improvement Cost $42,000
MOUNTAIN VIEW, Calif. - Santa Clara Co. Sierlin Road.
Owner — City of Mountain View, Mayor Frank Morton, Mountain View, Calif.
City Engineer—Earl C. Thomas, 310 University Ave., Palo Alto, Calif.
Widening and improvement.

5/20/47 40
Contract Awarded
Grading Cost, $192,220.75
LOS ANGELES, Calif., Los Angeles County. Santa Ana Parkway between Aliso and Kearney Streets.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
Grading and paving interchange roadways between Aliso St. viaduct, Ramona Parkway and Santa Ana Parkway with portland cement concrete and asphalt concrete.
Contractor — Vido Kovacevich Co., 5300 Imperial Highway, South Gate, Calif.

5/20/47 40
Contract Awarded
Street Improvement; Spec. 1946-2 Cost $99,786.64
MENLO PARK, Calif., San Mateo Co. Portions of Santa Cruz Ave., Oak Grove Ave., Grane St., Chestnut St. and Johnson Lane, alleys and parking lot.
Owner—City of Menlo Park, Mayor Chas. P. Burgess, City Hall, Menlo Park, Calif.
City Engineer—Edwin H. Smith, Bay and Chestnut Sts., Redwood City, Calif.

MENLO PARK, Calif., San Mateo Co. Menlo Ave.
Owner—City of Menlo Park, Mayor Chas. P. Burgess, City Hall, Menlo Park, Calif.
City Engr.—Edwin H. Smith, Bay & Chestnut Sts., Redwood City, Calif.

5/20/47 40
Low and Only Bidders
Surfacing Cost $36,665
COALINGA, Calif., Fresno County.
Owner—City of Coalinga, W. C. Wallace, city clerk, City Hall, Coalinga, Calif.
Plans by engineering department of owner.
Road-mixed surfacing and seal coat.
Low Bidder—Ted F. Baun, 324 Princeton, Fresno, Calif., $36,665.
Other bids submitted May 5 were: Gerald Brewster, Avenal, $37,988.
Phoenix Construction Co., Bakersfield, $40,562.
Valley Construction Co., Fresno, $43,207.

5/20/47 40
Contract Awarded
Storm Drain Cost $22,061.40
CASTROVILLE VALLEY, Calif., Alameda County. Between San Miguel Ave. and Park Way.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 0.4 mile storm drain.
Contractor—McGuire & Hester, 796 66th Ave., Oakland, Calif.

5/20/47 40
Contract Awarded
Highway Repair Cost $148,631.50
MODOC COUNTY Calif. Between Leach Lake Valley line and Canby and between 6.8 miles and 7.4 miles northwest of Canby.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
A net length of about 20.8 miles repairing with crusher run base and cseal coat.
Contractor — Harms Bros., Route 4, Box 2220, Sacramento, Calif.

5/20/47 40
Contract Awarded
Grading Cost $206,530.50
FRESNO COUNTY, Calif. Between Manning Ave. and Route 41.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 5 miles grading, constructing plant mix surfacing on bituminous treatment and applying penetration treatment to shoulders.
Contractor—A. Teichert & Son, Inc., Box 1133, Sacramento, Calif.

5/20/47 40
Low Bidder
Surfacing Cost $30,907
LOS ANGELES COUNTY, Calif. Lakewood Blvd. between Spring St. and Conant St.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 0.7 mile net length reconstructing existing shoulders and surfacing with plant mix surfacing.
Bids opened in the State Bldg., Los Angeles, Calif.
Low Bidder—Sully-Miller Contracting Co., 1500 W. 7th St., Long Beach, Calif., $30,907.

5/20/47 40
Contract Awarded
Grading, Paving and Bridge Cost $877,917.50
SANTA BARBARA, Calif., Santa Barbara County. Between 0.2 mile east of Park Place and Rancheria Street.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 2.2 miles net length grading and paving a 4-lane divided highway with portland cement concrete on cement-treated subgrade, surfacing other areas with plant mix surfacing on crusher run base and on imported borrow and constructing a reinforced concrete bridge on timber piles.
Contractor—N. M. Ball Sons, Box 430, Berkeley, Calif.

5/20/47 40
Contract Awarded
Interchange Channelization; Spec. 20,164. Cost $8,283.75
SAN FRANCISCO, Cal., Bernal Ave. San Jose Ave and Monterey Blvd.
Owner — City and County of San Francisco, Department of Public Works, Room 282, City Hall, San Francisco, Calif.
City Engineer — Ralph Wadsworth, City Hall, San Francisco, Calif.
Contractor — Chas. L. Harney, 575 Berry St. ,San Francisco, Calif.

Street Improvement; Res. 46-25
SAN MATEO, Calif., San Mateo Co.
Flores St., between 28th Avenue and the NW boundary of Anthony Sub. Edison Street between the N W boundary of San Mateo Terrace No. 4; and Lot 1 of C. W. Diehl Sub.; and the SE half of Edison Street opposite Lot 35 of Anthony Sub., and 24th Avenue between Hacienda Street and Alameada de las Pulgas.
Owner—City of San Mateo, Wm. J. O'Farrell, city clerk, Arthur Sullivan, city engineer, City Hall, San Mateo, Calif.
Consulting Engineer—W. D. Soule, 318 B St, San Mateo, Calif.
Includes grading crusher run waterbound rock macadam base pavement with asphalt concrete wearing surface, portland cement concrete curbs, gutters, sidewalks and electroliers, sanitary sewer house laterals.

5/20/47 40
Low and Only Bidders
Grading and Paving Cost $133,705.09
LOS ANGELES, Calif., Los Angeles Co. Figueroa St. between NUeola St. and Buena Vista Terrace.
Owner—Los Angeles City Board of Public Works, 153 City Hall, Los Angeles, Calif.
Plans by owner.
Low Bidder—Griffith Co., 1060 So. Broadway, Los Angeles Calif., $13,705.09.
T. E. Sherlock, at $145,741.19 submitted only other bid May 14.

5/20/47 40
Low and Only Bidders
Grading & Paving Cost $155,258.13
LOS ANGELES, Calif., Los Angeles County. Olympic Blvd., between Los Angeles St. and Flower St.
Owner—Los Angeles City Board of Public Works, 153 City Hall, Los Angeles, Calif.
Plans by engineering department of owner.
Low Bidder—T. E. Sherlock, 1103 W. 40th Pl., Los Angeles, Calif., $155,258.13.
Griffith Co., Los Angeles, at $161,006.70 submitted only other bid May 14.

5/20/47 40
Contract Awarded
Surfacing Cost $87,925
VENTURA COUNTY, Calif. Between Oxnard and Big Sycamore Creek.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 5.7 miles resurfacing with plant mix surfacing and placing imported borrow on shoulders and apply bituminous surface treatment thereto.
Contractor—Baker and Pollock, 141 S. Coronado, Ventura, Calif.

5/20/47 40
Bond Issue Defeated May 6 in Amount of $280,000
Street Improvements
SANTA BARBARA Calif., Santa Barbara County.
Owner—City of Santa Barbara, city clerk, City Hall, Santa Barbara, Calif.
Includes realignment of streets, bridge, grading, paving, sidewalks, storm drains.

5/20/47 40
Owner Taking Bids—Due May 26, 3 P. M.
Surfacing
SAN JUAN COUNTY, Utah. U. S. No. 160, between Monticello and Colorado line.
Owner—Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plan nby engineering department of owner.
17.095 miles 2-in. road-mixed bituminous surfaced road.
Specifications obtainable from the above office upon deposit of $2, refundable.

5/20/47 40
Owner Taking Bids—Due May 26, 2:30 P. M.
DAVIS COUNTY, Utah. U. S. No. 91, between Farmington Junction and Layton.
Owner—Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
Approximately 4.241 miles 3-in. plant-mixed bituminous surfacing.
Specifications obtainable from the above office upon deposit of $2, refundable.

5/20/47 40
Owner Taking Bids—Due May 28, 10 A. M.
Grading and Surfacing
IRON and KANE COUNTIES, Utah. Zion-Bryce Canyon National Parks approach road, Sec. C2 and Sec. C3, portion, Dixie National Forest.
Owner—Public Roads Administration, B. W. Matteson, division engineer, Federal Bldg., Ogden, Utah.
Plans by engineering department of owner.
About 11.483 miles.
Specifications obtainable from the above office upon deposit of $10, refundable.

5/20/47 40
Owner Taking Bids—Due May 26, 2:30 P. M.
Surfacing
UINTAH COUNTY, Utah. S. R. No. 44, between Vernal and Stanaker Draw.
Owner — Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
About 3.302 miles 2-inch road-mixed bituminous surfaced road.
Specifications obtainable from the above office upon deposit of $2, refundable.

5/20/47 40
Owner Taking Bids—Due May 26, 2 P. M.
Surfacing
SALT LAKE COUNTY, Utah. U. S. No. 50, on Magna Main St.
Owner — Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
Includes 0.841 mile 3-in. road-mixed bituminous surfaced road.
Specifications obtainable from the above office upon deposit of $2, refundable.

5/20/47 40
Owner Taking Bids—Due May 27, 10 A. M.
Grading, Bridges, Etc.
STATE OF WASHINGTON.
Owner—State of Washington, Clarence B. Shain, director of highways, Olympia, Wash.
Plans by engineering department of owner.
Projects include:
(1) Resurfacing existing concrete pavement with asphaltic concrete on 6.09 miles of P.S.H. No. 1, Mary's Corner to Toledo in Lewis County, a state project involving about 1132 cu. yds. shoulder material, 9953 tons of asphaltic concrete and other items.
(2) Constructing non-skid single seal treatment on P.S.H. No. 2, Iron Creek to junction P.S.H. No. 15, 24.65 miles, and on P.S.H. No. 15, junction P.S.H. No. 2 to Leavenworth, 4.14 miles, a state project in Kittitas and Chelan Counties, involving about 420 tons of bituminous cement RC-5, 5340 cu. yds. of mineral aggregate from stockpiles and other items.
(3) Constructing 49.469 miles of non-skid single seal treatment on portions of P.S.H. Nos. 2, 5, 11, and S.S.H. Nos. 3-A and 3-E, and light bituminous surface treatment on 105 miles of P.S.H. No. 8 in Benton, Franklin, Kittitas, Walla Walla and Yakima Counties, a state project, involving about 2,100 tons of bituminous cement RC-4, 245 tons of bituminous cement MC-2, 10,100 cu. yds. of mineral aggregate from stockpile, 2100 cu. yds. of cover stone from stockpile and other items.
(4) Manufacturing and stockpiling crushed stone surfacing, mineral aggregate and crushed cover stone and constructing 71.22 miles of non-skid single seal treatment on P.S.H. No. 7 and S.S.H. Nos. 2-G and 11-C in Lincoln and Whitman Counties, a state project, involving about 310 tons of bituminous cement MC-3, 700 tons of bituminous cement RC-4, 6000 cu. yds. of crushed stone surfacing in stockpile, 7000 cu. yds. of crushed cover stone in stockpile, 11,440 cu. yds. of mineral aggregate in stockpile and 12,820 cu. yds. of placing mineral aggregate from stockpile.
(5) Constructing light bituminous surface treatment, modified bituminous macadam and non-skid single seal treatment on 26.66 miles P.S.H. No. 12 (5 sections) in Wahkiakum and Pacific Counties and 1.05 miles of S.S.H. No. 12-B in Pacific County, a state project, involving about 590 tons of bituminous cement MC-2, 348 tons of bituminous cement RC-5, 748 tons of bituminous cement SC-6, 2670 cu. yds. of placing crushed cover stone from stockpiles, 17,175 cu. yds. of mineral aggregate in place from stockpiles and other items.
(6) Grading, draining, surfacing and constructing a bituminous surface treatment, road-mix type class B, on 4.45 miles of S.S.H. No. 10-A, Armstrong Meadows to Disautel, Section 2, in Okanogan County, F.A.S. No. S-41 (4), involving lump sum clearing and grubbing, about 125,530 cu. yds. excavation, 15,210 cu. yds. of ballast, 16,490 cu. yds. of special sand borrow, 4430 cu. yds. of sand filler, 6950 cu. yds. of crushed stone surfacing, 2690 M gallons of water, 4050 cu. yds. of mineral aggregate, 258 tons of bituminous cement MC-2, 4.4 mile sof mixing, 2847 rods of right-of-way fence, 2466 lin. ft. of culvert pipe and other items.
Specifications obtainable from the above office upon payment of $2.

5/20/47 40
Contract Awarded
Imported Borrow Shoulders Cost $23,732.50
YOLO COUNTY, Calif. Between Solano County line and two miles south of irrigation canal.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 8.9 miles construct shoulders of imported borrow.
Contractor—McGillivray Constr. Co. Box 873, Sacramento, Calif.

5/20/47 40
Owner Taking Bids—Due June 2, 10 A. M.—Converting Bldgs. and Utilities; Spec. 1826

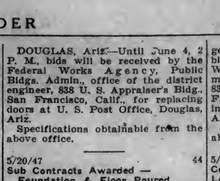
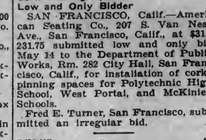
Heating Boilers, Etc. Bids Wanted

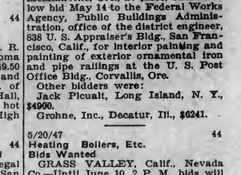


GRASS VALLEY, Calif., Nevada Co.—Until June 10, 2 P. M., bids will be received by the Federal Works Agency, Public Bldgs. Admin., office of the district engineer, 838 U. S. Appraiser's Bldg., San Francisco, Calif., for new heating boiler, oil burner, and oil burning water heater, etc., at U. S. Post Office, Grass Valley, Calif.
Specifications obtainable from the above office.

REQUIRES ONLY 2½ INCHES HEADROOM



Glide-Away



The Perfect New, Modern OVERHEAD TYPE **GARAGE DOOR**

GUARANTEED WELDED CONSTRUCTION

Glide-Away's metal weatherstripping on door and patented Jamb Aligner mast no provide a perfect weathertight closure.

Glide-Away's patented Jamb Aligner and weather seal permits installation in out-of-plumb openings without carpenter work.

When open, Glide-Away recesses completely into the garage, up and out of the way . . . mechanism still leaves garage space clear. Also note its sturdy construction.

Glide-Away's compact mechanism fits right on the door jambs—no stanchions or protruding structure to kill space.

Interior view of garage showing Glide-Away completely recessed. Elimination of center post with double doors makes parking easier.

Only *Glide-Away* Has the New IMPROVED SPRING-BALANCED MECHANISM that

Glide-Away **is One Piece Welded Construction of N-A-X HIGH TENSILE STEEL**

SINGLE DOOR.. SIZE: 8' x 7'
DOUBLE DOOR. SIZE: 15'11" x 7'

OFFERS THESE ADVANTAGES!

The new Glide-Away mechanism is engineered to provide perfect balancing of the door's weight. Specially designed door handle can be opened from inside when locked—no danger of accidental imprisonment. Glide-Away can be quickly and easily adjusted with only wrench or pliers.

- FITS ANY GARAGE SIMPLY INSTALLED
- NEEDS NO EXTRA SPACE
- EFFORTLESS AND NOISELESS
- IS EASILY ADJUSTED

We have a full size working model installed at our warehouse for your inspection. Come and see it. Contractors Welcome.

FHA RECORD SET

WASHINGTON.—Setting a new postwar record, applications for FHA mortgage insurance reached a record volume of 52,950 dwelling units during April, Commissioner Raymond M. Foley announced Wednesday. There are 39,186 new dwelling units.

MATERIALS UP 75%

WASHINGTON.—Sales of construction materials wholesalers in March totaled $314 million—a 75 per cent increase over March, 1946. February's sales were running 91 per cent ahead of a year ago.

Municipal Licensing Assailed by Murphy, McKeon, of CSLB

Controversial S.B. 906 which would permit municipalities to examine and license contractors, is scheduled to be aired before an assembly committee on Wednesday evening, March 21. The measure which already has passed the senate, is unofficially opposed by the entire contractors state license board, spokesmen said today.

Chairman J. Philip Murphy, stressing that he was not speaking for the board stated:

"I personally am opposed to S.B. 906 because it places too much power in the hands of municipalities. It it was solely for a revenue-producing purpose such as business taxes without qualifying examinations, I'm sure it would receive the approval and support of the board. However, we feel that the cities would not take adequate time in preparing examinations and that the public welfare would suffer."

Chris D. McKeon, San Francisco board member, disclosed that he plans to appear personally before the assembly hearing to protest pasage of the measure. "The entire board is unofficially opposed to S.B. 906," McKeon stated. "We have no objection to the bill as a source of municipal taxes but the additional power of qualification is too much to place in local hands."

GRAND COULEE FALLS ROAR FOR TOURISTS

COULEE DAM, Wash.—Fed by the nation's foremost power stream the west's mightiest falls at the Grand Coulee Dam again are putting on their world - famed show for thousands of visitors, the bureau of reclamation announced today in reporting that the spectacle of millions of water plunging down the spillway of man's biggest concrete dam will continue for several months.

Tons of thousands of visitors from all parts of the United States already have visited the dam this year, and the influx of sightseers is expected to increase daily until fall.

PAYETTE JOB LET TO BOISE COMPANY

WASHINGTON — Construction of laterals and sublaterals on the Payette Division of the Boise project in southwestern Idaho has been placed under contract by the bureau of reclamation, Commissioner Michael W. Straus announced today. The contract, awarded to the Humphrey-Ketchen Company, of Boise, Idaho, on its low bid of $251,381, is for earthwork and structures for the Conway Gulch Lateral, and the "C" Line East Canal laterals and sublaterals. The work is situated about five miles north of Caldwell, Idaho.

TUBELESS TIRES YET!

AKRON.—Tubeless tires — goal of tire manufacturers since the opening of the automotive era—have been developed by the B. F. Goodrich company and are now undergoing all known tire tests, it was announced here today.

START FLOOR RESEARCH

WASHINGTON. — Research to determine the materials and methods most suitable for constructing floors in low cost houses without basements will be carried out at the University of Illinois under a contract with the industrial research and development division of the office of technical services, John C. Green, OTS director, announced today. Research funds amounting to $20,000 have been alloted to the project.

'Costs Will Never Return to Prewar Levels'—Rogers

"Building costs reduction is a local problem in each area which won't be met by government exhortations nor by meetings and conferences," Tyler S. Rogers, national president of the Producers' Council told a joint meeting of the Building Industry Conference Board and the Producers' Council Monday night.

Rogers, who is also executive vice-president of Owens - Corning Fiberglas corporation, asserted that while no one factory controls costs he believes several indices indicate that construction prices are on their way down. "However," he stressed, "we must adjust our minds to a new level of prices because costs will never return to prewar level."

Now on a nationwide fact-find tour, Rogers outlined the following factors as indicative of lowering prices:

1. Costly delays are being cut down with increase of supply of materials.
2. Keener competition is returning with more houses being sold on a value, rather than a necessity, basis.
3. Building organizations are returning to prewar efficiency in planning and management.
4. Labor relations are improving and worker output increasing.
5. The industry is fostering technological improvements as the result of research training courses and building code modernization.

Directly opposing such deflationary factors, said Rogers, are such conditions as high levels of farm prices, work restrictive union rules and overpromising by the government. "By—holding out 15 million houses in 10 years, the government is creating an expectancy on the part of the people which has an inflationary tendency," he declared. "The housing shortage can't be solved by government aid because money in the industry is plentiful."

The Producers' president disclosed a breakdown of building costs which he had amassed after conferences in many of the nation's cities. Getting the materials

(Continued on Page 7)

'ENFORCE OLD CODE STRICTLY' IS ORDER OF WORKS DIRECTOR

Works Director Harry Vensano has issued an order admonishing all city building inspectors to "strictly enforce the present code on all points", it was learned this week.

The order scraps wartime substiutions allowed by the city building department where specified materials were difficult or impossible to get.

The move was termed pressure for action on the proposed building code by Milton Morris, executive secretary of the Associated Home Builders, who asserted that it would tend to raise the cost of homes indirectly.

Code consideration was on the legislative calendar early this month, but was postponed until June 4, when budget hearings will have been concluded.

LUMBER YIELD HIGH

PORTLAND. — April lumber shipments from the Douglas fir region exceeded those of any month during 1946 and nearly equalled the peak reached in February, 1947 H. V. Simpson, executive vice president of the West Coast Lumbermen's Association, announced today.

Average weekly shipments from Oregon and Washington during April were 135,150,000 board feet.

Bill to Sell War Housing to Vets Is Shaping Up

WASHINGTON.—The banking and currency committee of the house finally has agreed on terms of a bill calling for the disposition to veterans first of $743 million worth of permanent war housing.

Small Buildings First

Some 160,000 different dwelling units throughout the country would be affected by passage of this measure.

One of the most important changes to be effected by the proposed legislation would be the transfer of administration of the program from the federal public housing authority to the federal works agency.

FWA would be directed to get rid of the surplus war housing on a priority basis — first priority would go to veterans living in such units; second priority to veteran applicants, and the third to nonveteran occupants.

Buildings with not more than four dwelling units would be offered first. Various types of veteran associations would have first chance at the larger buildings.

Wolcott Sponsor

The units could be sold separately and would be eligible for loans under the GI Bill of Rights in the case of veteran purchasers.

The bill also:

1—Requires cash to the Treasury by the purchaser, but provides government mortgage insurance up to 90 per cent of value, which is intended to help purchasers obtain financing from private sources.

2—Stipulates that the federal housing administration shall make appraisals of the housing and establish prices.

The bill was offered by Jesse P. Wolcott, committee chairman, who has come to be known as the builders' friend in congress.

33-UNIT APARTMENTS APPROVED BY FHA IN LAS VEGAS, NEVADA

LAS VEGAS.—Approval of a 33 unit rental housing project in Las Vegas, Nev., for World War II veterans and their families was announced today by Assistant State Director Orrin W. Davie at the Reno office of the federal housing administration.

The project, to be called the Carleston Square Apartments, will be built by A. E. Tiffany and Orville A. Bell of Las Vegas on South Charleston Boulevard and will be financed by the National Life Insurance Company with a mortgage of $196,500 to be insured by FHA under Title VI of the National Housing Act. It will consist of two-story structures containing 21 units of four rooms and 12 of two rooms.

NAZIS MAKE FREIGHT CARS FROM CONCRETE

WASHINGTON. — Cast freight cars made from pre-stressed reinforced concrete are being manufactured in Heidelberg, Germany, according to a preliminary report received recently by the office of technical services, Department of Commerce, from its overseas operating staff at the U. S. Army field information agency, technical, Karlsruhe, Germany.

The investigators report that every part of the freight cars are made of cast concrete except the wheels, springs, and drawbars. The company has orders on hand for 1,000 cars. The mold for casting such a car in the United States would cost about $10,000, the investigators estimate. Concrete is also used in precast beams, joists, and floor sections of houses and industrial plants.

Northern California Group Raps Federal Scrap Iron Handling

The nation is facing the worst scrap iron and steel shortage since 1942, H. W. Christensen, general purchasing agent of Columbia Steel Company, and newly appointed chairman of the Northern California Steel, Foundry and Scrap Industries Committee for Expediting Iron and Steel Scrap, warned today.

"The crisis is directly attributable to the exportation of some twenty million tons of ferrous scrap during the ten years preceding the recent World War, plus the tremendous tonnages of steel in many forms sent abroad during the war," Christensen said. "Present collections of scrap are not sufficient to meet the demands of the steel and foundry industries, and if this scant supply is not augmented imediately, the production of finished steel and castings may be curtailed drastically."

Christensen pointed out that the major hope for breaking the scrap bottleneck has been the huge amounts of obsolete war materiel held under control of the federal government.

"John Steelman, director of reconversion, in a statement issued March 7, promised that about 1,250,000 tons of wartime materiel, equipment and other scrap would be returned to the nation's stockpiles during 1947," Christensen said. "Steelman also promised that some 500,000 tons of scrap would be put into industrial channels during the next two months.

"Actually, there has been only a very slight increase in inventories. This is the time of year when there should be a large flow of scrap into dealers' and consumers' inventories. The movement has been much smaller than anticipated."

Appointed to serve with Christensen on the Committee for Expediting Iron and Steel Scrap are H. E. Kroeck, purchasing agent, Enterprise Engine and Foundry Co.; Marshall Shapiro, president, California Metals Company; E. W. Thomas, manager of purchasing, Bethlehem - Pacific Steel Corporation, and Harry Dull, manager of Moore Machinery Company.

COMMERCE RELEASES LIST OF 250 PREFAB MAKERS IN THE NATION

WASHINGTON.—More than 250 American manufacturers are now producing prefabricated or ready-cut homes or have indicated their intention to do so in 1947, according to a list released today by the construction division, Department of Commerce.

The list gives names and addresses of manufacturers in most states and a brief outline of materials used, number of stories, method of distribution, distribution area, and the location of producing plants.

Copies of the list may be obtained on request from the construction division, Department of Commerce, Washington 25, D. C.

NELSON TO SPEAK ON STUD WELDING PHASES

Ted Nelson will address members of the American Welding Society next Monday night on "Recent Developments in Production Stud Welding", following a dinner at the Engineers' Club.

The meeting will honor the past chairmen, charter members, and oldest members of the Society. Immediately after the technical meeting a sound motion picture will be shown, entitled: "Prevention and Control of Distortion in Arc Welding".

Rogers Lauds BICB
(Continued from Page One)

to the site takes 45.7 per cent of the total with the actual costs of materials running 23.8 per cent; distribution 18 per cent and transportation 3.9 per cent. Total land costs account for 12.5 per cent with 7 per cent of this for land purchase and the remainder for improvements.

Erection costs are 41.8 per cent of the total with 12.3 going to contractors and subcontractors, and the remainder, 29.5, to labor. This breakdown, he said, revealed that "there is no hog in the picture,—no one person or group is getting too big a share."

In the overall aspect, prices have increased 93 per cent, according to Rogers' figures. This includes an increase in materials of 72 per cent; labor, 119 per cent; subcontractors, 101 per cent; land, 112 per cent; supervision, 100 per cent, and bonded, jokingly, architects, 220 per cent.

The prosperity of the construction industry may be "imperiled by high costs and the public attitude", warned Rogers, who urged that nearly one hundred executives present to continue the work of the Building Industry Conference. The BIC sets "a pattern of national significance" he declared. "It does not yet exist elsewhere but it will furnish a prototype for others."

Criticizes DPWE

Supervisor Chester MacPhee, in welcoming Rogers to San Francisco, noted that he is supervising a modernization of the city building code. Only a few items are left to be settled, he said, adding "I have told the building department they have not shown the full cooperation (with the construction industry) that they could show."

PROMPT DELIVERY—ORDER NOW!

Fenestra
INDUSTRIAL STEEL DOORS

NOW AVAILABLE! from our Pacific Coast Factory

Fenestra Industrial Steel Doors are available in a variety of stock types and sizes. They are ideal for stairway and service entrances, furnace rooms and fire exits (where label doors are not required) of commercial and public buildings — stores, laundries, schools, public garages, filling stations. Also for industrial buildings such as tool and die shops, machine shops, bakeries, dairies and many other types of structures.

(Right) Typical Single Swing Door • Well Designed, Sturdy • Long-lasting

STOCK TYPES . . . Sizes range from 2'8" to 10'0" width and 6'8" to 8'0" height—providing variety for many needs. For dimensions by types illustrated, send for our catalog.

Official Proposal

Furnishing Certain Items of Equip. For the Martinez Filter Plant

INVITATION FOR BIDS MATERIALS AND SUPPLIES CITY OF MARTINEZ

Sealed proposals for furnishing certain items of equipment for the Martinez Filter Plant, addressed to the City Clerk, will be received by the City Clerk, City Hall, Martinez, California, until 8:00 P. M. June 4, 1947, at which time they will be publicly opened and read.

The materials on which proposals are desired are the following:

1. (a) 4,100 Linear Feet 16 inch Class 150 Cast Iron Pipe.
1. (b) 4,100 Linear Feet 16 inch Class 150 Transite Pipe.
2. (a) 3,150 Linear Feet 14 inch Class 150 Cast Iron Pipe.
3. (b) 3,150 Linear Feet 14 inch Class 150 Transite Pipe.
3. (a) 1,000 Linear Feet 12 inch Class 150 Cast Iron Pipe.
3. (b) 1,000 Linear Feet 12 inch Class 150 Transite Pipe.
4. (a) 21.88 Tons Class D Cast Iron Fittings for C. I. Pipe.
4. (b) 24.06 Tons Class D Cast Iron Fittings for use with Class 150 Transite Pipe.
5. Three 1400 Gallons Per Minute High Lift Electric Motor Driven Horizontal Centrifugal Pumping Units complete with motors.
6. One Venturi Meter and Recorder - Totalizer - Indicator Panel and appurtenances, complete as specified and shown on drawings.
7. 112 Linear Feet of 24 inch, Class 150, Cast Iron Pipe, as specified.
8. 96 Linear Feet of 18 inch, Class 150, Cast Iron Pipe as specified.

Contract Documents may be examined at the Office of the City Engineer, 706 Estudillo Street, Martinez, California, and may be obtained by bona fide bidders from the City Engineer without charge. Prints of the plans, if desired, may be obtained from the City Engineer on the payment of $0.50 per sheet, which is not refundable.

Bidders may bid on any or all items and awards will be made, if made at all, on each item separately. (Daily Pacific Builder) (May 14, 21, 28, 1947)

PLANS and Speculations

The City of Sausalito bid on ten parcels of Marinship yards declared surplus by war assets administration, with an option to purchase after ten years. The city wants the land for a recreation area.

oOo

San Rafael this week voted to create a sanitation district. A bond issue is planned to finance a sewer lipe and treatment plant.

oOo

California senate public health and safety committee endorsed a bill intended to reduce fire hazards in places of public asemblage, by requiring hangings and other decorative materials to be either fireproof or treated with flame-retardant chemicals, which are to have approval of the state fire marshal.

oOo

Senators McCarthy (r., Wis.) and Robertson (r., Wyo.) today introduced legislation to provide specially designed homes for paralyzed veterans of both world wars.

oOo

Senate governmental efficiency committee killed a proposal by Senator O'Gara to submit to the people $100 million bond issue for housing purposes.

oOo

The California state fair, which will be held this year for the first time since 1941, was granted $42,756 by the army for restoration of the grounds at Sacramento after wartime military occupation.

oOo

Delegates from the San Joaquin valley, southern Alameda county and the San Francisco peninsula put themselves on record at Hayward last night in favor of a southern crossing when the next span is built.

oOo

Arizona planning loans approved by FWA include: Tucson (two advances): sewage treatment plant additions, estimaied cost $250,000, federal advance, $11,300; community building to house recreational facilities and health clinic, $72,690 and $2,650.

oOo

California planning loans approved by FWA include: Garvey School District of Los Angeles County (two advances): additions at Willard School, Wilmar, cost $77,000, advance $3,350; additions at Monterey Vista School, Monterey Park, $77,000 and $3,350; El Monte school district of Los Angeles County, elementary school classroom unit at El Monte, $205,700, $8,250; Castaic union school district of Los Angeles County, elementary school addition at Castaic, $250,000 and $10,000; Willowbrook school district of Los Angeles County, elementary school at Willowbrook, $150,300 and $5,650.

oOo

Yolo County farm leaders are planning tentative details for a $143,000 agricultural building to be erected should the California state legislature make the funds available.

oOo

John L. Piper, district construction engineer for the California division of highways, will retire on June 30 after 33 years of service.

oOo

L. R. Farrell, district manager of Pacific Gas and Electric company, announced a large construction crew with equipment will be assembled near Downieville by the end of May to extend service to Goodyears Bar, Coxs Bar, Indian Valley and the Gold Lake section north of the Sierra Buttes, all in Sierra County.

Border Seaway Job Wins Support of Sen. Vandenberg, Barkley

WASHINGTON. — The mighty St. Lawrence Seaway project, planned but stagnant for a number of years, now has bipartisan support in congress and is said to be as near realization as at any previous time.

State Dept. Approves

Supporters of the plan have come forth with a new idea for self-liquidation and as with no many large construction projects, the newer phase is appealing for congressmen.

Fresh hope that the building work can actually get underway soon springs from the fact that the project now enjoys strong senatorial support from both Vandenberg, chairman of the foreign relations committee, and Barkley, minority leader. Added to this is the approval of the State Department.

Proponents are hopeful that with lineup advocating construction of the mammoth seaway it can move forward at last.

During the war, admittedly, it would have been nonsensical to have undertaken development of the 27-foot channel from the Atlantic Ocean through all the Great Lakes. Diversion of manpower and materials to such a long-range construction job could not be wise in time of war.

Legislation Timely

Some observers say it still is too early to start construction because of remaining shortages in certain building items. But these same observers say it is not too soon to pass the necessary legislation and complete the agreement with Canada. With legislative procedures out of the way, the track would be cleared for contracts to be let as soon as material supplies warranted.

#

Soil Compaction Is Topic at Engineers', Contractors' Meeting

WASHINGTON. — Problems involved in soil compaction, particularly as they apply to development of highway construction equipment, will be studied by engineers, contractors and equipment manufacturers when they convene in joint session at the Statler Hotel in Buffalo, New York, May 26 and 27.

The meeting is being sponsored bythe American Road Builders Association.

Informal discussions on compaction problems will be headed by Earl F. Bennett, chairman of the committee on compaction of soils, and principal soils engineer for the New York Department of Public Works.

Professor Kenneth B. Woods, chairman of the soils section, committee on development of highway construction equipment, and associate director of the joint highway research project at Purdue University, will lead the discussions on compaction equipment.

#

M. J. KING TO BUILD $13.5 MILLION HOMES

SACRAMENTO. — M. J. King, Inc., of San Francisco, today announced that construction has started on a $13½ million dollar subdivision of fifteen hundred homes at a site bounded by Del Paso Manor, Marconi Boulevard and Eastern Avenue here.

The frame and stucco dwellings will be built according to eight different floor plans, and cost will range from $7,500 to $10,500 each. There will be a shopping district having a grocery, florist, harber, and pharmacy shops.

Precarious Status Of Pig Production Evident at Foundries

WASHINGTON.—The precarious state of pig iron supply to housing items is demonstrated in the efforts being made at Gadsden, Ala., to keep the large blast furnace there in continuous operation.

Closed for about one week in April, and down again because of overloading in May, this large and important blast furnace operation has been repaired a number of times and is being nursed along in an effort to keep the flow of pig iron as constant as possible.

It is estimated by government housing officials that between 6,000 and 7,000 tons of pig iron in foundry and malleable grades was lost during the April closing. A lesser amount was lost in May but in these days of iron and steel item shortages the industry can ill afford to chance an interrupted production schedule.

Forcing the Gadsden furnace was said to have resulted in damage to its stacks. Reportedly, 250 tons of reinforcing steel were used to strengthen the structure but it went out the second time in spite of this precaution. In full-scale operation, the Alabama installation furnishes 20,000 tons of pig iron per month, exclusively for use in housing materials.

But in spite of these setbacks, the pig iron supply picture is looking up.

At Daingerfield, Texas, for example, where government red tape holding up the lease negotiations now have been removed, Lone Star Steel expects to be in iron production by July 1. Industry spokesmen, however, are not so optimistic. They don't expect Lone Star to be turning out the precious foundry and malleable grades until at least the middle of July. At Daingerfield, though, the coke ovens have never been allowed to cool entirely. Since the days of wartime production of coke, they have been warned by natural gas and so now are ready to be charged imediately without pre-heating.

In fact, charging operations at the Texas plant are said to be going now.

With the entire Gadsden output going either to cast iron soil pipe or cast iron pressure pipe, and with potential production of 45,000 gross tons per month from the Sheffield Steel Corporation's plant at Houston, Texas, and 30,000 to 36,000 tons per month from the Lone Star factory, housing people in and out of government are encouraged.

#

BILL TO INCREASE ZIESS' SALARY IS PASSED IN ASSEMBLY

Eugene E. Zeiss, registrar of the state contractors license board, will receive a salary boost to $8000 from $6420 if the senate approves A.B. 2022 already passed by the assembly. Only six assemblymen opposed passage of the bill after a deletion of a provision exempting wages of board civil service employees from state personnel board jurisdiction.

Among other bills passed by the assembly were A.B. 2255 requiring payment of another $10 filing fee if a license applicant fails to take the exam. within six months of his original application, and A.B. 1867 allowing the registrar to certify, for court records, the non-existence of a record on an unlicensed contractor. The bill originally provided for the creation of a state division of construction and was to include the board of architects, civil engineers' registration board, and the contractors' state license board. It was amended out in committee.

Peninsula Builders Exchange Jinx To Be On Tuesday, 27th

Floor show entertainment recruited from San Francisco night clubs will feature the merriment at the stag dinner to be held for 250 members and guests of the Peninsula Builders' Exchange to be held Tuesday night, 7 p. m., at Villa Chartier in San Mateo.

The dinner serves as a welcoming gesture to the incoming board of directors of the Exchange and as a note of thanks for retiring officers of the association.

George Skanderup, newly-chosen president, and William Poston, entertainment committee chairman, of Palo Alto, have arranged the program for the Peninsula men engaged in the building contracting business.

Hosts at the party will be Herman T. Holsher, retiring president; Oscar Person, vice-president Henry Park, treasurer; Jos. Nash, secretary, and Seth Cohn, formerly a director, and Herman Nelson, manager of the Exchange.

Herman Nelson, manager of the association, stated that notables of civic and business affairs will be present at the event.

#

May Ask June Bids On Kezar Renovation

The San Francisco board of supervisors this week gave their approval to a $57,796 for renovation work at Kezar Stadium.

Bids probably will be asked on the work during June. Included under the $57,796 appropriation are reconstruction of the Frederick Street wall (declared unsafe in the consulting engineer's report); reconstruction of the supporting walls of Sections WW to X and XX; repairs to the supporting walls in the press box; waterproofing and repairing of the main cornice; replacing of 10,000 wooden seats of 1924 vintage. The new seats are to be reconstructed with concrete and metal.

#

PIG IRON PRODUCERS ASSIGN TONNAGE TO HOUSING MATERIALS

WASHINGTON—Two Texas pig iron producers have agreed to produce large tonnages of pig iron for housing items in conjunction with their leasing surplus blast furnaces from the government.

Lone Star Company, which leased facilities at Daingerfield, Texas, agreed to supply the full output of its blast furnace from the time it starts operations thru September. Sheffield Steel Corp. will allocate one-third of its total metal output of the Houston furnace to foundry pig iron from the time it starts operations through June 30. Sheffield also will produce 3700 net tons of housing nails per calendar month until December 31.

#

SERIOUS PERSONNEL SHORTAGE HAMPERS STATE ROAD BUILDING

WASHINGTON.—Lack of trained personnel—because of low salaries—has hampered road building programs in forty states, a survey just completed by the American Road Builders' Association here reveals. Twenty-nine states reported they "could not compete with higher salaries in other engineering fields".

During the war, some 20,000 trained men left state highway departments to enter the armed forces or for war industries. Of this number, 58 per cent have returned to their old jobs, according to the survey. A wide variance is noted here, ranging from five to ten per cent insome states to 100 per cent in Montana and Rhode Island.

Overlapping Building Laws Add $70 Million To Construction Cost

Duplication, overlapping and unnecessary building laws add $70 million annually to the bill Californians pay for construction.

This was the assertion of Gilbert T. Morris, superintendent of building and safety in Los Angeles, before a state conclave of Structural Engineers Associations honoring formation of the Central Coast Association, in Sacramento Tuesday night.

Raps Housing Act

The meeting was attended by large delegations from the Central Coast and Northern California societies, and all the members of the Southern California association's board of directors.

Morris pointed out the need for uniformity of building regulations throughout the state, suggested that consideration be given the uniform building code, and sharply criticized the state housing act.

A hotel now going up in Los Angeles, he said, will cost $450,000 more in order to comply with fire regulations of the state code—"and it gives no more protection from fire hazard than hotels in Chicago and Atlanta where tragic fires occurred."

"It is a bad thing," he commented, "to require that much additional money and have no protection from fire hazard."

Legislative Review

Harold Engle, promjnent San Francisco engineer, urged immediate revamping of earthquake requirements, pointing out that serious earthquakes had occurred recently. He mentioned severe damage done schools in the Merced area on April 26, 1946, and warned that the toll might have been costly had the iremor come during school hours.

Third speaker was A. L. Kennedy, consultant and adviser on legislation, who reviewed recent revisions in the proposed Registration Act for Professional Engineers, and Assembly Bill 2117, allowing employment of practicing architects and engineers on state work.

The meeting opened with a reception for legislators at the Elks Club, then adjourned to the Masonic Temple where more than 150 members attended a dinner meeting.

Reno Men Attend

A delegation of Reno engineers were guests at the meeting. Among them were Professor H. B. Blodgett, of the University of Nevada department of structural engineering, and Walter Deeds, practicing engineer.

#

WEEK'S FHA TOTALS FALL OFF ON MAY 9

WASHINGTON. — Applications for new housing and total number of dwelling units to result from approvals by federal housing administration dropped off sharply during the week ending May 9, government housing circles announced today.

Standing against a high of 5,297 applications received by FHA under the permit system during the week ending April 25, were 4,649 applications submitted to field offices in the seven days preceding May 9.

#

POSTING BILL UP

San Francisco supervisors next Monday will give the final vote on an amendment to the municipal code requiring posting of notices on the site when building permits are granted changing the use or occupancy of existing structures and for new construction. There is a posting fee of $2.50 in both cases.

Official Proposal

Highway Imp.—Kern County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION of HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, Fresno, California, until 2 o'clock P. M., on May 28, 1947, at which time and place they will be publicly opened and read, for performing work as follows:

Kern County, between 0.4 mile west of Cottonwood Creek and Cottonwood Creek (VI-Ker-57-E), about four-tenths (0.4) mile in length, the central 20-foot portion of the roadbed to be scarified and reshaped and "Subsoiling" treatment applied.

Plans and specifications, and forms of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (1) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant fireman	$1.775
Flagman	1.35
Heavy duty repairman	1.90
Heavy duty repairman-helper	1.525
Laborer	1.35
Motor patrol operator, including any type of power blade	2.025
Roller operator	1.85
Tractor operator—bulldozer, tamper scraper or drag type	1.90
Any classification omitted herein not less than	1.35

Overtime: one and one-half (1½) times the above rates.
Sundays and holidays: one and one-half (1½) times the above rates.

State Highway Engineer's Estimate
Item 1. 21 stations scarifying and reshaping existing roadbed.
Item 2. 20 thousand gallons furnishing and applying water ("Sub-oiling" treatment).
Item 3. 75 tons oil ("Sub-oiling" treatment).
Item 4. 21 stations mixing, compacting and finishing surface ("Sub-oiling" treatment).

Kersten Amendment to Labor Bill Stops Employers Joining to Establish Wages

WASHINGTON.—The Kersten amendment, voted onto the labor bill in the house of representatives, will very likely prove to be the most painful part of this controversial legislation for the construction industry.

Since the amendment received a strong voice vote on the house floor and was cited in subsequent senate debate, observers feel it either will remain in the final bill or, if rejected, will influence a final decision to place no ban whatsoever on industrywide bargaining.

The Kersten amendment, which is by far the most important part of the legislation for construction men, prohibits employers from getting together to agree on any common wage they will pay their workers.

Congressman Charles J. Kersten of Wisconsin, told the Dodge newspapers he was moved to insert the amendment by a conviction that employers should be treated on the same ground as employes where bargaining is concerned.

Specifically, his amendment prohibits competing employers from engaging in any concerted activities of collective bargaining or arrangements in formulation of labor policy for collective bargaining. Such activity would be an unlawful concerted activity on the part of employes as well: to get together to set wage scales or agree on proposed terms of employment.

One inserted exception is important. Kersten provides that companies within a 50-mile radius of each other and with less than 100 employes would be exempted from the terms of his amendment. This general exemption applies to small unions, too.

Here is what the amendment could do to large contractors, depending on interpretation of the bill wording as finally enacted into law:

Constructors could be prohibited from dealing with their workmen at local levels on matters of wages and terms of employment as they have done for decades. Conceivably, a local group of contractors could be prohibited by this proposed law from bargaining with their own employes, being forced, rather, to deal with industrywide representatives.

On the other hand, there are many contractors who feel themselves, by the nature of their operations, to be outside the jurisdiction of such federal labor laws; but the exceptions will have to be noted after the bill becomes law or is voted and voted down.

Kersten said:

"Apparently, the construction industry members fail to realize that the same prohibitions apply to them as apply to unions.

"Personally, I am in favor of industry bargaining, areawide, and I rather think no ban will be placed (in the final bill) on industrywide bargaining. This was pointed up by my amendment and the senate debate."

One industry observer said it appeared that Kersten felt that since the proposed law prohibits bargaining by employers on a national scale, it also should stop their bargaining practices at the local levels.

It is now apparent that stipulations in the law, if passed, will have to stand the test of administration on a national and general basis before they can be adapted to each separate industry.

Reporting to the spring meeting of the governing and advisory boards of the Associated General Contractors of America, Managing Director H. E. Foreman, said:

"Federal legislation now pending, and legislation enacted and pending in the states, may do much to help organized labor understand the public revolt against some of its practices. Such legislation results in complications in the employment of workers in construc-

City License Bill Virtually Killed in Assembly Committee

SACRAMENTO.—The assembly committee on municipal and county government last night virtually killed Senate Bill 906 which would permit cities to exercise license power over independent contractors.

There were insufficient votes to give the measure a "do pass" recommendation.

Opposition spokesmen said the bill, which was approved by the senate April 22, would "be a directive to the cities of California to enact ordinances infringing on the legitimate contractor, who does not oppose a license fee, but who considers such legislation as this is discriminatory action."

Sen. Harold J. Powers, author of the bill, appeared with a brief talk in its favor.

Representatives of the opponents, including those of the Associated General Contractors of California, were present but explained they already had expressed their arguments at a lengthy hearing on the bill last May 7 and had nothing further to offer.

Although the bill remains on file, committee members and other assemblymen expressed the opinion that "the bill is dead".

Ask Bids On Relift Plants for Coulee

COULEE DAM, Wash.—Bids to construct six relift pumping plants for the Columbia Basin Irrigation Project's 5,400 acre Pasco Unit were requested today by the bureau of reclamation. Offers will be opened at Coulee Dam at 10 o'clock the morning of June 9.

The contract will cover excavation, placing of concrete, installation of electrical equipment and pumping equipment, and related work. The pumps are to be provided under a separate contract by the Peerless Pump Division, Food Machinery Corp., Los Angeles, for $25,976.

Only one of the pumping plants covered in today's bid call will have a permanent superstructure. Portable metal houses will be provided for the remaining units by the bureau if such protection is needed.

#

DR. A. G. CATTANEO NEW ASME CHAIRMAN

Dr. A. G. Cattaneo was elected chairman of the American Society of Mechanical Engineers, it was announced late Thursday. He is department head of the motor laboratory of Shell Development Co.

Other new officers are: J. Alan Cammbell, vice chairman; and Harold A. Johnson, secretary-treasurer. Four persons were elected to the executive committee. They are E. Paul de Garmo, Raymond A. Fulton, Walter G. Moore, and J. M. Trickett.

Alf Hansen is chairman of the nominating committee. Other members are H. J. Berg and R. Lannert Iglehart. F. W. Beichley was chosen junior group chairman.

'Fund Cut Projects Danger of Power Back-up at Shasta'

WASHINGTON. — If congress insists on holding down funds for the Central Valley project in California to the $6,900,000 passed by the house, there will be danger of a power back-up at Shasta Dam.

This was brought out in testimony of bureau of reclamation officials yesterday before a senate subcommittee now studying Interior appropriations.

These officiaus urged the committee members to restore the full $20 million as originally asked by the budget bureau. They said the action of the house in trimming this budget figure to almost $7 million could prove damaging to CVP in serious degree if allowed to stand.

Kenneth Markwell, assistant reclamation commissioner, testified that anything less than the full budget asking would imperil contracts for Delta, Mendota and Friant canals and postpone completion of the sprawling California project.

It was Markwell who laid special emphasis on the need for finishing transmission lines on the west side of the Central Valley.

"Without those lines," Markwell said, "we will find ourselves with power at Shasta Dam and no way to get it out."

Subcommittee Chairman Wherry asked, "You mean the power will come first?"

At this point Senator William Knowland of California broke in with his own explanation:

"Yes, and the reason for that is that year after year the appropriations for those lines have been blocked."

In answer to Wherry's additional query concerning any house record on the blocking of these funds, Michael Straus, reclamation commissioner, said the only comments in the record were the recommendations of the Pacific Gas and Electric Company as voiced by its president, Jas. B. Black. Black recommended, he told the senators, that the funds for these extension lines be denied.

In a more charitable mood, Harvey McPhail, bureau director of powers utilization, said that perhaps the house didn't realize the importance of these lines.

#

CALIFORNIA LEADS IN USE OF STREETS AND HIGHWAYS—PRA

WASHINGTON.—California led all states in street and highway use as reflected in the amount of fuel consumed by motorists during 1946.

This was revealed in an announcement made today by the public roads administration of the federal works agency.

Tax collection reports submitted to PRA by state agencies showed that drivers used 25,868 billion gallons of motor fuel last year. This represented an increase of 6,528 billion gallons, or 33 per cent over the 1945 figures.

New York was second in the consumption totals by states, using 1,792,865,000 gallons, PRA said.

CORRECTION

Blushing and remorseful, the editorial department of the Daily Pacific Builder herewith corrects a Page One story intimating that bids would be asked on the $57,796 renovation of Kezar Stadium soon. The job was awarded May 12, to Robert L. Wilson, 427 Bryant St.

Funds were appropriated for the project this week.

Ask RFC Extension Beyond Expiration June 30 This Year

WASHINGTON. — The house banking and currency committee put in a busy day earlier this week with fiscal bills that have a direct bearing on financing of construction in various phases.

The committee approved:

H. R. 2798. This bill permits federal savings and loan associations to convert to state institutions.

H. R. 2799. This would retire stock held by the Reconstruction Finance Corporation in federal home loan banks.

H. R. 2800. This would permit federal savings and loan associations to make $1,500 loans under the National Housing Act, to be guaranteed under the G. I. Bill of Rights.

H. R. 3448. This measure provides for extension of Federal Home Loan Bank mortgages over a period of 25 years.

H. R. 3492. This provides for the disposition of $743 million worth of permanent war housing under the priority system. Veteran occupants get first choice, veteran non-occupants second choice, and non-veteran occupants third.

Rent Extension

Representative Dirksen of Illinois, urged the house ways and means committee to approve a bill to permit the selling of notes and obligations held by the government to private enterprise. He held that the bill would ease inflationary pressures. Obligations involved are those held by RFC, Rural Electrification Administration, Home Owners Loan Corporation, and other agencies.

Another order of house business of interest to contractors—particularly to preabricators and others who benefit from government loans—was the appearance of RFC Chairman Goodloe before the banking committee. He appealed for continuance of this loaning agency after the June 30 expiration date. He agreed only that RFC's national defense functions should be terminated at the early date. He asked that the agency be permitted to continue its tin smelter operation and certain other defense plant work, as well.

(RFC has accumulated a net profit of $500 million since 1932.)

The house banking committee is beginning a study of all credit controls and their effect on the nation's economy.

Meanwhile, on the senate side, a new argument for continuing the technical information service of the Department of Commerce was heard from Senator Fulbright of Arkansas.

He supported S. 493 which authorizes the Commerce Department to serve as a clearing house for scientific and technical data. He pointed out that small business generally have no facilities for research while large ones do, and that Commerce could do a useful job of keeping small businessmen informed.

Reject OTS Plea

The new note was injected when Senator Fulbright commented:

"It will improve the housing situation by taking industry back to the small towns and away from batlly congested metropolitan areas."

Others supporting the measure were William C. Foster of the Commerce Department; Dr. E. U. Condon, director of the national bureau of standards, and Herbert L. Sherman, president of American Council of Commercial Laboratories.

The house already has refused to give the office of technical services of D. of C. funds with which to operate beyond June 30. This agency has cabled 250 employes gathering scientific information in Germany to cease operations immediately and liquidate by June 30.

Ban All Escalator Clauses, Leaders Urge AGC Members

SEATTLE—A return to pre-war construction costs develops only if the nation suffers "economic catastrophe," governing and advisory boards of the Associated General Contractors of America decided here Wednesday.

Some 200 delegates attending the three-day meeting May 18-21, unanimously adopted a resolution stating:

1—No immediate or drastic reduction in building costs is believed possible. Wages cannot decrease without a depression. Changes will be gradual.

2—Buyers' resistance to construction costs resulted from discouragement, but there will be investment for expanded business facilities.

3—Construction costs are near their peak and may decline gradually to "new normal levels".

'Works Not Relief'

The directors and governors urged general contractors to demand firm prices from subcontractors and machinery manufacturers, and in turn, to quote firm prices to owners.

Payment of "fair and just" wages to workmen was asked, but the contractors were advised to take "all possible steps" to encourage labor to settle disputes without work stoppages, eliminate wasteful practices, and to maintain wage rates for agreed-upon time periods. They were urged to support an adequate apprenticeship program.

The session further urged contractors to improve management efficiency, and to discourage owners' demands for speedy project completion when it adds to the cost.

Earlier, National President F. W. Parrott, Sioux City, Ia., told the group that public works construction "is not a relief racket", adding:

"It is the position of the Association that reasonable construction programs should be carried out to fulfill needs for the development of natura resources and other essentials.

Plans In Advance

"Projects should be carefully planned in advance, and programs so scheduled that work can be undertaken in the most efficient manner. Drastic curtailment of planned programs creates economic loss."

The boards meet again September 28, in Des Moines. The 1948 convention is scheduled to be held in Dallas.

#

Zann Urges Owners To Ask for Signed Plans, Specifications

"Protect yourself by asking for written and signed specifications and plans from your contractor," members of the Park-Presidio Club were told at their Wednesday luncheon by Mano Zann, investigator for the state contractor's license board.

"We've learned by experience that the public is wrong about 70 per cent of the time when complaining against contractors, largely because they don't inform themselves first."

Zann, who was formerly NRA building code coordinator, told the group how the industry had inspired formation of the board and how it is conducted for the public benefit with no expense to the taxpayer. 'We find persuasion easier and more effective than swinging a club," he asserted, disclosing that only a minority of complaints reach the formal hearing stage.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, Gilbert H. Kneiss, district director, 1375 Market Street, has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area.

WORK SHOP (paint), $2000; 105th and Quince, Oakland; owner, Carl Leutenaker, 272 W Broadmoor, San Leandro.

GROCERY, $9000; 6245 3rd St, San Francisco; owner, J S Ramos, 1280 Hollister St, San Francisco.

REPAIR DRUG STORE, $1500; 1 N Santa Cruz, Los Gatos; owner, E H Maher, et al, 1 N Santa Cruz Ave, Los Gatos.

REPAIR STORE BUILDING, $3250; 966 B St, Hayward; owner, Harry Carr, 966 B St, Hayward.

FOUNDATION (for office building), $5000; 349 5th St, Hollister; owner, Chester E Ross, 455 S Benito St, Hollister.

MOTEL, $8900; near Gridley; owner, Randolph Fite, 379 Maine, Gridley.

REPAIR STORE BUILDING, $7500; Oakland; owner, Al's Men's Shop, 5095 San Pablo, Oakland.

RESTAURANT, $6100; Tracy; owner, R E Lowery, et al, Box 308, Tracy.

OFFICE (complete for fuel yard), $500; 225 W College, Santa Rosa; owner, Santa Rosa Fuel Co, 725 1st St, Santa Rosa.

STEEL ROOF (for wine tanks), $19,500; Reedley; owner, De La Salle Institute, Reedley.

SHOP (furniture repairs), $28,000; Willow Pass St, Concord; owner, Amador Regalia, 2100 Park St, Concord.

FOUNDATION (and steel erection for department store building), $140,000; 11th and Jay Sts, Modesto; owner, MacDonald Products Co, 1 Montgomery St, San Francisco.

WAREHOUSE (plumbing supplies), $70,000; Redwood City; owner, Land Development Co, 605 Market St, San Francisco.

REMODEL BUILDING (for rooming house), $5150; Main and 2nd Sts, Davis; owner, D Earl Fisher, 56 College Park, Davis.

TANNERY (concrete), $20,000; Oakdale St, San Francisco; owner, Adolph Pepi, 1991 Oakdale, San Francisco.

PLUMBING SHOP, $7300; Miller at Reed, Sausalito; owner, M H Bettencourt, 522 Johnson, Sausalito.

RESTAURANT, $3734; 698 Golden Gate Ave, San Francisco; owner, Earl B Griffin, 608 Masonic Ave, San Francisco.

FHA PERMITS ISSUED

SAN FRANCISCO, Calif.—Federal Housing Administration, D. C. McGinness, district director, 815 Montgomery St., San Francisco, Calif., has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

1 UNIT—Eureka; Paul Williamson, 510 G St, Eureka.

1 UNIT—Richmond; E J Erickson, 165 16th St, Richmond.

1 UNIT—Richmond; John R Gaskine, 4926 Carlos Ave, Richmond.

1 UNIT—Walnut Creek; Harry C Knight, 376 17th St, Oakland.

1 UNIT—Centerville; K P Suhnel, Box 131, Centerville.

2 UNITS—San Leandro; Ford Lackstorm, 889 Pershing Dr, San Leandro.

1 UNIT—Modesto; Chester L Moxley, Route 1, Box 27, Modesto.

2 UNITS—Novato; Milton F Thum, Route 1, Box 13, Novato, Calif.

1 UNIT—San Francisco; Gala & Corbell, 823 Irving St, San Francisco.

4 UNITS—Oakland; Elvin Van Ness, 4096 Lincoln Ave, Oakland.

1 UNIT—Monterey; H S Stalter, 951 David Ave, Monterey.

1 UNIT—Richmond; James B Crocker, 1137 Hearst St, Berkeley.

3 UNITS—Oakland; O W Johnson, 1918 Hoover Ave, Oakland.

2 UNITS—Walnut Creek; T B Strand, Inc, 811 Faxon Ave, San Francisco.

2 UNITS—Oakland; C R Fisher, 6127 Foothill Blvd, Oakland.

2 UNITS—San Francisco; Carl Stendell, 1510 24th Ave, San Francisco.

1 UNIT—San Jose; Claude E Jorgensen, 24 N 21st St, San Jose.

Even a Child Can Open Them!
STRAND-STEEL OVERHEAD-TYPE GARAGE DOORS

YES, these new Strand-Steel Overhead garage doors are so simple to operate that a mere child can handle them. At a finger's command these modern overhead doors open and rise gracefully and smoothly... lowering with like precision. Although constructed of steel for strength and endurance, Strand-Steel Overhead-Type doors are perfectly balanced to permit easy opening and closing. Ready now for immediate installation, these garage doors are always out of the way, protecting your car from fender knocks so often received from swinging doors. For additional information regarding the Strand-Steel Overhead garage door, call your local P. C. A. office or mail the coupon below.

Bids Rejected (Unit Prices)
Gibraltar Dam Additions and Appurtenant Structures
SANTA BARBARA COUNTY, Calif.
Gibraltar Dam on Santa Ynez River, 8 miles north of Santa Barbara.
Owner—City of Santa Barbara, Faye Canfield, city clerk, City Hall, Santa Barbara, Calif.
Engineer—Leeds, Hill & Jewett, 1000 Edison Bldg., 601 W. 5th St., Los Angeles, Calif.
Includes adding 15 ft. to the height of the existing concrete arch dam, the enlargement of the thrust block at the southerly end of the dam, the addition of a thrust block at the north end of the dam, construction of a new spillway, weir, a gravity section at the left end of the spillway and the installation of three radial gates, 52x21 ft. in size, together with operating mechanisms and appurtenant facilities. A total of about 15,200 cu. yds. of concrete, 325,000 lbs. of structural steel and 142,000 lbs. of reinforcing steel and dowels will be involved in the work.
The work involves:
(1) lump sum, $10,000, access road construction and maintenance;
(2) lump sum, $20,000, camp construction and maintenance;
(3) lump sum, clearing of site and stripping of left abutment;
(4) lump sum, cutting, chipping, sandblasting and removing existing concrete;
(5) 1200 cu. yds. excavation of overburden, rock and concrete;
(6) 800 lin. ft. drilling at unit price of $3 per lin. ft. plus lump sum for drilling holes (exclusive of dowel and anchor bar holes) for pressure grouting in rock and concrete, and furnishing and installing grout pipe and fittings;
(7) 800 sacks cement used in pressure grouting at unit price of $2.50 per sack of cement so used, plus the lump sum for pressure grouting (exclusive of grouting of dowels);
(8) 1300 lin. ft. drilling dowel holes in rock or concrete greater than 10 ft. in depth;
(9) 1900 lin. ft. drilling anchor bar holes in rock or concrete less than 10 ft. in depth;
(10) 29,000 lbs. furnishing, installing and grouting anchor bars and dowels in rock or concrete;
(11) 4200 cu. yds. concrete in south thrust block;
(12) 2650 cu. yds. concrete in spillway piers, parapet walls and outlet tower;
(13) 8350 cu. yds. all concrete not included in items (11) and (12);
(14) 113,000 lbs. furnishing, fabricating and placing reinforcing steel, including gate hinge anchor bars;
(15) lump sum, saivaging, furnishing and installing handrail;
(16) $25,000 lbs. furnishing, fabricating and installing structural steel spillway gates, footbridge, trash racks, floor plates and grating, and recorder house support;
(17) 500 sacks cement used in gunniting at unit price of $3.50 per sacks of cement so used, plus lump sum for furnishing and installing gunite;
(18) lump sum, furnishing and installing porous concrete tile and connecting drains and other concrete pipe;
(19) lump sum, furnishing and installing gate seals and seal plates and the mechanical assembly for operation of the spillway gates and for testing the completed gates and operating assemblies;
(20) lump sum, salvaging, furnishing and installing pipe, valves and fittings at reservoir outlet structure and removal and reconstruction of water stage recorder structure and reinstallation of facilities therein;
(21) lump sum, furnishing and installing flashboards and cleanup of site of work.

Plans and specifications obtainable from office of the engineers or from the city clerk, Santa Barbara, Calif., upon deposit of $15.

Bids submitted May 15 (all rejected):
(A) A. Teichert & Son, Box 1133, Sacramento, Calif., $848,420.
(B) Macco Corp., Clearwater, $898,160.
(C) Sapp Construction Co., Beverly Hills, $906,029.
(D) L. E. Dixon Co., $906,473.
(E) MacDonald & Kruse & Hensler, $909,220.
(F) Robert E. McKee, $1,122,828.50.

Uit prices will be given soon.

Labor Amendment

(Continued from Page 1)

tion until adjustments can be made and put employers under additional government regulations aimed at controlling organized labor.

"On February 1, the President of the United States announced the plan which has been agreed upon in principle by the AGC and the building and construction trades department of the American Federation of Labor for the establishment of a national joint conference committee to work out the means of establishing adequate machinery for the settlement of disputes voluntarily submitted in an orderly manner without stoppages of work by lockout or strike.

"The plan represented an attempt by management and labor to seek to establish within the industry the means of handling its own affairs. AGC representatives have been selected, but the committee has not yet been established.

"This has been due in part to the subsequent development of jurisdictional problems within the department, and to pending federal and state legislation which must be studied to determine if such arbitration facilities are legal.

"It is hoped that steps now being taken by the department will solve the jurisdictional dispute question — which was specifically excluded from consideration by the joint committee—and that it soon will be able to represent the united opinion of the 19 constituent international unions."

Official Proposal

Highway Improvements—Stanislaus County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, 1200 North Center Street, Stockton, California, until 2:00 o'clock P.M. on **June 3, 1947**, at which time and place they will be publicly opened and read, for performing work as follows:

STANISLAUS COUNTY in the city of CERES on Fourth Street (X-Sta-4-CER), furnishing and installing intersection illumination and traffic actuated signal system and constructing traffic islands.

Plans and specifications, and forms of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (f) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Director of Industrial Relations has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete vibrator operator	1.375
Electrician	1.875
Flagman	1.15
Laborer	1.15
Oiler, power shovel or crane	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity or more)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity or more)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity or more)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25

Any classification omitted herein not less than..... 1.15
Overtime—One and one-half (1½) times the above rates.
Sundays and holidays—One and one-half (1½) times the above rates.

State Highway Engineer's Estimate
Item 1. 65 cubic yards local borrow.
Item 2. 32 tons plant mix surfacing.
Item 3. 40 cubic yards portland cement concrete (curbs).
Item 4. 18 each ruby reflectors.
Item 5. Full traffic actuated signal system and intersection illumination.

Future of Federal Planning Loans Is Held in H. H. 3490

WASHINGTON. — The future of the federal advance program of the bureau of community facilities may rest in large part on the decisions made with regard to a new bill just introduced in congress by Representative Frederick A. Muhlenberg of Pennsylvania.

The BCF non-interest bearing loans have gone out to scores of local communities and other political subdivisions to finance plans and specifications for public work projects. Billions of dollars worth of future construction thus has been influenced by this system of federal-aid to communities that contemplate public building.

Unless legislation is passed to continue this program, or other special measures taken, it would cease to exist June 30, this year. This fact has attached unusual importance to any move to re-instate the loaning system.

Congressman Muhlenberg's legislatio would give new life to the bureau of community facilities, which is a constituent agency of federal works agency. Only a few minor changes are included from the program as it is now constituted.

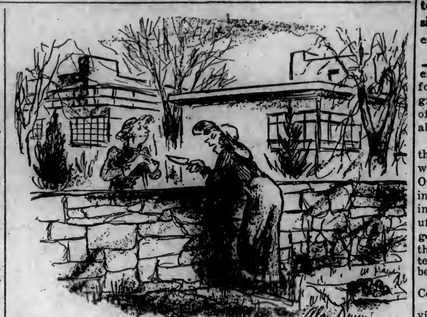
For one thing, the new bill would permit 25 per cent of the available funds to be dispersed at the discretion of the FWA administrator. Under the present law only ten per cent of the total available to BCF for loaning purposes can be used as a discretionary fund. The newer setup would permit only 75 per cent of the money to be apportioned for use in local centers (states, agencies and political subdivisions) whereas 90 per cent of the funds are being so used now.

Another respect in which the Muhlenberg measure differs from current BCF operations is his:

Only a portion of the loan has to be paid back to the Treasury when work on a project begins if only a portion of the construction of that project is being undertaken. (The current system calls for full re-palyment when work is started.)

The Muhlenberg bill would continue BCF by authorizing the appropriation of $50 million each fiscal year. If congress should finally go along with this recommendation, the agency would be better off, financially, than it has been the past two years.

The bureau has had approximately $65 million at its disposal since the first advances were made in July or July of 1945. Some of this money has gone for administrative purposes, but on the average BCF has worked with better than $30 million each of the two years. It is estimated that all the construction provided for with these planning funds would amount to $2,100 billion.



The term "state" as used in the Muhlenberg legislation includes the District of Columbia, Alaska, Hawaii, and Puerto Rico.

This bill came to the public works committee of the house on Friday. No hearings had been scheduled at the weekend.

Congress is not be expected to take a somewhat tolerant view of this law since it appropriates money that will return to the Treasury. While it ties up vast amounts of cash while public works are passing through the planning stage, it is favored as much for its incentive to provide these plans against a time when economic prosperity does not find a ready market for all labor.

On many occasions Major General Philip B. Fleming, administrator of FWA, has cited a need for a sizeable shelf of planned public works against a time of business recession.

The money is used only for financing the cost of architectural, engineering, and economic investigations and studies, surveys, designs, plans and working drawings, specifications, procedures, and other action preliminary to the construction of public works exclusive of housing.

By Alan Dunn for ARCHITECTURAL RECORD
"Let me tell you what happened in their All-Purpose room . . ."

Verbiage of Funds Bill Contradictory; Cut Halts Research

WASHINNGTON.— As the Commerce Department's appropriation budget now stands between the house and senate, some confusion surrounds the research activities of this branch of government.

Somehow, probably by the "clip and paste" method, the same wording of the 1947 bill with regard to research expenditures by the bureau of standards got into the current measure. It states that not more than $500,000 of its appropriated funds (for national bureau of standards) shall be spent on research activity. In still another place in the same 1948 bill it reads that no funds shall be spent on research work.

So, the construction division of the D of C is waiting for a look at the revised bill before giving its interpretation of the old and revised language.

In the hearings before the subcommittee on appropriations in the house, Dr. Condon, B of S director, gave this breakdown by division of the cost of the building research program:

Electricity, $5,000 Mechanics and Sound, $152,000.

Heat and Power, $117,000 Organic ad Fibrous Materials, $33,000.

Optics, $5,000 Metallurgy, $15,000.

Chemistry, $33,000 Mineral Products, $76,000.

Codes and Specifications $64,000.

The bureau of standards asked for $10,620,000 for fiscal 1948 but the committee trimmed this estimate by $3,205,000 and the house concurred in the committee finding to allow only $7,415,000 for the bureau's operation. What of this money can be spent for research it not yet known but some Commerce officials feel that all research programs will have to be seriously curtailed if not cut out altogether and this includes the contracts with universities for assistance in their own development programs.

Commerce Secretary Averell Harriman touched on this in his remarks on the general 50 per cent Commerce budget cut reported cut of the house committee.

He said:

"Other services of the Department are variously affected by the committee's recommendations. In general, and with the exception of the officie of technical services, the recommendations will have the effect of preventing the initiation of new projects rather than of curtailing the present program.

"The proposed 50 per cent reduction of the budget request of the office of technical services will have a twofold effect. It will require the elimination of the going research contract program with universities and private laboratorpromise to promote and develop ies designed to conduct technological research in areas which promise and develop new industries or improved products, materials or processes for the general use of all business, and especially for small business.

Soule Starts Mass Production of Steel Prefab Utility Unit

After seven years of design and testing, Soule' Steel Company's new, factory prefabricated, steel utility building swings into one of the largest mass production schedules of its kind undertaken on the Pacific coast. The building is quick to erect, has high uniform head room and is well suited for use as warehouses, machine shops, equipment storage, garages, oil field equipment, light manufacturing and other industrial buildneeds.

The building is described as "time-proof" by the manufacturer due to its thoroughly engineered structural design and the use of corrugated APS plastic-covered Plasteel sheets as covering for the roof, sidewalls and door leaves. Plasteel, a combination of a special asphaltic plastic and pure mineral mica scientifically bonded to both sides of the steel sheeting; is reported to withstand even the effects of sea spray. No periodic or maintenance painting is needed, it is said. The Soule structure meets uniform building codes for all live and dead loads, including high winds and earthquake and is mechanically correct for every heavy-duty requirement.

A look at the interior of the standard 40 ft x 100 ft. Soule' Steel utility building shows an exceptionally clean design and careful engineering consideration to provide a maximum amount of usable space. As a result, floor area is a full, 4,000 square feet, unobstructed by interior columns.

Steel Kitchen Cabinet Makers Expand Plants

CHICAGO — The majority of prewar manufacturers of steel kitchen cabinets have expanded plant capacity from 100 to 500 per cent to meet the huge demand for steel base and undersink cabinets in kitchens. This was disclosed Thursday by the Plumbing and Heating Industries Bureau.

Because of the shortage of steel and the scarcity of paint, manufacturers are restricting their output to undersink cabinets or at the most only a few sizes. Purchasers can add to their initial unit, or units, later as other sizes become available.

Although a steady improvement in the production of steel kitchen cabinets is expected, steel is still in short supply and it is not likely that they will be freely available in all types and sizes until 1948.

To protect purchasers against sub-standard merchandise, the Steel Kitchen Cabinet Institute has made exhaustive tests of steel kitchen cabinets and cabinet finishes. As a result of these tests, the Institute has set up minimum standards of quality for steel kitchen cabinets.

Cabinets which conform to the standards of the Steel Kitchen Cabinet Institute carry the copyrighted Seal of Approval of the Steel Kitchen Cabinet Institute.

Standards Director Pleads for Funds to Establish Technical Library for Industry

WASHINGTON—Dr. E. U. Condon, director of the national bureau of standards, appeared before the senate committee on expenditures yesterday with a strong plea for congressional permission to set up a large library of technical knowledge for the benefit of industry.

Construction interests would benefit greatly by such a reservoir of information. Benefits would accrue to builders in the form of printed (not mimeographed) material on the results of extensive research on materials and methods.

Little objection is expected to the purposes of S. 493, the bill which would provide such services. One of its end results would be the introduction of new inventions and industrial processes into the manufacture of use of all kinds of goods. Only real opposition to this proposal will come from protestors on economy grounds, it is believed.

Explaining the legislation, Dr. Condon said:

"The first major function provided in the bill is the collection of technological data on engineering research and development and the development of an active policy of making such data widely useful to industry by cataloging, editing, abstracting and publishing it in suitable ways."

Such a procedure would call for the development of a national library of science and technology not unlike the library of the Agriculture Department which renders such valuable assistance in the farming field. The projected development for Commerce also has been compared to the Army Medical Library and even to the Library of Commerce itself.

The witness pointed out that the war was responsible for the collection of a heterogeneous amount of scientific material available to industry people only in "ephemeral form;" mimeographed, hectographed or in unpublished file form.

"It is of the utmost importance," Dr. Condon said, "that all such material be collected in one place and cataloged in a form where it would be readily available to business and industry.

"It would seem to be beyond argument that the United States should possess and keep available reference collection of literally all technical information from everywhere in the world."

Here the bureau director had reference to compilation of research material from an increasing number of foreign countries. Formerly, western Europe and this country were the only major sources of such technical information. Now great quantities are coming in from Russia, India, China and more is expected by the Commerce Department as world economies are stabilized.

Dr. Condon added this:

"Work of making a great national collection of this kind must necessarily be done by government, because no private group, not even the major industrial corporations, would profit by it enough to pay the complete cost of its development. On the other hand, it is proper that such a service should be made as nearly self-supporting as possible through sale of its publications or by fees charged for special services."

A great deal of the wartime research conducted and concluded by the Commerce Department was paid for by private industry under arrangements whereby the latter paid salaries of investigators to work at the bureau of research associates.

Dr. Condon said he thought a valuable service could be awarded if congress were to authorize the Secretary of Commerce to enter into contracts, particularly with university engineering laboratories, to stimulate technological studies.

FORGING GROSS UP

WASHINGTON. — Shipments of steel forgings during March amounted to 205 thousand short tons, a slight increase over the 196 thousand tons shipped during February, according to the bureau of the census. This does not necessarily indicate an increased rate of activity during the month, since there were more working days in March than in the previous month. Of the March shipments, 115 thousand tons, or 56 per cent of the total, were for sale to the trade. The remaining 90 thousand tons were produced for the manufacturer's own use. Unfilled orders for steel forgings for sale to the trade on March 31 totaled 717 thousand tons, a little higher than the total at the end of February.

Research in Housing Field Long Overdue —Dr. H. L. Dryden

WASHINGTON.—The following statement by Dr. H. L. Dryden, associate director of the national bureau of standards in Washington, is an excellent summary of that agency's attempts to carry forward a comprehensive program in research for the construction industry.

It was introduced into the record following completion of hearings on the appropriations bill for the Commerce Department.

"The building construction industry is made up of numerous small separate enterprises, almost independent of one another in the performance of their work and for the most part small and limited in resources. There is no national or even local corporation manufacturing a house or building as a final end product. Under these circumstances it is not surprising that full advantage has not been taken of scientific research and development or that the research performed has been limited to individual materials or items of equipment. Comprehensive and integrated programs of research on the part of industry and the government are long overdue.

"Both the public and industry can reasonably expect great benefits from such programs in the forms of more suitable materials of lower cost, more efficient construction methods, and increased standards of comfort, convenience and safety at the same cost.

"At the present time we find ourselves in one of the recurring crises in housing, but the need for building construction research is more than an emergency need: It is a continuing need involving all types of buildings, not merely houses. The continuing need arises from the continual development of new materials and new methods of construction, a process which needs to be accelerated. Moreover, there must be a continuing integrated program on the correlation of laboratory tests with behavior under actual field conditions, especially as regards durability, and such a program requires orderly effort on a moderate scale over a long period rather than an intensive effort over a short period.

"The national bureau of standards as the government's prnicipal agency for basic research in physics, chemistry, and engineering is the logical agency to assume the leadership for the government in building construction research. Its past work has demonstrated the value of technical research in connection with the activities of the federal government in building construction. Some years ago it carried on a temporary program of research on house constructions which (1) produced factual information on the actual performance of the types of building materials then available, (2) developed objective methods of measurement which are essential to progress in housing, (3) opened the way to the use of performance standards in building codes, and (4) demonstrated methods of selection and successful use of materials for specific applications. Because of the restricted nature of the program, these accomplishments were limited to the more urgent problems of the government housing agencies at that time as outlined by the central housing committee.

"The proposed new building construction research program includes a broad attack on the technical problems of building construction in which all phases of the problem are considered in a coordinated manner. Research in the laboratory, testing in the laboratory and in actual buildings, and field observations will be focused on such problems as structural strength and rigidity, fire hazards, acoustics, sound insulation; heating, ventilating, thermal insulation, and air conditioning; durability and exclusion of moisture. Attention will be given to testing techniques, functional performance standards, safety and comfort."

33— BRIDGES

5/23/47 33
Owner Taking Bids—Due June 2, 10 A. M. (Unit Quantities)
El Camino Trestle
SACRAMENTO Co., Calif., Between Gardenland and North Sacramento
Owner—County of Sacramento, C. LaRue, county clerk, Courthouse, Sacramento, Calif.
County Engineer—E. A. Fairbairn, Courthouse, Sacramento, Calif.
Replace present El Camino Trestle.
(1) lump sum remove exist structure;
(2) 508 cu. yds. struct. excav.;
(3) 522 cu. yds. Class A concrete;
(4) 29,500 lbs. bar reinf. steel;
(5) 37,544 M fbm treated posts, caps and bracing;
(6) 91.30 M. fbm treated stringers, ends and bridging;
(7) 26.60 M fbm treated sub flooring;
(8) 16.0 M fbm railing mtl.;
(9) 340 cu. yds. fill material.
Specifications obtainable from the office of the county engineer.

5/23/47 33
Owner Taking Bids—Due June 2, 10 A. M. (Time Extended from May 23).
Transmission Line; Spec. 1787
COLUMBIA BASIN PROJECT, Wash. Approx. 7 miles north of Pasco, Wash.
Owner—U. S. Bureau of Reclamation, Coulee Dam, Wash.
Plans by owner.
13.8 kilovolt transmission line from Pasco substation to Pasco pumping plant including a 13.8-kilovolt, 3-phase, single-circuit, 60-cycle, single-wood-pole, transmission line approximately 13.7 miles long, including taps, to each of six pumping plants and to a demonstration farm well. The transmission line will be connected to the 115/13.8-kilovolt Pasco substation of the Bureau of Reclamation.
Specifications obtainable from the above office; no charge to prospective bidders; to others $2 not refundable.

34—DAMS, RESERVOIRS & DREDGING

5/23/47 34
Contract Awarded
Dredging Cost $50,000
WRANGELL NARROWS, Alaska.
Owner—Seattle District Corps of Engineers, War Dept., Col. L. H. Hewitt, Dist., Engr., Textile Tower, Seattle 1, Wash.
Plans by owner.
Includes dredging approx. 16,000 c.y. ledge rock and 245,000 c.y. of other than ledge rock, etc.
Contractor—Puget Sound Bridge & Dredging Co., 2929 16th St. SW, Seattle, Wash.

5/23/47 34
Contract Awarded
Bull Shoals Dam; Serial 46-42 Cost $22,146,440
WHITE RIVER, Arkansas, Baxter County, Approximately 115 miles north of Little Rock and 10 miles west of Mountain Home.
Owner—Little Rock District, Corps of Engineer, Col. G. E. Galloway, district engineer, Gay Bldg., Broadway and 34th St., Little Rock, Ark.
Plans by owner.
Concrete gravity dam, includes diversion dam.
Contractor —Ozark Dam Constructors P. O. Box 3, Houston, Texas, (composed of Brown & Root, Inc., Houston Texas; Martin Wunderlich, Jefferson City, Mo., Condon-Cunningham Co., Omaha, Neb.; Morrison-Knudsen Co., Boise, Ida., and Los Angeles, Calif.; Peter Kiewit Sons Co., Omaha, Neb.; Winston Bros., Minneapolis, Minn.; Al Johnson Construction Co., Minneapolis, Minn., and David Gordon, Denver, Colo.

5/23/47 34
Owner Taking Bids—Due June 12, 2 P. M.
Channel Relocation & Levee Construction; Spec. 1225
YOLO Co., Calif.
Owner — Sacramento Dist. Corps of Engineers, War Dept., Wright Bldg., Sacramento, Calif.
Plans by owner.
Relocation of Willow Slough Channel and construction of west levee, Yolo Bypass.
Work involves:
(1) 2,788,800 cu. yds. excav.;
(2) 30,100 sq. yds. remove and waste exist rd. pave.;
(3) 7,150 lin. ft. 43.9%3 and waste exist fence;
(4) 47,470 lin. ft. remove and reconstruct fence;
(5) 166,540 G. M. gals. water for compaction and sprinkling;
(6) 53,490 tons crushed rock surf. in place;
(7) 110 hrs. roller compaction rolling one power roller;
(8) 115 tons liq. asph. type SC-2 in place;
(9) 90 lin. ft. 4-in. Calco. perf. C pipe or equal No. 16 gage in place;
(10) 70 lin. ft. 12 in. CMP 16 gage in place;
(11) 100 lin. ft. 18 in. CMP 16 gage in place;
(12) 1,170 lin. ft. 24 in. CMP 12 gage in place;
(13) 530 lin. ft. 30 in. CMP 12 gage in place;
(14) 608 lin. ft. 36 in. CMP 10 gage in place;
(15) 156 lin. ft. 42 in. CMP 10 gage in place;
(16) 710 lin. ft. 48 in. CMP 8 gage in place;
(17) 36 lin. ft. 60 in. CMP risers, 8 gage in place;
(18) 340 lin. ft. 42 in. soil proofed steel pipe 3 gage in place;
(19) 140 lin. ft. 30 in. soil proof steel pipe 7 gage;
(20) 116 lin. ft. 4 in. galv. iron pipe Class A;
(21) 22 lin. ft. 5 in. galv. iron pipe Class B;
(22) 2 each 42 in. dresser coupling or equal;
(23) 2 each 30 in. dresser coupling or equal;
(24) 8 each CM cutoff wall for 48 pipe in place;
(25) 6 CM cutoff wall for 42 in pipe in place;
(26) 8 each CM cutoff wall for 36 in. pipe in place;
(27) 8 each CM cutoff wall for 30 in. pipe in place;
(28) 17 each CM cutoff wall for 24 in. pipe in place;
(29) 9 each 24 in. Calco gate, mdl. 100 or equal in place;
(30) 3 each 30 in. Calco gate mdl. 100 or equal in place;
(31) 2 each 36 in. Calco gate mdl. 100 or equal in place;
(32) 1 each 42 in. Calco gate mdl. 100 or equal in place;
(33) 2 each 48 in. Calco gate mdl. 100 or equal in place;
(34) 1 each 30 in. Calco gate mdl. 101 or equal in place;
(35) 3 each 36 in. Calco gate mdl. 101 or equal in place;
(36) 1 each 42 in. Calco gate mdl. 101 or equal in place;
(37) 3 each 48 in. Calco gate mdl. 101 or equal in place;
(38) 2 each 36 in. Calco gate mdl. 1001 or equal in place;
(39) 2 each 72x72 inch hardesty rectangular gate mdl. 30-05 in place;
(40) 1,465 cu. yds. class A conc. in place;
(41) 184,935 lbs. reinf. steel in place;
(42) 260 lin. ft. metal water stop in place;
(43) 605 sq. ft. expansion joint filler in place;
(44) 5380 tons cobbles in place;
(45) 1700 sq. ft. steel sheet piling install only;
(46) 1680 lin. ft. timber piles install only;
(47) 2080 lin. ft. furnish precast conc. piles;
(48) 2080 lin. ft. drive precast conc. piles;
(49) 114 tons riprap in place;
(50) 12 cu. yds. filter mtl in place;
(51) 1200 fbm. flashboards in place;
(52) 2328 fbm timber rail on bridge in place;
(53) 2800 lbs. misc. metal in place;
(54) 1 job lump sum remove and salvage 40 ft. x 24 in. CMP remove and waste two conc. headwalls;
(55) 1 job lump sum remove and salvage 28.4 ft x 24 in. CMP remove and waste two conc. headwalls;
(56) 1 job lump sum remove and stockpile wood frame tank house and wooden tank;
(57) 1 job lump sum remove and salvage 28.6 ft. x 12 in. CMP remove and waste two conc. headwalls;
(58) 1 job lump sum remove and waste 18.5 ft. x 16 in. conc. pipe remove and waste two conc. headwalls;
(59) 1 job lump sum remove and salvage 30.5 ft. x 12 in. CMP remove and waste two conc. headwalls;
(60) 1 job lump sum remove and salvage 20.5 ft. x 12 in. CMP remove and waste two conc. headwalls;
(61) 1 job lump sum remove and salvage 20 ft x 18 in. CMP;
(62) 1 job lump sum remove and waste 20.5 ftx 18 in. CMP pipe and two conc. headwalls;
(63) 1 job lump sum remove and waste 5.6 ft. x 35.0 ft. x 7.7 ft. conc. box culvert;
(64) 1 job lump sum remove and salvage 30.5 ft. x 24 in. CMP, remove and waste two conc. headwalls and 30.5 ft. x 24 in. vit. clay pipe;
(65) 1 job lump cum remove and waste 5.6 ft. x 24.0 ft. x 7.7 ft. conc. box culvert;
(66) 1 job lump sum remove and waste 28.5 x 18 in. CI pipe, remove and waste two conc. headwalls;
(67) 1 job lump sum remove and waste 5.6 ft. x 24.0 ft. x 7.7 ft. conc. box culvert;
(68) 1 job lump sum remove and waste 21.5 ft. x 12 in. conc. pipe and two conc. headwalls;
(69) 1 job lump sum remove and salvage 42.5 ft. x 12 in. CMP and 42.5 x 10 in. CMP remove and waste four conc. headwalls;
(70) 1 job lump sum remove and waste 20 ft. x 24.5 ft. wooden bridge;
(71) 1 job lump sum remove and salvage 40.5 ft. x 12 in. CMP remove and waste two conc. headwalls;
(72) 1 job lump sum remove and salvage 28.5 x 18 in. CI pipe, remove and waste two conc headwalls;
(73) 1 job lump sum remove and waste 12 ft. x 20 ft. wooden bridge;
(74) 1 job lump sum remove and salvage 17.5 x 13.5 ft. CM Pump house motor, pump and accessories and 33 ft. x 8 in. wrought iron pipe;
(75) 1 job lump sum remove and salvage 41 ft. x 36 in. CMP and one No. 100 Calco gate;
(76) 1 job lump sum remove and salvage 72 ft. x 36 in. CMP and 48 ft. x 30 in. CMP;
(77) 1 job lump sum remove and salvage 26 ft. x 36 in. CMP, 29 ft. x 36 in. CMP and two No. 100 Calco gates. Remove and waste two wood headwalls;
(78) 1 job lump sum remove and waste 6 ft. x 20 ft open top flume;
(79) 1 job lump sum remove and salvage 30 ft. x 36 in. CMP and one No. 101 Calco gate;
(80) 1 job lump sum remove and salvage 30 ft. x 24 in. CMP;
(81) 1 job lump sum remove and salvage 28 ft. x 36 in. CMP remove and waste two wood headwalls;
(82) 1 job lump sum remove and waste 2 x 2 x 30 ft. wood box culvert;
(83) 1 job lump sum remove and salvage 50 ft. x 20 in. CMP and one No. 100 Calco gate;
(84) 1 job lump sum remove and salvage 30 ft. x 36 in. CMP and one No. 100 Calco gate. Remove and waste 2 x 2 x 30 ft. wood bridge.
(85) 1 job lump sum remove and waste 210 ft. x 18 ft. wood bridge.

BID OPENING SCHEDULE

BUILDING PROJECTS

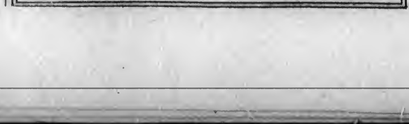
HEAT ONE ROOM or SEVERAL WITH YOUR FIREPLACE!



Install a
Majestic STANDARD
CIRCULATOR UNIT

This all-steel, preformed fireplace unit takes chimney-wasted heat and puts it to work heating the home. The Majestic Standard Circulator directs warm air to every part of the room through attractive grilles . . . and heat can even be piped to other rooms. Build a new fireplace around it or install in your present one. Firebox, poker-control damper and insulation seal are included. Ask us for more details about the Majestic Standard Circulator today.

Official Proposals

FIRST PUBLISHED TODAY

Highway Improvements
Nevada County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m., on June 18, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the specifications therefor, to which special reference is made, as follows:

Nevada County, between East Broad Street in Nevada City and 2 miles northwesterly (11)-Nev-25-Nev C, A), about one and nine-tenths (1.9) miles in length to be constructed with a bituminous surface treatment on imported borrow.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Cement finisher	1.75
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.375
Flagman	1.15
Jackhammer operator	1.375
Laborer	1.15
Motor grader operator	2.10
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls, (over one cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Any classification omitted herein not less than	1.15

Overtime—one and one-half (1½) times the above rates.
Sundays and holidays—one and one-half (1½) times the above rates.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications, regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m., on June 18, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the Specifications therefor, to which special reference is made, as follows:

Lassen County, at Baxter Creek, about 2 miles north of Janesville (1-Las-29-C), about one and one-tenth (1.1) miles in length to be graded and surfaced with road-mixed surfacing on cement treated subgrade.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.375
Flagman	1.15
Jackhammer operator	1.375
Laborer	1.15
Motor grader operator	2.10
Oiler power shovels or cranes	1.60
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Pile driver, hoistman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Any classification omitted herein not less than	1.15
Overtime—one and one-half (1½) times the above rates.

NAHB to Accelerate Home Building Rate At Directors' Meet

WASHINGTON—Action to solve the problems of labor cost and supply, G. I. home loans, and rental housing construction will be taken in Washington this week when the board of directors and the standing committee of the National Association of Home Builders gather for a six-day meeting at the Hotel Statler. High on the list of questions with which the builders will cope are labor and high construction costs.

Creedon Bid Out

Edward R. Carr, Washington home builder and president of the national association, will preside.

A series of conferences with top government housing officials has been scheduled by the home builders. Invitation to meet with the directors have been extended by Frank W. Cortright, executive vice president of the association, to Frank Creedon, housing expediter; Raymond M. Foley, NHA and FHA administrator; Thomas B. King, chief of the loan guarantee section of the veterans administration and others. Representatives of building materials manufacturers also have been invited to discuss the progress of home building with the group.

Sessions will get under way Saturday, May 24, with a meeting of the association's executive committee. Regional vice presidents will meet on Sunday and standing committees on Monday. Meetings of the board of directors will start Tuesday, May 27 and will continue through Thursday, May 29. Close to 250 builders, representing more than 12,000 home builders and 100 local building associations, will participate.

Talk Rental Housing

Subjects coming up for action at the sessions will be construction costs; the status of new starts and commitments; building materials and labor problems; wage demands; the differences between FHA and veterans administration appraisals which are holding back sales to veterans; mortgage finance problems, and current housing legislation.

A major subject will be the national drive recently launched by the association to stimulate construction of rental housing. Reports on projects put under way as a result of the drive will be received.

Removal of Navy's Wind Tunnel Holds Up Daingerfield Plant

WASHINGTON. — The future supply of cast iron products including soil pipe and pressure pipe items for housing and other construction needs, depends in part on the ability of government officials to iron out differences surrounding the attempted disposal of the pig iron plant and coke oven at Daingerfield, Texas.

The largest producing facility on the market today, the Texas industry has been offered for sale by the war assets administration and was believed sold to the Lone Star Steel Company.

Cast iron and steel industry representatives are watching this transaction with unusual interest because of the influence final disposition will have on their products.

The sale has been held up, WAA explains, pending a conference in Washington this week between officials of the company and representatives of the government agency and the navy over final details.

Principal snag in the settlement is removal of a wind tunnel which the navy installed in the plant for experimental purposes. WAA reports that Lone Star is concerned about the delay in removal of the tunnel. This has impaired the compressed air facilities used in the operation of the test equipment. Furthermore, WAA says the tunnel has not been declared surplus by the navy and cannot be disposed of for this reason.

Lone Star has said that production of coke will be the first operation when the difficulties are all settled. It indicated that cast iron may not be produced for some time.

Stimulate Building By Lowering Costs —Expediter Creedon

WASHINGTON. — Home-building, though still at a relatively high level, can receive added stimulation through cost reductions by all factors in the industry, Housing Expediter Frank R. Creedon said today in his monthly public report.

"Voluntary price cuts for building materials would do much to stimulate overall cost reductions which would strengthen housing demand," he said, "just as recent price increases led the way to higher home prices and resulted in a weakening of demand."

Near 20's Peak

Citing the effect that "a developing buyers resistance" is having on the volume of new construction, the housing expediter was quick to add that new homebuilding is "still at relatively high levels and there are not yet definite signs of any sharp decline such as occurred in 1920 and 1921."

The report, covering the housing program through March, shows that the number of privately-financed new permanent homes started in the first quarter was the second-highest for any year since the 1920s. Completions are still at a high rate, materials are maintaining their heavy flow, and construction time is being shortened.

Completions

Completons during March totaled 57,100 new permanent homes and apartments, and about 28,400 units of other types, such as temporaries, conversions and trailers. Completions in March of 1946 totaled 22,600 new permanents and 8,600 units of other types.

Urban Land Institute Urges Use of Gas Tax Funds for City Streets

LOUISVILLE, Ky. — City governments deserve success in their long battle to get a fair share of state-levied gasoline taxes for city streets, the Urban Land Institute, Washington, a businessmen's research organization in the field of urban land policy, said today.

Speaking through its Central Business District Council, which met here to discuss urban trends and problems and to advise this city on its downtown parking and traffic tangles, the ULI went on record as urging that state governments refund an equitable share of tax collections to the cities or abdicate some forms of state taxation in favor of local government.

The Central Business District Council, a panel of specialists in downtown real estate and planning problems, arrived at the tax proposal after wrestling with the gigantic costs of modern street plans for cities, especially designed parking terminals, and up-to-date traffic control facilities.

Other proposals made at the Council's Louisville meeting urged:

1)—Private ownership and operation of downtown parking terminals wherever feasible.

2)—Abandonment of zoning schemes that require off-street parking in connection with each parcel of downtown commercial property.

3)—Two-way traffic on downtown streets having four or more lanes.

4)—Planning of traffic freeways with consideration for property values and effect on retail trade, as well as traffic volume.

5)—Scientific assessment of downtown property.

River and Harbor Congress Endorses Rec Bureau Program as 'Most Economic'

WASHINGTON.—The National Rivers and Harbors Congress today was on record in opposition to the extension or creation of any river valley authorities.

The action was prompted by a new bill in congress to establish a Missouri Valley Authority patterned after the lines of the huge TVA. The MVA bill has been introduced in the senate. Similar legislation was turned down last year after hearings before two senate sub-committees.

Unequivocally, the conference has endorsed the construction program of the bureau of reclamation of the Department of Interior. The resolution on this important work follows:

"The population of the 17 western states continues to increase and the national food requirements continue to grow. The Secretary of Agriculture has recently proposed a policy calling for the utilization of all potential, available, productive acres to supply the domestic and foreign needs of agriculture produce.

"The development of the arid and semi-arid lands by irrigation in the seventeen western states is recognized as the most beneficial use of water and will materially aid in meeting agricultural production goals.

"We therefore endorse the construction program of the bureau of reclamation and ask congress to provide adequate funds to carry the reclamation program forward in the most economic and beneficial manner."

In addition, the rivers and harbors group has requested congress to provide advanced planning funds for fiscal year 1948 for "those rivers, harbors and flood control projects which have been authorized by the congress" and are eligible for advanced planning as recommended by the government engineers.

The army engineers currently have control over construction of the nation's navigation, flood control and allied projects. The NRHC advocates that this jurisdiction remain vested in the hands of the army's engineering corps. It believes the construction undertaken on rivers and harbors projects by the army has been adequate and timely in every instance, serving to fulfill needs of this vast building program.

Eastshore Lumber Assumes PT&PC Building Materials

Pacific Tank & Pipe Company's lumber re-manufacturing plant and wholesale-retail yard will now be operated under the name of Eastshore Lumber & Mill Company, it was announced Tuesday.

The Pacific Tank & Pipe Company, a pioneer California firm, founded in 1888, will continue to manufacture and distribute under their old name all wooden tanks, pipe, crossarms, and other special manufactured products, other than building materials.

The Eastshore Lumber and Mill Company will continue the re-manufacturing and distribution of construction lumber, siding, flooring, mantle, trim, and other manufactured lumber items associated with building construction. All western softwoods are handled, but they specialize in redwood rustic and siding. Rough lumber is received principally from Oregon and California mills by truck and rail, and after being sorted and graded over the green chain, it is either stuck for drying or conveyed to the mill where it is manufactured into the firm's many products. A fleet of carriers and lumber stackers perform practically all of the firm's handling and delivery operations.

The change in name does not affect the ownership or management of the firm, headed by Herb A. Tildesley, an East Bay lumberman of many years' experience. Roy T. Edwards, who has been associated with the sawmill and lumber industry for 35 years, is the general plant superintendent. The large plant, which has a floor area of 35,000 square feet, is located near the foot of High Street at 4821 Tidewater Avenue, Oakland.

EVEN THE HENS

DETROIT.—Here's a new angle. Poultry experts the nation over are closely watching a series of New York experiments in heating brooder houses, the latest of which is a new technique of panel heating installed under the concrete floor.

Tempotool Provides Strong Joining, Is Time, Work Saver

Steel plates, angles, brackets, outlet boxes, etc., of all descriptions can be shot onto a building member, ship structure, bridge-work, or any steel or concrete surface with a Tempotool, the six-pound tool that boasts a twenty-ton punch.

The tool drives studs into steel or concrete by actually shooting a threaded stud into steel up to 1¼-inch thick. The steel flows around the stud. No metal is removed, but an amazing press fit results.

The model pictured above is the Tempotool 38—one of three models available. Advantages claimed for all three tools are saving of the workman's time, ease of installation, and efficiency of the joining. This device may be used under water.

Tempotools may be seen at Squires and Marshall, 725 Second Street, in San Francisco. They are made by Tempotool Company, of Cleveland.

Nicolai Wholesale House Sells Glide-Away Garage Door

Ease of operation, long- and trouble-free service, security and smart appearance are the outstanding qualities of the Glide-Away garage door, merchandised by Nicolai Door Sales Co., wholesale distributors, 3045—19th St.

Manager L. J. Woodson said: "We have studied the metal garage door field from all angles and our choice has fallen upon the Glide-Away, high tensile steel overhead garage door. There are many features which make this the finest garage door on the market today:

"All steel construction and tamper proof lock which are safeguards for your car;

"The door reaches completely into your garage when open with only 4-inch overhead clearance required;

"The door is weatherstripped and close-fitted to give added protection to your garage;

Lifetime strength, durability and beauty—adaptable to any climatic condition and any type of architecture;

"Easy to install.

"The Glide-Away garage door gives you everything you want in a garage door. Cost of operation, long and trouble-free service, security and appearance.

SCRAP LEVEL LOWER

NEW YORK.—A slight decline in the price of No. 1 heavy melting steel in Chicago brought The Iron Age steel scrap composite down to $29.58 a gross ton, a drop of 17c from last week's figure of $29.75.

Official Proposals

(Continued from Page 16, Sec. 2)

with the specifications therefor, to which special reference is made, as follows:

Mendocino County, at Kibbesillah Creek (1-Men-56-F), 11.6 miles north of Fort Bragg, about five-tenths (0.5) mile in length to be graded, surfaced with road-mixed surfacing on imported base material, and a seal coat to be applied.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.575
Flagman	1.175
Jackhammer operator	1.875
Laborer	1.15
Motor grader operator	2.10
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls, (over one cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Any classification omitted herein not less than	1.15

Overtime—one and one - half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

Truck driver (less than 4 cubic yards water level capacity)	1.2825
Unskilled Labor	
Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above shall be not less than $1.15 per hour.

Overtime—One and one-half (1½) times the above rates.

Sundays and holidays—One and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer, or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Derrick operator	1.90
Electrician	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	1.875
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Painter (brush)	2.35
Painter (spray)	1.75
Pile driver man	1.75
Reinforcing steel worker	1.86
Roller operator	1.75
Structural steel worker	1.95
Tractor driver	2.00
Truck driver (8 cubic yards water level capacity or more)	1.95
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.875
Intermediate Grade Labor	
Concrete vibrator operator	1.50
Jackhammer operator	1.375
Oiler power shovels or cranes	1.60
Truck driver (4 cubic yds. water level capacity)	1.4075
Truck driver (less than 4 cu. yds. water level capacity)	1.2825
Any classification omitted	1.15
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

(Continued on Page 19)

says Mr. J. E. Nelson of the firm of Johnson & Nelson, Marin County Contractors. "Our IT4 TRAXCAVATOR is the ONLY RIG for close-in work around foundations and concrete forms, and that's only one of the many jobs it does for us. It's one machine that keeps busy."

TRAXCAVATE for PROFIT

All over the country contractors are calling the Traxcavator "the busiest machine on the job," and here's why: They use it for land-clearing and for leveling; they use it for excavating and for truck loading; they use it for backfilling and for cleanup work. From the time the job is started 'til the earthwork is completed the Traxcavator is busy. That spells *profit* for the contractor because the profitable machine is the one that keeps busy. That's why we say

TRAXCAVATE for PROFIT

Highway Improvements—Solano Co. in City of Fairfield, on Texas Street

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, 1200 North Center Street, Stockton, California, until 2:00 o'clock P. M. on May 27, 1947, at which time and place they will be publicly opened and read, for performing work as follows:

Solano County, in the City of Fairfield on Texas Street at the intersection with Madison Street, Webster Street and Union Avenue (X-Sol-7- Frfd), traffic signals to be furnished and installed.

Plans and specifications, and form of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (f) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (1 cu. yd. capacity, or less)	1.60
Concrete vibrator operator	1.375
Electrician	1.875
Flagman	1.25
Laborer	1.25
Any classification omitted herein not less than	1.25

Overtime: one and one-half (1½) times the above rates.

Sundays and holidays: one and one-half (1½) times the above rates.

(Continued from Page 21)

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Highway Improvements Solano Co.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received by the Department of Public Works Division of Highways, at the office of the District Engineer, 1200 North Center Street, Stockton, California, until 2:00 o'clock P. M. on May 27, 1947 at which time and place they will be publicly opened and read, for performing work as follows:

Solano County, at Miner Slough Bridge about 12 miles north of Rio Vista (X-Sol-99-A), approach spans of existing bridge to be widened.

Plans and specifications, and forms of proposal, bonds, and contract may be obtained at the above address.

No bid will be considered unless it is made on a proposal form furnished by the District Engineer, and is made in accordance with the provisions set forth under Section 2, "Proposal Requirements and Conditions" of the Standard Specifications. Each bid must be accompanied by a proposal guaranty in accordance with the requirements of article (f) of the said Section 2 of the Standard Specifications.

The Department of Public Works reserves the right to reject any or all bids.

The quantities listed in the State Highway Engineer's Estimate hereinafter stated, are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work, or to omit portions of the work, as may be deemed by the Engineer to be necessary or advisable.

Bids are required on the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate Per Hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete vibrator operator	1.375
Flagman	1.25
Jackhammer operator	1.375
Laborer	1.25
Oiler power shovels or cranes	1.60
Operator of power shovel or other excavating equipment, shovel type controls (up to and including 1 cubic yard)	2.25
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.35
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or more)	1.8125
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.675
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Any classification omitted herein not less than	1.25
Overtime one and one-half (1½) times the above rates.	

Sundays and holidays—one and one-half (1½) times the above rates.

State Highway Engineer's Estimate

Item 1. Removing portions of existing bridge.
Item 2. 25 cubic yards structure excavation.
Item 3. 0.5 thousand feet board measure, furnishing Douglas fir timber.
Item 4. 8 thousand feet board measure framing and placing timber.
Item 5. 6 cubic yards Class "B" Portland cement concrete.
Item 6. 1 tons plant mixed surfacing.

All parts of the lumber in connection with Item 4 and one keg of double grip spikes will be furnished free of cost to the Contractor as more explicitly set forth in the special provisions.

Monterey County Pfeiffer Big Sur State Park

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION of WATER RESOURCES

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Engineer, Room 401, Public Works Building, Sacramento, California, until 2 o'clock P. M., on Wednesday, June 4, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for construction in accordance with the specifications therefor, to which special reference is made, as follows:

Constructing Improvements in Pfeiffer Big Sur State Park, Monterey County.

Bids are required for the entire work described herein.

State Engineer's Estimate

Item 1 3,315 Cubic yards excavation
Item 2 38 Cubic yards Class "A" Portland cement concrete.
Item 3 365 Cubic yards Class "C" Portland cement concrete.
Item 4 6,450 pounds reinforcing steel.
Item 5 1.6 M.F.B.M. Redwood lumber, dense select all-heart structural grade.
Item 6 1.4 M.F.B.M. Redwood lumber, select all-heart structural grade.
Item 7 4,125 Pounds miscellaneous iron and metal.
Item 8 120 Lineal feet pipe handrail.
Item 9 2 Each, 18-inch headgates.
Item 10 1 each, 24-inch headgates.
Item 11 93 Lineal feet 18-inch corrugated metal pipe.
Item 12 23 Lineal feet 24-inch corrugated metal pipe.
Item 13 101 Lineal feet metal bin-type retaining wall.
Item 14 483 Cubic yards heavy stone riprap.
Item 15 4 Cubic yards rubble masonry.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work or to omit portions of the work as may be deemed necessary or expedient by the Engineer.

All bids will be compared on the basis of the State Engineer's estimate of the quantities of work to be done.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate Per Hour
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (up to one cubic yard)	1.60
Concrete mixer operator (over one cubic yard)	1.90
Concrete vibrator operator	1.375
Driller (jackhammer)	1.375
Flagman	1.15
Laborer	1.15
Oiler power shovels or cranes	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Pile driver holstman or operator	2.10
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.4375
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Any classification omitted herein not less than	1.15
Overtime—one and one-half (1½) times the above rates.	

Sundays and holidays—one and one-half (1½) times the above rates.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the office of the State Engineer, Public Works Building, Sacramento, California, and they may be seen at the office of the State Engineer, 803 California State Building, Los Angeles, at the office of the District Superintendent, Division of Beaches and Parks, Monterey, and at the offices of the Associated General Contractors in San Francisco and Los Angeles.

No bid will be considered unless it is made on a blank form furnished by the State Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications of the Division of Highways dated April, 1945. Each bidder must be licensed and also prequalified as required by law (See said Proposal Requirements and Conditions).

The Department of Public Works reserves the right to reject any or all bids.

Erection and Completion of the ward for Infirm Men, Norwalk State Hospital, Norwalk, Calif.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the Office of the Division of Architecture, Public Works Building, 12th and "N" Streets, Sacramento, California, up to 3:30 P. M., Tuesday, June 3, 1947, said bids thereafter on said day to be publicly opened and read for the erection and completion of the Ward for Infirm Men, Norwalk State Hospital, Norwalk, California, in accordance with plans and specifications therefor.

The Ward for Infirm Men consists of a one story reinforced concrete building having a combined floor area of approximately 12,000 square feet with hollow tile partitions and clay tile roof covering.

Separate bids only will be entertained for the following segregated parts of the work

1. General Work.
2. Heating and Ventilating Work.
3. Plumbing Work.
4. Electrical Work.

Alternate bids will be required for the omission of certain work.

Authority Notice: Approval for this construction is authorized under C. P. A. order V.H.P.-1 Serial 8-1-2005.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Hourly Rate
Asbestos Workers	$2.00
Bricklayers	2.00
Carpenters	1.90
Cement Finishers	1.975
Electric Workers	2.00
Glazier	1.62
Iron Workers Architectural	1.775
Iron Workers Reinforcing Steel	1.975
Iron Works Structural	1.90
Laborers Building	1.25
Lathers	2.00
Masons Tenders	1.875
Mixer (concrete) Operator, Skip Type	1.775
Mixer (concrete) Operator, Paving or Mobile	2.00
Painters (brush)	1.30
Plasterers	2.00
Plasterers Tenders	1.70
Plumbers	2.00
Roofers	1.75
Sheet Metal Workers	1.75
Steam Fitters	2.00
Tile Setter	1.80
Tile Setters Helper	1.25
Universal Equipment Operator (Shovels, Draglines, Derricks, Derrick Barge, Clamshell, or Crane)	2.10
Tractor Driver	1.90
Truck Driver over 16 cu. yds. water level capacity	1.775
Truck Driver 12 to 16 cu. yds. water level capacity	1.575
Truck Driver (8 cu. yds. water level capacity and less than 12 cubic yards)	1.50
Truck Driver (4 cubic yards and less than 8 cu. yds. water level capacity)	1.45
Truck Driver (less than 4 cu. yds. water level capacity)	1.425
Any classification omitted herein not less than	1.25
Overtime one and one-half (1½) times the above rates.	

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6) of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the Office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 473, Public Works Building, Sacramento, California, until 2 o'clock p. m. on June 4, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the Specifications therefor, to which special reference is made, as follows:

Santa Cruz and San Mateo Counties, between Waddell Creek and Finney Creek (IV-SCr, SM-56-C, A), thirteen and four-tenths (13.4) miles in length to be graded and surfaced with plant-mixed surfacing on crusher run base.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.875
Flagman (Santa Cruz County)	1.25
Jackhammer operator	1.15
Laborer (San Mateo County)	1.375
Laborer (Santa Cruz County)	1.25
Mason (Santa Cruz County)	1.15
Motor grader operator	2.00
Oil distributor bootman	2.10
Oiler power shovels or cranes (San Mateo County)	1.275
Oiler power shovels or cranes (Santa Cruz County)	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard) San Mateo County	2.25
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard) Santa Cruz County	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard) San Mateo County	2.35
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard) Santa Cruz County	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95

San Mateo County:

Truck driver (8 cubic yards water level capacity or more)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2825

Santa Cruz County:

Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875

General Staff Officer Asserts Construction Machinery Abroad Needed for Army Program

Lieutenant Colonel Pool Itemizes Army's Scrap Shipments to States, Tell Difficulties Involved

By ERNEST J. MICKEL

WASHINGTON. — Contractors have the word of Lt. Col. S. M. Pool, officer in charge of surplus disposition, that all construction machinery and equipment the army does not need for its own uses has been declared surplus to the war assets administration.

"Don't misunderstand," he added. "There are huge quantities of such items abroad but they are needed for the army's future occupation programs."

This is an answer, in part, to complaints of equipment dealers that vast amounts of army and navy machines are standing idle in various parts of the world while the construction industry cannot obtain enough good machinery in the U .S. to keep itself in top operation.

Stocks Near Bottom

In an effort to clear up some of the mystery surrounding the return of scrap metal from overseas for use in American markets, the Dodge newspapers this week obtained an exclusive interview with Lt. Col. S. M. Pool of the supply group of the War Department's general staff.

High points in Col. Pool's statements were:

1—During the four years prior to March, 1947, the army returned to U. S. shores, at its own expense, 823,583 gross tons of ferrous metals. Copper and brass returned (except fired cartridge cases) amounted to 7,500,000 lbs. and the weight of fired cartridge cases brought back, 21 million lbs. During the same length of time army shipped back 3,333,000 lbs. of aluminum derived from crashed aircraft and 2,867,000 lbs. of aluminum from other sources.

2—Shipments of non - ferrous metals to the States during and after the war totaled 7,996 net tons to date.

3—All other scrap items brought home by the army amounted to 26,000 tons.

In evaluating these shipments and the potential effect that future deliveries will have on the supply of metal goods to domestic dealers, Col. Pool's explanations concerning scrap abroad must be kept in mind.

The army deals with two kinds: captured enemy material and so-called army-generated scrap. The

Apathy Is Keynote Of San Francisco Meet On Bay Span

Fully demonstrating the general apathy surrounding the question of another transbay crossing, the final public hearing of the Bay Area Council crossing committee was held Wednesday night at the Merchandise Mart, San Francisco. Although more than 500 invitations had been mailed out, the hearing was sparsely attended and fewer than half of the 25 members of the committee were present.

Four plans were presented and four organizations made an appearance during the hurried meeting. Two of the latter made public statements for the first time, the Mission Street Merchants Association coming out for the army-navy board plan, and the Peninsula Citizens Transportation committee, through its chairman, Col. Frank B. Bartlett, announced it would also conduct an independent investigation.

Of the plans presented, the Nishkian Bay Land Crossing and the Gould two-bridge plan were fully described in recent editions of the Daily Pacific Builder. Alloted only twenty minutes, sponsors of crossing schemes were forced to rush through their presentations, touching only upon the highlights. John Reber gave a two-minute summary of his Bay improvement plan after the chairman interrupted a 25-minute discussion of such diverse topics as "Reds", fifth columns, the need for water, Europe's insolvency, Asia's resurgence, and the growth of Los Angeles.

Clev F. Shaffer explained a modified version of his earlier plan which he summarized as the army-navy crossing at a different location. Shaffer favored a bridge-tube-trestle from Second street to Alameda naval air station.

It was learned unofficially that the committee may present a preliminary report, in advance of the army-navy rail cost study. This report would detail the areas of agreement among the various Bay communities and outline those details which need further discussion. The layman committee is still seeking the assistance of impartial technical consultants to aid its research.

LUMBER, BUILDING MATERIAL SALES UP

Lumber and building materials dealers of San Francisco reported a 28.6 increase in 1946 sales over 1945, and a 49.8 per cent increase in year-end inventories. Oakland's sales percentage of increase was 24.8, and year-end inventory, 31.3.

Sacramento's sales increase was highest—61.5 per cent, and a 42.9 per cent increase in the year-end inventory.

Inventory, according to the Department of Commerce.

CORRECTION

The freight increase on sand and gravel shipments per net ton in open cars is 15 cents, rather than 12 cents quoted in a recent Daily Pacific Builder article. There is a 20 per cent net over the old rate for closed car shipments, on which a table is used for calculating charges.

ARMY CLOSES ITS BIG SCRAP DEAL

WASHINGTON. — Army's deal with U. S. Steel for 147,308 tons of its European scrap supply, delivered at Bremerhaven port for $10 per ton, fell thru, it was learned today, but spokesmen point pridefully to the fact that "we got 56 cents a ton more" through negotiations with the Canterberry Co. at Dover, Delaware.

The middleman, a Mr. Bender whom no one has been able to identify, dropped gracefully out of the picture after army regretfully accepted U. S. Steel's cancellation. It it believed he represented a chain of junk dealers, planning to turn the sizable shipment through those outlets.

But army is happy now that it has negotiated with the Delaware firm and now holds a promise from that company to pay $1,113,305 for the 147,308 tons, delivered at German port.

This represents army's largest scrap deal to date. Others include 30,000 tons at one time, 8,000 at another, both out of Austria.

Early Relaxation of Commercial Building Restrictions Expected

WASHINGTON.—While the office of Housing Expediter Frank Creedon steadfastly opposes any abrupt lifting of non-housing construction controls, the best minds in high circles in Washington reportedly are turning on the heat for a quick break away from building restrictions.

Inside sources say the situation has resolved itself into a "hold out" battle with the Creedon office likely to loose ground in the final showdown.

This may be true because pressures are coming from both the White House and congress for the housing expediter to relax federal building controls.

OHE does not deny that the lid may blow off sometime but it does say that no substantial increase in the weekly allowances for non-residential construction is contemplated for the immediate future.

OHE thus discounted a Washington newspaper report that a policy committee session this week would try to arrive at a decision. This report stated that the committee would hear a proposal that the amount of non-housing work allowed each week by OHE facility review committees be upped from $50 million to $75 million.

It has been admitted that when that time comes, full justification for the housing expediter operation largely will have been erased.

Another proposal, according to these unofficial reports, is that the new policy be confined to releasing government restrictions from all schools, churches and hospitals while retaining controls over all other types of non-residential construction. But no official confirmation of any of these reports could be found.

It is known, however, that the White House desires to keep construction at a high peak as a recession brake. In this respect, some sources have gone so far as to state without qualification that the President and his advisers are dusting off the old national recovery administration, preparing to trot it out under a different designation if a real emergency warranta.

These beliefs are based on a reported assurance that President Truman has asked Attorney General Clark to study the "sick chicken case" which outlawed NRA.

Spokesmen close to the administration say the setup being studied would consist of panels of business leaders meeting under the guidance of the Department of Commerce. These panels would stabilize prices and wages.

The committee's near-unanimous decision to transfer jurisdiction from the federal public housing authority back to FWA in the matter of disposing of $743 million worth of permanent war housing, is looked upon by some as the first official indication that congress plans to return all housing activities to the permanent agencies.

There was some opposition to the transfer in the committee hearings but the clerk of the house group affirmed. However, this protest centered more around the advisability of switching agencies at this time than it did around the actual need for transferring the housing functions back to FWA. This turn of argument was felt to have less force than if it had focused on the proposal to give housing back to the federal works authority.

The bill, H. R. 3492, which would authorize FWA to take over the permanent war housing, was reported out of committee without change and on a voice vote which was not recorded, the committee clerk said.

GROOVER AND I

HOMES, OR HOUSES

I have been absent for several days, you noted—I hope. Have been following clues trying to discover where the Building Industry has gone.

☆ ☆ ☆

Was compelled to turn back—the air became too heavy with sulphur fumes.

☆ ☆ ☆

You can say the home building industry has priced itself out of the market. The Proprety Owner points to the Operator, who in turn gives the nudge to Building Trades Labor, who passes the ball to the Material Dealers, where taxes are blamed. However you say it, the home building industry has gone plumb to hell.

☆ ☆ ☆

In some places we have homes that have been continuously lived in for 150 years. Today we also have families occupying garages where chickens once roosted on a beaten-in 1923 Essex.

☆ ☆ ☆

Today we have operators who can quickly cover 150 acres with houses (not homes). Despite their deserved national publicity, such operators at Stoneson, Gellert, Doelger and Bohannon working together could not build one home in which a family could live for 150 years!

☆ ☆ ☆

Without realizing it, we may be passing through a transition period between the timbered log-fortress of our ancestors and today's cardboard egg-crates built with a blowgun and held together by scotch tape.

☆ ☆ ☆

The home of tomorrow will not be a gadget-box of push buttons and electric eyes, but will be a civilized living space in keeping with these changing times—space in which people may live together as families and grow into citizens.

☆ ☆ ☆

This living plan may come from some young punk now sharpening pencils in an architect's office or may come from an old man sitting under a tree—it will come from someone who dares to dream.

☆ ☆

It is up to the operators of Yesterday to catch the temple of Tomorrow or—there will be a new group of operators.

☆ ☆ ☆

That is not a threat. It is inevitable evolution keeping pace with progressive revolution.

SENATORS HEAR 2117 ON TUESDAY, MAY 27

SACRAMENTO. — Assembly Bill 2117, which would permit private architects and engineers to be commissioned by state agencies for the design of state buildings, has been assigned for hearing before the senate committee on governmental efficiency on Tuesday, May 27.

The California Council of Architects and the Structural Engineers Association of California are campaigning vigorously through their members to obtain approval of this measure. They cite a great need for their services, borne out by the fact that the division of architecture is conducting a nationwide employment campaign to secure competent architects to help design the large building program under the State Department of Public Works.

AIA Asks Contest In Designing Major United Nations' Hall

WASHINGTON. — The American Institute of Architects has formally proposed to the United Nations that an architectural competition be held in the designing of one or more of the major buildings which will make up the U. N. Center in New York City.

Douglas W. Orr, president of The Institute, announced today: "It is our recommendation that the competition be open to architects from all nations participating in the UN."

"Inasumch as the UN Center will be symbolic of peace and the highest order of world cooperation, it is entirely appropriate that the talents of the world's most gifted architects be reflected in its design."

Preliminary plans for the United Nations world capital in New York were announced this week.

From the United Nations planning office came a semi-official report to the sixteen-national headquarters advisory committee. This carried information on the progress of early sketches of the headquarters buildings.

Included in this first submission was an artists' conception of the skyscraper headquarters building drawn by Hugh Ferris, former president of the Architectural League of New York.

Some preliminary details on layout, number of buildings in the future plan, facilities and services of each unit have been included in this report to the committee.

The planners are headed by Wallace K. Harrison, planning director.

This is the first public glimpse of what shape the world organization's future home will take.

An advisory committee session earlier this week discussed cost of the headquarters. This item has been variously estimated at from $100 to $125 million. Also under discussion were ways and means of paying the construction cost, and plans for wrecking buildings now located at the riverside site. The razing is expected to start about July 1.

The United Nations also has under consideration, it was learned, acquisition of the $1,500,000 eight-story office building of the New York City Housing Authority which still is uncompleted.

Though properly located, the building may not harmonize architecturally with other headquarters structures. This feeling has injected some doubt into committee deliberations about the final disposition of the NYCHA building.

When actual construction on the huge undertaking will commence remained conjecture pending approval of plans by the General Assembly. This important body meets in September at Flushing Meadow Park. In the meantime, considerable revision of these early plans can be expected by the member nations. The final report of the planning office goes to the 55 constituent countries as soon as its approval by the advisory group.

Eating facilities, for example, prove this point.

A directive for guidance of the architects suggested that these include a cafeteria seating 1,600 and a restaurant accommodating 400.

These would provide different price levels.

A delegates' restaurant for 500 in the meeting hall and another for 800 in the delegation building plus a third for 830 for the specialized agencies building are also under consideration. A public restaurant for out-of-town visitors, accommodating 500, is under consideration for location near the public lounge or lobby.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, Gilbert H. Kneiss, district director, 1375 Market Street, has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area.

May 21, 1947

REPAIR SHOP, $2,100; 361 East Lake Ave, Watsonville; owner, Floyd H Nichol, R 1, Box 74, Watsonville.

CONTRACTOR'S BLDG, $9,000; 1304 Old County Rd, Belmont; owner, Stylecraft, 1304 Co. Road, Belmont.

CLEANING PLANT ADD'N, $1,100; 1915 So El Camino, San Mateo; owner, Franzetti's Cleaners, 1915 So El Camino, San Mateo.

CABINET SHOP, $6,000; G St. at 87th Ave, Oakland; owner, David Sousa, 7335 Halliday, Oakland.

ALTER STORE FRONT, $1,750; owner, Kirkwood Furniture Co, 802 Fulton, Fresno.

LAUNDRY, $9,195; 920 Chestnut San Jose; owner, Carl Brown, 920 Chestnut, San Jose.

BROADCASTING STATION $18,500; Sanger; owner, Radio Sanger Co, Sanger, Station, KSGN, fabrication, $4,500; 4000 Railroad Ave, Fresno; owner, Vendorlator Mfg Co, 4000 Railroad, Fresno.

WAREHOUSE, $18,750; 1123 "S" St, Sacramento; owner, Geo C Foss ,et al 800 R St, Sacramento.

BARBER SHOP, $3,500; Tulare at 5th, Fresno; owner, Oscar Lamm, 3561 E Tulare, Fresno.

SERVICE STATION, $7,500; McKinley & Fruit, Fresno; owner, Standard Oil Co, of Calif, 225 Bush St, San Francisco.

CANOPY, Filling Station, $4,494; 1259 B St, Fresno; owner, Rockie Gamber, R 5, Box 169A, Fresno.

SERVICE STATION, $2500; Del Monte at Doss, Salinas; owner, George F Narvey, 1265 Del Monte, Salinas.

SHEET METAL SHOP, $1465; Felton; owner, George L Huchcroft, 2307 66th St, Oakland.

BUILDING (emergency housing for veteran students), $3550; Stockton; owner, Stockton Unified School District, 324 N San Joaquin St, Stockton.

HALL OF JUSTICE, $650,000; 26th at Nevin, Richmond; owner, City of Richmond, City Hall, Richmond.

RESTAURANT (Chinese), $8000; 950 Grant Ave, San Francisco; owner, Ping Y Wong, 950 Grant Ave, San Francisco.

WAREHOUSE (surplus material), $4275; Redwood City; owner, J E Landerville, 519 California St, San Francisco.

MARKET (fruit and vegetable), $5800; Ringstorff and El Camino Real, Mt View; owner, William L Garliepp, 725 Calderon, Mt View.

FACTORY (complete venetian blind factory), $1200; Santa Clara; owner, Nick Buttitta, Route 1, Box 764, Santa Clara.

AUTO COURT, $5000; Auburn at Fulton, Sacramento; owner, Alfred D Orjala, Route 7, Box 1230, Sacramento.

OFFICE and WORKSHOP (nursery and floral), $1500; Roseville; owner, Winfield S Roberson, 124 Riverside, Roseville.

SUB - BIDS WANTED

General contractors desiring sub-bids on any job are invited to make known their requirements in this column. There is no charge for this service

High School Classroom Bldg., Live Oak High School, Antioch; Bids Due May 28, 8:00 P. M.

SAN FRANCISCO

May 22, 1947—E FIRST and Boston, Sybil G Gerlack as to Improvements on property.

Army Needs Machines

(Continued from Page One)

first is virtually untouchable for export to the United States because of reparations agreements with other powers and it constitutes by far the larger share. The second—army - generated scrap—includes the residue from war, the worn out machines and other war items intended as no longer useful. This second type has furnished all the tonnage shipped to American shores to date and will be the only source of future shipments, the army believes.

We may get another 350,000 tons from Europe but that is expected to exhaust the supply of army-generated grades. Why can't the United States, starved as it is for scrap for its mills, touch the remaining vast reservoir of scrap now in Europe which in variously been estimated as high as five million tons?

Extraction Costly

Col. Pool's answer to this one involved the State Department.

"Our foreign military governments", he said, "are charged with supplying civilian needs in those countries. They must support the German economy and they need the steel the same as we do to accomplish this."

The amount of scrap now available to Germany (aside from our own army-generated material) will last no longer than the last day of 1947, he said. Then the military government representatives must go out and buy scrap elsewhere to supply the German mills and this will be done with American and English tax dollars.

Presently, German mills are running 90 per cent of pre-war steel output, the Ruhr district itself (the Pittsburgh of Germany) is only at 80 per cent of pre-war production, according to Col. Pool.

"We've stockpiled all the rubble scrap in Germany except the army-generated supply", Col. Pool explained. "But the labor costs of breaking out this rubble scrap—separating it from concrete in which it is buried, and other integrated material — would prohibit the army's using it, even if the reparation rules let us have access to it."

Sell to Americans

Prior to July, 1946, the army brought back scrap at its own expense but congressional curtailment of funds stopped this practice. It was hauled as paid cargo in army ships and sold at $12.88 per ton, New York. This was a losing proposition for the army, since it cost $40 per ton, all expenses considered, and army didn't get the payment checks anyway—they went right to the Treasury.

It now costs civilian operators about $20 per ton to do the same thing. Last fall, Dr. John Steelman, President Truman's close adviser, requested army and navy to sell the scrap only to American firms contracting to return it to the U. S. and this has been accepted procedure ever since.

Col. Pool talked only of scrap in unprepared form. He told how the shortage of coal (and thus of power) in Germany precludes any opportunity to process it there.

Grades of scrap being offered by the army from its foreign sources are number 1 and 2 heavy melting (about 25 per cent of total supply), cast (about 10 per cent of total supply), and mixed light (balance of total supply).

Sell to France

The high army officer spoke only of the scrap supplies, past and present, in Germany because he feels that army's holdings in other parts of the world are insignificant. For example, the only available stocks in the entire far east are 865 long tons now on hand at Yokohoma; 1,300 tons immediately available in the Canal Zone and future supplies that will boost this latter figure to 5,200 in six months and 5,775 in 12 months.

Construction men long have been asking where the vast amounts of scrap have gone that resulted from our fighting in France and Belgium. There was more iron and steel leftover generated there than in any other country. Col. Pool explained that virtually all this tonnage was sold to French and Belgium governments as we removed our forces in a hurry. Same is true of England. Some 20,000 tons remain in Italy but this comprises end items only. The sales in France, Belgium, England and Luxembourg were all bulk sales.

Aid Promised

Finally, Col. Pool said the army had sold 2,803,625 gross tons of ferrous scrap within the continental limits of the U. S. up to May 1, 1947.

"We will do all we can," he emphasized, "to help domestic mills obtain enough scrap to keep their furnaces producing."

ANNOUNCING THE NEW TREATED C. P. FORM CLAMP

C. P. STANDARD CLAMP ASSEMBLY
Patent No. 2,164,592

After years of extended research the C. P. Concrete Equipment Company have developed a treatment which has been applied to the C. P. Form Clamp Assembly, which provides the following advantages:

1—Will not rust.
2—Concrete will not adhere.
3—Easily removed from concrete.
4—No clean-up expense.

Official Proposal

Construct Project California F.D. 1N11-A, Dubakella Mountain Road, Trinity National Forest, Trinity County, California

FEDERAL WORKS AGENCY, PUBLIC ROADS ADMINISTRATION, San Francisco, California, May 22, 1947. Sealed bids will be received at the office of the Public Roads Administration, 720 Phelan Building, San Francisco, California, until 2:00 p.m. on June 5, 1947, and then publicly opened for furnishing the materials and performing the work for constructing Project California F.D. 1N11-A, Dubakella Mountain Road, Trinity National Forest, Trinity County, California. The length of the project is 5.5 miles and the principal items of work are approximately as follows: 34 acres clearing and grubbing; 110,000 cu. yds. unclassified excavation; 2,500 cu. yds. unclassified excavation for structures; 50,000 sta. yds. overhaul; 80 cu. yds. concrete; 2,800 lbs. reinforcing steel; 3,700 lin. ft. corrugated metal culvert pipe; 150 lin. ft. field assembled metal plate culvert. The minimum wage paid labor employed on this project shall be in accordance with the classified labor rates set forth in the Special Provisions. Plans and specifications may be examined by prospective bidders at the Public Roads Administration, offices, 723 Phelan Building, San Francisco, and 515 Forum Building, Sacramento, and at Associated General Contractors' offices, 785 Market Street, San Francisco; 707 Architects' Building, Los Angeles, and Hotel Golden, Reno. Where copies of plans and specifications are requested a deposit of $10 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and made payable to the Treasurer of the United States. Plans, specifications and proposals may be obtained at the office of the Public Roads Administration, 720 Phelan Building, San Francisco 2, California. CHAS. C. MORRIS, Division Engineer.

International Trade Office Opposes Creedon Stand On Lifting Lumber Export Quotas 5%

WASHINGTON. (Exclusive)——The office of international trade (Department of Commerce) will recommend this week that the export quote for lumber be raised immediately—probably by as much as 225 million board feet.

This would hike the quota to 500 million board feet for the second quarter of 1947 but would not increase shipments abroad to beyond "four or five percent" of total domestic production.

The OIT decision comes at a significant time, following soon the announcement by Housing Expediter Frank R. Creedon that he saw no need for raising export quotas on lumber this year.

It is doubtful, however, that definite action will be taken before congress makes its own decision with regard to all export controls.

Hearings are in progress now before a subcommittee of the senate judiciary committee. The present Export Control Act is in effect until June 30, 1947, unless renewed by congress.

Sources inside Commerce favor retention of export restrictions as a guide to the grades of lumber that can be licensed for overseas deliveries. As industry lines up generally, producers want to be released from the foreign sale mandates and the retailers would like to see them kept.

The forest product division realizes that price relationship—foreign to domestic — ultimately determines the output of finished grades. Reduced prices alone, it says, will not restore the flow of desirable grades once they might be cut off by export adjustments and other factors. The active demand has slackened somewhat in 1947.

Commerce economists have expressed the opinion that future demand for lumber will depend on overall construction activity, in di-

(Continued on Page 7)

PRESIDENT'S MESSAGE URGES EXPORT CONTROL

WASHINGTON. — President Truman's message to congress on Friday touched directly on export controls, urging congress to continue the Export Control Act beyond its June 30 expiration date.

He also urged congress to give authority for continuance of allocation powers covering transportation equipment and facilities of the railroads.

That portion of Mr. Truman's message covering these points read as follows:

"In this message I have not considered it necessary to discuss certain powers originally derived from the Second War Powers Act but now covered by separate legislation, i. e., the Sugar Act, the Rubber Act and the Patman Act. I have also omitted reference to the great importance of continued authority to allocate the use of transportation equipment and facilities by rail carriers. This matter is covered by separate bills, H. R. 3152 and S. 1297, now pending before the congress. Prompt action on these bills is urgently needed. Similarly, the congress now has under consideration an extension of the Export Control Act. It, too, is essential in implementing our foreign policy. I also urge prompt action on this bill."

Even as the message went to congress, lumbermen meeting in Augusta, Ga., heard the news that lumber prices fell from $75 to $50 per thousand board feet. This drop forced the closing of some twenty mills in the south.

Owen R. Cheatham, president of the Georgia Hardwood Lumber Co., said the "tobogganing of lumber prices is healthy for the industry."

Those mills forced to close by the price slide have been producing mostly low-grade air-dried pine which has had a limited use as framing, sheathing and sub-flooring material.

Many Engineering Positions Open in City Departments

The San Francisco civil service commission this week announced that applications for a series of engineering positions would be accepted until June 30.

In the higher bracket are positions as assistant engineer in the civil, mechanical and electrical fields at a salary ranging from $400 through $550, and for the engineer classification in the same fields, at $450-$550. There is a senior civil engineer position at $550-$650. Exams will be held July 18.

Minimum requirements are for assistant engineers: college graduation with a degree in engineering, and five years paid engineering experience; for engineers: college graduation, major in engineering, and eight years' experience; for senior engineer: college graduation, engineering major, and ten years' professional experience.

In the secondary bracket are positions as junior engineer ($300-$350), ad assistant engineer ($350-$400) in the civil, mechanical and electrical fields. Exams are to be held July 18.

College graduation with an engineering major is required for all positions. Assistant engineers must have two years' engineering experience; no experience is required for junior engineers.

SCHOOL PLANNING STUDY AVAILABLE

A pamphlet published by the National Council on Schoolhouse Construction, now is available for one dollar from H. C. Headden, State Department of Education, Nashville, Tenn.

The first section of the leaflet contains the proceedings of the 23rd annual meeting of the Council. Part two is entitled "Guide for Planning School Plants".

It deals with all phases of school planning from site selection to completion, and contains studies useful to mechanical and electrical engineers, and a special treatment of school lighting.

REYNOLDS WITHDRAWAL NOT RECEIVED — WAA

WASHINGTON.—A War assets administration spokesman in Washington said today no application had been received from the Reynolds Metals company for withdrawing from its leasing of the $28 million government-owned aluminum mill at Newark, Ohio.

According to press reports, Reynolds gave "a temporary recession" as its reason for attempting to withdraw from "leasing of a $28 million government-owned aluminum mill" in Newark, Ohio.

PHILLIP KINGSLEY TO ADDRESS ACCOUNTANTS

San Francisco chapter of the National Association of Cost Accountants will be addressed by Phillip F. Kingsley, superintendent of improved risk department of the Firemen's Fund Insurance Company on the subject of insurance costs, Tuesday evening, May 27, 1947, at the Engineer's Club.

Kingsley has been associated with the Firemen's Fund for 22 years.

P G & E President Urges Sale of Rec Power to Company

WASHINGTON.—James B. Black, president of the Pacific Gas and Electric Co., presented his side of the public transmissions lines controversy in testimony before a Senate appropriations subcommittee, urging that the government sell all of the power generated at two federally-built dams in California to his company.

He asked the senate group to deny bureau of reclamation funds for public transmission lines, substations and pumping plants except for one at Tracy, Calif.

"But we will build that, too, if you want us to," he added.

Black's proposal contemplated distribution of irrigation pumping power from Shasta and Keswick dams over his own company's lines. He said the bureau could withdraw any power it pleased from the company lines.

Senator William Knowland, Cal., asked the utility president if the bureau could serve its customers under such an arrangement.

"No," Black replied, "that would be using our lines to put them into competition with us."

Black maintained that his firm could serve the irrigation power needs cheaper than the government could. Some of the subcommittee members were skeptical of this.

"We will build the necessary lines and pay for them," Black explained. "It will save the government that money. We have lines that run six miles from the pumping Point at Tracy." He said the saving so affected to the government would be at least $1 million.

He added: "We would put a rate comparable to that at Shasta substation. We serve the whole market in that area."

Representative Bertrand Gearhart (r., Fresno) urged the subcommittee to restore the full $20 million sought by the budget bureau for the Central Valley Project. He said farm water supplies might dry up before the project water arrived.

Advise Separate Bids On Structural Steel

WASHINGTON—The steel subcommittee of the senate small business committee this week recommended that the Secretary of War and other government agencies placing contracts calling for the furnishing, fabrication and erection of structural steel be revised.

The senators recommended that government agencies require in advertising for bids that a bidder must submit separate bids for:

1—Furnishing, fabrication and delivery;
2—Erection; in order to qualify for
3—A combination bid for furnishing, fabricating, delivery and erecting structural steel.

LARGEST PLASTIC UNIT NOW EN ROUTE TO UC

PITTSFIELD, Mass.—A 650-lb plastics part said to be the largest ever produced by General Electric's plastics division, has been shipped from the factory here to be used as a component part of the University of California's newest atom smasher.

The largest synchrotron part is eight feet in diameter. Together with nine additional plastics parts, they will form the vacuum chamber of the atom smasher where the physical properties of the plastics offer unusual strength and stability combined with electrical insulation.

GROOVER AND I

ONE HUNDRED MILLION DOLLARS PER DAY

Washington is filled with sound and fury, smoke and confusion, threats and counter-bluffs regarding budgets, budget cuts, taxes and tax reductions.

☆ ☆ ☆

Washington has cut the life blood out of domestic appropriations designed to develop both national resources and citizens.

☆ ☆ ☆

To date, not one single, solitary, damned dollar has been cut from any foreign gift or grant!

☆ ☆ ☆

The cuts and savings, when compared to the total, are sliced as thin as the ham in a beach resort sandwich.

☆ ☆ ☆

Stop looking at the bright gimmick in the right hand - - watch what the magician is doing with his left hand.

☆ ☆ ☆

After the cutting and saving, regardless of budget, your government will spend 35-37 billion dollars during the next fiscal year (remember the departmental blackjack called "deficiency appropriation").

☆ ☆ ☆

Each 24 hours of the next fiscal year your government will spend one hundred million dollars per day.

☆ ☆ ☆

That is a lot of money — and should buy a lot of government.

☆ ☆ ☆

If it was good government, it would cost less—if it's bad government, it costs too much.

'NEVER HEARD OF PATMAN ACT,' SAYS HH STEEL VIOLATOR

WASHINGTON. — Some rather surprising situations have come out of the testimony given by witnesses before the senate subcommittee investigating steel shortages and their effect on small business in this country.

During the hearings last week it was brought out that a Long Island (N. Y.) builder obtained a vast quantity of steel on one of the old HH priority ratings. He acquired this supply, of course, on the official presumption that all the material would be used in housing.

Subsequently, the builder in question used 10 per cent of his huge amount of steel in housing construction and sold the other 90 per cent at speculative prices.

To climax this story, testified to true in every detail, the Long Island builder was quoted as saying he had never heard of the Patman Act.

FILING OF SALES REPORTS ON HH HOMES SCRAPPED

Housing Expediter Frank R. Creedon announced today that builders and other sellers are no longer required to file sales reports in connection with the sale of houses built under the HH priority authorizations, which were issued prior to last December 26. Sales reports have not been required on authorizations—under the Housing Permit Regulation — issued after that date.

A builder or other seller is still required to honor the sales price agreed to by the builder under the priority authorization.

State of California Sends Emissary to Procure Architects

WASHINGTON. — Robert Fort, in Washington to recruit skilled workers for the $320 million building program planned in Sacramento, reported he has had little trouble in lining up top flight architectural designers for the west coast project.

The state-retained representative is here to take advantage of the retrenchment program now affecting government agencies. By appealing for designers, draftsmen, construction engineers, estimators and other types of graduate personnel, he hopes to entice a number of government workers who will feel the economy axe.

Fort Advance Man

Thus far architectural designers have been the easiest to enlist, Fort said, with applicants from the other lines coming in more slowly.

He is seeking workers for civil service status with the State of California. To be built at Sacramento are a number of state buildings of monumental type construction, including a state hospital, office building and other structures. The whole program is expected to take longer than ten years to complete.

Fort said that one of the "different" financial arrangements made by the state of California in connection with administration of the appropriated funds is the provision that unexpended portions of allocated monies revert to an architectural fund, rather than to the general fund.

So far, the Washington, D. C., recruiting attempt is the only one of its kind outside California, set up to correlate the hiring with the retrenchment program here. But Fort said his office would send officials to other parts of the country if applications warranted.

Boyd Expected

Anson, Boyd, California state architect, and other officials are expected here next week to assist in the effort. It is planned to carry on the enlistment program on a national scale. Fort plans to remain here another month or so.

LITTLE FLOWER SUES PROPERTY OWNERS FOR $100,000 FOR SLANDER

President Arthur W. Binns of the National Home and Property Owners Foundation today was served notice that he and his organization are being sued for a vast quantity of steel on one of the old HH priority ratings. He acquired this supply, of course, on the official presumption that all the material would be used in housing.

Subsequently, the builder in question used 10 per cent of his huge amount of steel in housing construction and sold the other 90 per cent at speculative prices.

To climax this story, testified to true in every detail, the Long Island builder was quoted as saying he had never heard of the Patman Act.

FILING OF SALES REPORTS ON HH HOMES SCRAPPED

Housing Expediter Frank R. Creedon announced today that builders and other sellers are no longer required to file sales reports in connection with the sale of houses built under the HH priority authorizations, which were issued prior to last December 26. Sales reports have not been required on authorizations—under the Housing Permit Regulation — issued after that date.

A builder or other seller is still required to honor the sales price agreed to by the builder under the priority authorization.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, Gilbert H. Kneiss, district director, 1375 Market Street, has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area.

BUILDING (truck repairs), $9500; San Jose; owner, John M Moore, 1165 W San Carlos, San Jose.

GARAGE (auto repairs), $4200; San Bruno; owner, H A Pickens, 217 El Camino, San Bruno.

PLANT (meat processing), $8000; Florin Rd, Sacramento; owner, Keneles Bros, Route 1, Box 3360, Sacramento.

BUILDING (shower and change room), $28,667; Pittsburg; owner, Johns-Manville Products Co, E 3rd St, Pittsburg.

SERVICE STATION, $8950; 2nd and Harrison, San Francisco; owner, Standard Oil Co, 225 Bush St, San Francisco.

OFFICE (public accounting), $7500; S and 28th Sts, Sacramento; owner, Capra & Buchanan, 2131 26th St, Sacramento.

BUILDING (grocery and market), $12690; Atwater; owner, Harry Schuber, Box 263, Merced.

LAUNDRY (self-service), $9000; 8th at San Joaquin, Stockton; owner, Charles E Whittington, 536 S California St, Stockton.

PLANT (dry cleaning), $15,000; Mission at Crocker, Daly City; owner, Samuel Jacobson, 1727 29th St, San Francisco.

SALESROOM (parts), $3500; San Carlos; owner, Marine-Air Crafts Corp, 777 El Camino Real, San Carlos.

WAREHOUSE (furniture), $5000; Yuba City; owner, J B Sheridan, 521 Forbes, Yuba City.

SHOP (truck painting), $7718; 720 Cypress St, South San Francisco; owner, Alpen & Howe, 2373 Folsom St, San Francisco.

WAREHOUSE (beer), $19,860; Oakland; owner, J G Molaikides, et al, 201 2nd St, Oakland.

FACTORY (mattress, to compelte), $600; 1024 S 1st St, Turlock; owner, J E Delhart, Box 188, Turlock.

LOADING DOCK, $7500; Bayshore at 9th, San Jose; owner, Coast Line Truck Service, 154 W Lake, Watsonville.

BUILDING (retail clothing), $39,875; 477 18th St, Oakland; owner, Federal Stores, 111 Sutter St, San Francisco.

SHED (for school buses), $4000; 1630 Diablo, Walnut Creek; owner, J H Brubaker, 566 Commercial St, San Francisco.

REPAIR FIRE DAMAGE (to store), $2100; 1616 Franklin St, Oakland; owner, Frank A Kinslow, 360 16th St, Oakland.

PUMPHOUSE, $2000; near Marysville; owner, H H Jones, 918 6th St, Marysville.

PLANT (manufacture of food containers), $7000; Oakland; owner, Don Marshall, 877 42nd, Oakland.

RADIO STATION, $18,000; Santa Cruz; owner, Fred D McPhersen, 25 Church St, Santa Cruz.

DOCK TERMINAL (motor express), $19,819; Evans and Selby, San Francisco; owner, Central Automobile Maintenance Co, 661 Market St, San Francisco.

SUB - BIDS WANTED

(12) glazing of steel windows and mirror;
(13) air conditioning and ventilating system;
Switchyard Area
(14) furnish and/or install misc. steel for light standards, foundations for disconnecting awitch structure, for transformer transfer track, etc.;
Tailrace Structure
(15) furnish and/or install including painting as required the following:
(a) radial gates including hoisting mechanism;
(b) Calco Slide gates including hoisting mechanism;
(c) slide gates at ends of draft tube;
(d) fence and railings;
(e) steel liner at end of discharge liner from pressure regulator valve;
(f) other items of misc. steel;
Intake Structure at Diversion Dam
(16) furnish and install wheel gates;
(17) 18-in. crane gate valve;
(18) trash rack complete;
(19) steel ladders and gratings;
(20) air vent pipe complete for diversion pipe;
Excavation
(21) lump sum, temporary structures and works for diversion of river;
(22) per cu. yd. excavation, unclassified for Electra diversion dam and intake structure;
(23) misc. excav. and trimming required in areas excavated by others including removal of temporary earth and rock barrier in wasteway channel;
(24) earthbackfill material in place, as required;
(25) rockfill;
(26) drainage of excavations;
(27) rock surfacing of yard area, access road and turning area;
Formwork
(28) 6500 s.f. formwork for Electra diversion dam except for the diversion intake structure;
(29) 44,300 sq. ft. formwork for Power House sub-structure, tailrace structure, tunnel in open-cut, intake structure at diversion dam and other concrete work;
Reinf. Steel
(30) 266,000 lbs. reinf. steel for all concrete work except reinf. steel for superstructure of Power house;
Concrete
(31) 40 lin. ft. Class A concrete for constructing the horse shoe type tunnel section in open-cut adjoining the tailrace structure;
(32) alternate: 40 lin. ft. Class A concrete for constructing the 12-ft. diam. circular type tunnel section in open-cut adjoining the tailrace structure;
(33) 2085 cu. yds. Class A concrete for constructing the Electra diversion dam except for the diversion intake structure;
(34) 3055 cu. yds. Class A concrete for all other concrete work;
(35) 100 cu. yds. Class B concrete for constructing penstock anchors Nos. 3 and 4;
Finish Unformed Concrete Surfaces
(36) 6000 sq. ft. application and wood float plus steel trowel finishing of dust-on monolithic topping including hardener for main floor, basement floor and subbasement floors of power house;
(37) 950 s.f. dust-on monolithic finishing of main floor;
(38) for finishing including light brooming to obtain a non-skid surface where required of all other unformed concrete surfacing;
Miscellaneous Work
(39) installation of draft tube liners, discharge liner or pressure regulator, pit liner overscroll case and scroll case and all other bolts and sole plates;
(40) field assembly, erection and installation of hoist mechanisms and operating controls for 2 wheel gates for the intake structure;
Electrici Work
(41) installation of electrical work.

Lumber Export

(Continued from Page One)

rect proportion, and that its course will be determined more closely by the future of building than by price factors alone.

If this forecast is sound, then increased exports are advisable. It follows naturally because of the need for keeping mills in full production even if prices and other deterrent factors influenced toward curtailing output.

"There is a tremendous current physical need for lumber products," one exporter said, "which would be a world shortage right now if price were not considered as one of the controlling factors. Maximum production should be encouraged."

Contractors should not be surprised if a continuing effort is made to increase further the foreign shipments of timbers — it might run as much as 75 million board feet additional per quarter.

This is feared: If a sudden development in price trends should hold back production, the pattern of cutting at the mill would change and the desirable grades for home construction would not be coming from the saws in the volume they are now.

Some west coast producers report they are already slowing down. Two important transportation developments may further retard operations. (1) The Maritime Commission is scheduled for discontinuance June 30. This will reduce the west coast lumber ships from 55 to 30; (2) The grain shipping season is coming on. This will sap hundreds or thousands of freight cars, draining them from tidewater lines into the grain country.

Need Full Production

This comes about just at the time when the Northwest is coming into its own as a Douglas fir producing center. The pressure is on in Washington, Oregon, and California (northern part), particularly around Eureka, and several extremely northern California towns.

If the shipping facilities get clogged up, say the producers in this area, there will be no more doors and window frames from stright edge grain fir. Millwork will continue to pour out in suitable amounts only as long as the wheels turn at near full capacity, as they now are.

Some minds in the national housing agency fear that a bottleneck at the mill from lack of shipping space will shut off the supply—or lower it dangerously—of framing lumber in standard sizes (two by fours and two by sixes).

Export quota originally planned for 1947 was one billion board feet—less than three percent of normal production. The U. S. is home producing from Mexico and Canada this year approximately one and one-quarter billion board feet. These imports are all in construction grades except those quantities for manufacture into furniture. In contrast, 70 per cent of our exports is in non-housing grades. The influx from Canada and Mexico is consigned to U. S. areas poorly served by sea shipping.

Fir Rate Increases

The experts are guessing that Creedon will increase the export quotas but they are not guessing by how much.

In exports alone, the Douglas fir industry has increased its share of export business from 38 per cent of all lumber shipments abroad in the five-year pre-war period to 58 per cent at present. Southern pine was 27 per cent of that trade, now it is down to 20 per cent. If Douglas fir continues its pace in the race for foreign business, it can be expected to go over the one-half billion board feet figure this year, which would boost its last year's operation 29 per cent. In the pre-war years Douglas fir shipped seven per cent of its own production abroad; now it is shipping from nine to ten per cent to foreign lands.

Small Mills Needs

By far the greatest proportion of postwar lumber has been produced by the smaller mills scattered in timber stands throughout the south, west and east, most of them war-born on a boom demand. They comprise a high percentage of the 40.000 mills now operating in the U. S. How well they will be able to stand a recession in lumber prices without a comparable recession in operating costs — an unlikely possibility—remains to be seen.

Commerce Department is showing some concern over future output if and when an economic slide squeezes out the "peckerwood" mills by the thousands.

OVERHEAD CROSSING, ETC., SAN BERNARDINO COUNTY, CALIF.

Low and Only Bidders
Overpass and Undercrossings and Grading Cost $377,203.60
SAN BERNARDINO COUNTY, Calif.
Between Tiiwanda Ave. and Mulberry Ave.
Owner—State of California, Division of Highways, Public Works Bldg., Sacramento, Calif.
State Highway Engineer—G. T. McCoy, Public Works Bldg., Sacramento, Calif.
About 0.9 mile grading and paving with portland cement concrete, constructing a reinforced concrete overhead crossing at Kaiser Road and a steel beam span undercrossing at Kaiser Road.
Bids opened in the State Bldg., Los Angeles, Calif.
Low Bidder—George Herz, Box 191, San Bernardino, Calif., $377,203.60.
The work involves:
(1) 1680 cu. yds. remove concrete;
(2) clearing and grubbing;
(3) 128,500 cu. yds. roadway excavation;
(4) 3750 cu. yds. structural excavation;
(5) 1200 cu. yds. structural backfill;
(6) 200 cu. yds. ditch and channel excavation;
(7) 21,100 cu. yds. imported borrow, type A;
(8) 140,000 cu. yds. imported borrow, type B;
(9) develop water supply and furnish water equipment;
(10) 6800 M gallons apply water;
(11) 55 sta. finish roadway;
(12) 25,000 sq. yds. subgrade treatment;
(13) 190 tons liquid asphalt RC-2 subgrade treatment;
(14) 2400 tons minimum aggregate plant mix surfacing;
(15) 110 tons paving asphalt plant mix surfacing;
(16) 200 lin. ft. raised bars, plant mix surfacing;
(17) 5400 cu. yds. class B portland cement concrete pavement;
(15) 3150 each tie bolt assemblies;
(19) 98 lin. ft. timber bridge railing;
(20) 2275 cu. yds. class

Official Proposal

Additions to Present School, Mt. Shasta Elementary School, Mt. Shasta, Consisting of a Kindergarten, Four Classrooms, Cafeteria and Kitchen and Connecting Corridors

ADVERTISEMENT FOR BIDS

Sealed bids will be received and publicly opened at 7:30 P. M. on Thursday, June 12th, 1947, at the office of the Superintendent of the Mt. Shasta Union Elementary School District at the Mt. Shasta Elementary School, Mt. Shasta, California. The bids will be for additions to the present school, consisting of a kindergarten, four classrooms, cafeteria and kitchen and connecting corridors.

Plans and Specifications may be obtained at the office of Howard R. Perrin, Architect, 1121 Main Street, Klamath Falls, Oregon, upon deposit of $25.00, which deposit will be refunded to the bidder upon return of the Plans and Specifications to the Architect. Plans and Specifications may be examined at the office of the District Superintendent at Mt. Shasta and at the Builders' Exchange, 666 Mission St., San Francisco, California.

As a condition precedent to received Official Proposal Forms, the bidder must have filled out a Bidder's Pre-qualification Questionnaire and delivered the same to the Architect seven days prior to the opening of bids.

The successful bidder will be required to furnish a Surety Company Bond in full amount of the contract price. He shall be required to carry Public Liability Insurance as specified.

A bidder's bond or certified check in an amount equal to 5% of the lump sum bid must accompany the bid as a guarantee for the execution of the contract.

The Board of Trustees of Mt. Shasta Union Elementary School District, Mt. Shasta, California, reserve the right to reject any or all bids and to waive any informalities.

M. A. BRUSH,
Superintendent.

Other bids submitted May 21 were:
Pioneer Construction, Tucson, Arizona, $196,339.25.
Sam Xavier Construction Co., $219,165.
W. R. Skousen, Mesa, $223,085.50.
Fisher Contracting Co., Phoenix, $223,835.60.
D. A. Flickinger and S. L. Stewart, Phoenix, $226,998.
Packard Contracting Co., Phoenix, $231,938.
Phoenix Tempe Stone Co., Phoenix, $239,864.
L. M. White Contracting Co., Tucson, $240,242.50.
Reliance Truck Service, Phoenix, $241,904.50.
Tiffany Construction Co., Phoenix, $257,659.

5/27/47 40
Fertilizer Low and Only Bidders
SAN FRANCISCO, Calif.—Sunset Supply Co., Alemany Blvd. and Crescent Ave., San Francisco, Calif., at $2.70 per c.y. submitted low bid May 23 to the Purchaser of Supplies, M. H. Gerry, 270 City Hall, San Francisco, under Bid No. 3942 for furnishing and delivering approx. 3000 c.y. cow manure for Recreation Department during fiscal year 1947-48.
Other bids were:
F. X. Lehner, $3.30.
S. F. Paving Co., $4.45.

5/27/47 40
Owner Taking Bids—Due June 10, 10 A. M.
Grading, Surfacing, Bridges
STATE OF WASHINGTON.
Owner—State of Washington, Clarence B. Shain, director of highways, Olympia, Wash.
Plans by engineering department of owner.
Projects include:
(1) Manufacturing and stockpiling crushed stone surfacing and mineral aggregate and constructing non-skid single seal treatment from Pullman to Idaho state line; constructing non-skid single seal treatment from Colfax to Idaho state line and from Colfax to Central Ferry, 48.8 miles of P.S.H. No. 3 in Whitman County, a state project, involving about 3000 cu. yds. crushed stone surfacing in stockpile, 5510 cu. yds. crushed mineral aggregate in stockpile, 9700 cu. yds. mineral aggregate from stockpile and 709 tons bituminous cement RC-4.
(2) Ballasting and surfacing and manufacturing and stockpiling of crushed stone surfacing, mineral aggregate and crushed cover stone on P.S.H. No. 5, Mayfield to Kloma Creek, Lewis County, a state project, involving about 16,750 cu. yds. ballast in place, 10,580 cu. yds. crushed stone surfacing in place on roadway, 3885 cu. yds. crushed stone filler in place on roadway, 3800 cu. yds. crushed stone surfacing in stockpile, 12,070 cu. yds. mineral aggregate in stockpile, 1500 cu. yds. crushed cover stone in stockpile and other items.
(3) Constructing steel girder bridge over Washougal River near Washougal on P.S.H. No. 8, in Clark County, a state project, involving about 335 cu. yds. concrete, 19,000 lbs. steel reinforcing bars, 447 lin. ft. steel bridge railing, 324,000 lbs. structural steel, 3800 lbs. cast steel and other items.
(4) Manufacturing and stockpiling crushed stone surfacing, crushed cover stone and mineral aggregate and constructing 47.8 miles of non-skid single seal treatment on P.S.H. No. 11 and S.H. No. 11-F in Spokane, Lincoln and Adams Counties, a state project, involving about 700 tons of bituminous cement RC-4, 8370 cu. yds. crushed stone surfacing in stockpile,

er with sulphur silicon joints, and including 6x4 wye branches, in place, complete;
(10) 2,000 l.f. 4-in. vit. clay pipe sewer lateral with sulphur silicon joints, in place, complete;
(11) 2 each concrete catchbasins, with cast iron throats and covers, in place, complete;
(12) 25 l.f. 12-in. conc. pipe storm sewer, in place, complete;
(13) 8 each electroliter stand., complete with concrete base and glassware;
(14) 2,225 l.f. 1-inch electroliter conduit in place, complete;
(15) 260 l.f. 1½-in. electroliter conduit in place, complete;
(16) 2,745 l.f. single conductor cable, in place, complete;
(17) 30 l.f. concrete valley gutter with 3-in. crusher run base, in place, complete;
(18) 600 l.f. 2x6-in. redwood header, in place, complete;
(19) 6 each street signs, in place, complete.

(Note: Contractor to pay City of San Mateo $20 per street sign. City will in turn purchase and erect same, relieving contractor of responsibility.)

Specifications obtainable from the office of the City Engineer, City Hall San Mateo, Calif., upon deposit of $10, refundable.

41—GAS, WATER AND OIL PIPE LINES

5/27/47 41
Low and Only Bidders
Air Piping, Etc.; Serial No. 47-42 Cost $244,910

PASADENA, Calif., Los Angeles Co.
Supersonic wind tunnel, Jet Propulsion Laboratory, California Institute of Technology.
Owner—Los Angeles District Corps of Engineers, War Department, 751 S. Figueroa St., Los Angeles, Calif.
Plans by owner.
Furnish and install air piping, valves and equipment.
Low Bidder—OFCCO Construction Co., Inc., 2650 Cherry Ave., Long Beach, Calif., $244,910.
Other bids submitted May 19 were: Humiston-Rosendahl, Inc., $267,879 (all or none).
Gay Engineering Co., $288,600.
Alex Robertson Co., $320,775.
Lohman Bros., $655,761.
Government estimate, $286,310.

5/27/47 41
Contract Awarded
Water Mains Cost $5,778
SAN MATEO COUNTY, Calif. County Road between Ocean Shore Highway and Adobe Ranch.
Owner—North Coast County Water District, Patricia B. DeNio, secretary, Sharp Park Firehouse, Sharp Park, Calif.
Engineer—Wilsey, Broughton & Longson, Inc., 1126 Broadway, Burlingame, Calif.
Contractor—C. W. Stevens, 2010 Carroll Ave., San Francisco, Calif.
The work involves:
(1) 4450 lin. ft. install 6-in. welded steel pipe, 10-gauge;
(2) 3 each 6-in. flanged gate valves;
(3) 2 each 6x6-in. flanged tees.

Complete bids submitted May 21 were:
C. W. Stevens, San Francisco, (1) $1.34; (2) $65; (3) $30; total, $6218; alternate using 12-gauge War Assets surplus pipe for item (1) $1.24; total, $5778.
Pacific Pipe Line Construction Co., El Cerrito, (1) $1.67; (2) $75; (3) $38.90; total, $7784.30.
A. J. Peters & Son, San Pablo, (1) $1.89; (2) $80.80; (3) $32.35; total, $8787.60.
H. L. Harp, San Francisco, (1) $1.89; (2) $93; (3) $50; total, $8789.50.

5/27/47 41
Owner Taking Bids—Due June 2, 10 A. M.
Manhole and Access Tunnel
SACRAMENTO, Calif., Sacramento County, K St. near 10th St.
Owner—Sacramento Municipal Utility District, James E. McCaffrey, general manager and chief engineer, 4th and J St., Sacramento, Calif.
Plans by engineering department of owner.
Specifications obtainable from the above office.

5/27/47 41
Contemplated—Bond Election in Amount of $640,000 Tentatively Set for About July 1
Transmission Line
HAYWARD, Calif., Alameda County.
Owner — City of Hayward, C. W. White, city attorney, City Hall, Hayward, Calif.
City Engineer—John Mancini, City Hall, Hayward, Calif.
Includes large diameter pipeline from Hayward to Mission San Jose and a connection with San Francisco's Hetchy Hetchy water supply.

Supplies, Equipment Sub-Contract Information

42—MISC. SUPPLIES AND MATERIALS

Even a Child Can Open Them!
STRAND-STEEL OVERHEAD-TYPE GARAGE DOORS

YES, these new Strand-Steel Overhead garage doors are so simple to operate that a mere child can handle them. At a finger's command those modern overhead doors open and rise gracefully and smoothly... lowering with like precision. Although constructed of steel for strength and endurance, Strand-Steel Overhead-Type doors are perfectly balanced to permit easy opening and closing. Ready now for immediate installation, these garage doors are always out of the way, protecting your car from fender knocks so often received from swinging doors. For additional information regarding the Strand-Steel Overhead garage door, call your local P. C. A. office or mail the coupon below.

ECONOMY—now and in the future
—a larger size WATER HEATER

For speedy, dependable hot water service it is hard to beat the new Automatic Gas Water Heaters. They have the ability to replace hot water supply almost as fast as it is used. And they cost amazingly little to operate.

When you buy a new Automatic Gas Water Heater be sure it is an adequate, family-size model. Remember, with modern clothes washing, you need about 40 gallons of 140-degree water for the rinse, rinse, rinse that makes your laundry fleecy-cloud white.

GROOVER AND I

SINGING HIGHWAYS

It is time to introduce the "Groover Highway Plan".

☆ ☆

You recall the wide, straddle-wheeled contraptions that level off and finish the top coat of a concrete highway strip? Through research conducted by the Ransome Manufacturing Co. and Coast Equipment Co., it will soon be possible to offer the kind of concrete paver called for in this Plan.

☆ ☆

The Groover Plan is to leave in the finished surface of the highway small, unevenly spaced undulations or wales, at right angle to the direction of travel. These wales are so spaced that when traveling at maximum safe speed, the vibrations translate to audible sound.

☆ ☆ ☆

Your automobile wheels pick up these vibrations, transmitting them to the body of your car, which becomes an audible loud speaker. The more your jalopy rattles and squeaks, the better loud speaker it is.

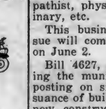
☆ ☆ ☆

(Get the idea? The concrete strip corresponds to the grooves of a phonograph record, your wheels are the "needle", and your car the speaker.)

☆ ☆ ☆

Think how pleasant it will be roll southward from Denver while your car gives forth with "When It's Springtime in the Rockies"—or turn westward, "California, Here I Come!"

☆ ☆ ☆



A safety feature could be added: Suppose you are rolling along to the rollicking tune of a "saddle song" when suddenly your car cuts in with the stern voiced warning, "Slow up, Bub, school crossing ahead."

☆ ☆ ☆

The entire plan could be financed through selling "singing commercials"—well, that's the way radio stations get by!

☆ ☆ ☆

Perhaps I have had nuttier ideas—but at the moment I can't remember.

ELECTRICAL FIRMS FINED $7,500 EACH FOR FTC VIOLATION

Consent judgments totaling $38,000 have been paid by six manufacturers of electric wire and cable in settlement of a suit brought by the federal government to recover civil penalties for alleged violation of a cease and desist order issued by the Federal Trade Commission.

Judgments of $7,500 each were paid by American Steel and Wire Company of New Jersey, Worcester, Mass.; Anaconda Wire and Cable Co. and Phelps-Dodge Copper Products Corp., both of New York; General Electric Co., Schenectady, N. Y., and The Okonite Co., Passaic, N. J.; while General Cable Corp., New York, paid a judgment of $500.

The cease and desist order alleged to have been violated was issued by the commission in December 1936 against the National Electrical Manufacturers Association and 16 of its member companies. It was directed principally against a price-fixing conspiracy and practices engaged in pursuant thereto.

The judgments are believed to be the largest ever recovered in a civil penalty suit for violation of a commission cease and desist order.

Professions Bitter Against City License Fee Schedule; Architects and Engineers Protest

By LORNA S. STOCK

At their last hearing in May, San Francisco supervisors snatched an admittedly unfair business licensing revenue bill (Ordinance 4084) from final passage and returned it to Supervisor Mancuso's finance committee. The bill had been sent to the full board "without recommendation".

The legislation brought angry rumblings from professional quarters because of alleged inequities, and vigorous protests were made by the architects and engineers at Monday's hearings, as well as by physicians and a host of other professions affected.

They pointed out that a merchandise broker which comes in the top income classification—and which may gross much more than the top ceiling of $50,000—is subject to a maximum fee of but fifty dollars per quarter, whereas an architect, engineer, or other professional man is taxed on a schedule running up to $150,000.

The portion of the ordinance affecting architects and engineers is printed below and shows the quarterly tax schedule proposed:

SEC. 148. Occupations. Every person, firm or corporation conducting, managing, or carrying on or engaging in any of the businesses, professions or occupations hereinafter in this section enumerated, the annual gross receipts of which business amount to less than Three Thousand ($3,000.00) Dollars, Three ($3.00) Dollars per quarter.

$ 3,000.00	to	$ 5,000.00	$ 4.50
5,000.00	to	7,500.00	6.00
7,500.00	to	10,000.00	7.50
10,000.00	to	15,000.00	11.25
15,000.00	to	20,000.00	15.00
20,000.00	to	25,000.00	18.75
25,000.00	to	30,000.00	22.50
30,000.00	to	40,000.00	30.00
40,000.00	to	50,000.00	37.50
50,000.00	to	60,000.00	45.00
60,000.00	to	70,000.00	52.50
70,000.00	to	80,000.00	60.00
80,000.00	to	90,000.00	67.50
90,000.00	to	100,000.00	75.00
100,000.00	to	100,000.00	112.50
150,000.00	to		125.00

The license fee provided for in this section shall be paid by every person, firm or corporation conducting, managing or carrying on or engaged in any of the following businesses, professions or occupations:

Architect, attorney-at-law, civil, electrical or mechanical engineer, dentist, geologist, optician, optometrist, oculist, osteopath or osteopathist, physician, surgeon, veterinary, etc.

This business licensing tax issue will come to the board again on June 2.

Bill 4627, an ordinance amending the municipal code to require posting on site of a notice of issuance of building permits for both new construction and alterations and additions at a cost of $2.50 per posting, was placed on the calendar for one week.

The board also held over for a week a bill appropriating $250,000 to provide funds needed by the public utilities commission to complete a waterworks project for which bonds were voted in 1942. Passage was opposed by Finance Chairman Mancuso, who asserted that the project was to provide emergency facilities in case of attack or bombing during the war.

"It serves no useful purpose now," he declared, "and would be a waste of the taxpayers' money."

A tax ranging from $6 to $12 on trucks, and $3 on motorcycles, was held over for two weeks. Funds derived would be set aside in a separate fund and appropriated exclusively for capital expenditures and for public improvements.

An ordinance amending the building code by adding a section providing boiler, water heater and tank regulations to be administered by the city department of public works was passed on second reading.

Works Dir. Harry Vensano explained that issuing of such permits and inspections had been done

(Continued on Page 7)

Refrig Apprentices Deplore Vocational Education Methods

As the result of a thorough survey of refrigeration apprentices which disclosed widespread dissatisfaction with present training methods, the joint labor-management industry committee will demand a drastic revision by the San Francisco board of education. Results of the survey were released today by Zed E. Jones, secretary - manager of the Northern California Refrigeration Contractors Association acting for the joint committee.

Student criticism centered on insufficient equipment, crowded classes and lack of practical instruction. Ed Tanner, chairman of the association apprentice committee, declared:

"The present program falls far short of the requirements. It is merely wasting the government's money and the men's time. We are urging the board of education to immediately correct this situation by providing more practical instruction, better equipped shops, smaller classes segregated in beginners' and advanced groups and much smaller classes."

Tanner added that the present courses were deficient in such fundamental subjects as welding and mechanical drawing. "The apprentices indicate that they want more practical instruction to supplement their on-the-job training. And both the unions and employers are determined that they will get it."

The survey showed that only 42.3 per cent of the students polled felt the class training answered job requirements. Nine out of ten polled wanted welding classes, while four out of five desired drawings classes. The seriousness with which the GI students regard their training is indicated by the fact that 88.4 per cent said they studied at home and the same percentage wanted examinations in their work.

Architects Bill 2117 Tabled by Senators

SACRAMENTO. — That bill to allow private architects to be commissioned to do state work was tabled in the senate committee on governmental efficiency and it proponents despaired its passage, here Tuesday.

"I doubt that we can get it up again," commented John S. Bolles, chairman of the California Council of Architects committee on governmental relations. "The civil service lobby is too powerful."

The tabling action came on the heels of announcement of a nationwide campaign to procure architects and designers for California's $320 million building program.

Appearing to speak against the legislation in senate committee hearing was State Works Attorney Norton, who asserted that A. B. 2117 would "undermine the civil service system".

The committee killed the measure by a 9-2 vote.

PLANNING COMMISSION NOW AT 100 LARKIN

The city planning commission is now located in new and larger quarters in the former Hospitality House at 100 Larkin Street. The building is shared by the art commission and the board of permit appeals.

The new offices provide space for the larger staff that has been authorized in the 1947 - 48 budget

Senators Investigate Eastern 'Gray Mart' Sheet Steel Operation

WASHINGTON. — Chicago and Pittsburgh allegedly are involved in a "gray market" operation involving substantial tonnages of sheet steel which will come under the watchful eye of the senate small business committee Thursday.

Manufacturers of building materials are closely affected by the steel shortages as evidenced by testimony given thus far before the subcommittee of the larger senate committees, investigating the effects of steel scarcity on small business men.

Some industry representatives already have testified that the lack of steel sheet ha held up the production of construction items using this type of metal.

Regarding the reported "gray market" in sheets, a committee spokesman said its own investigators had uncovered the Chicago and Pitsburgh operations which they described as "grand scale".

Evidence has been accumulated, he added, showing that the sheet tonnage involved has been sold at two or three times the market price. The committee will attempt to locate the source of the illicit supply, committee officials said.

Those supoeenad include L. C. Durham, Chicago, of the L. S. Durham Co.; E. A. Kerschbaumer of Hannon & Kerschbaumer, Pittsburgh; Herbert M. Karp, not yet located; Enrique Rodriguez, Washington, and Gerald Firth, president and A. R. Zapp, executive secretary of the Firth - Sterling Steel Co., McKeesport, Pa.

The senate committee says it is determined to locate and uncover the "gray market" practices in an effort to increase the supplies of much - needed steel material to manufacturers of finished goods.

Utilities Commissioner Of Oregon Protests Shipping Rate Boost

George H. Flagg, public utilities commissioner of Oregon, testified before an Interstate Commerce Commission hearing this week that granting of rate increase applications for rail and water carriers would penalize such products as Firtex and Pacific northwest lumber because products of the far western states are farther from principal markets than their competitors.

He urged that any increases authorized by ICC be made "in such manner as will not disrupt existing freight rate relationships, but on the contrary will preserve them."

He predicted that the increase asked by the water carriers might result in less total revenue and night force establishment of branch factories on the Pacific coast so manufacturers can avoid excessive freight rates.

Flagg said that proposed increases would have a tremendous impact on the aluminum industry of the Pacific northwest, as well as the lumber trade.

STANDARD BUREAU HEAD TO ADDRESS ENGINEERS' COUNCIL

Dr. Edward U. Condon, director of the national bureau of standards, will addres members of the San Francisco Engineering Council and guests at a 6:30 dinner meeting Wednesday, May 28, at the Engineers' Club.

The top-flight Commerce Department executive will speak on "Research at the National Bureau of Standards," featuring adaptations of electronics knowledge.

Gellert Represents Home Builders at Executive Session

Carl Gellert, vice-president of the Associated Home Builders of San Francisco, will confer with top federal housing officials in Washington next week in an effort to speed construction of homes in this area.

The occasion will be the meeting in Washington of the board of directors and the standing committees of the National Association of Home Builders with which the Associated Home Builders of San Francisco is affiliated.

250 Builders Attend

Other California delegates who have registered for the NAHB executives' meeting include Milton J. Brock and Fritz B. Burns, Los Angeles; Arthur Beliveau, Alhambra, and Wm. H. Evans, Long Beach.

A series of conferences with top government housing officials has been scheduled by the Home Builders. The directors will meet with Frank Creedon, housing expediter; Raymond M. Foley, FHA and FHA administrator; Thomas B. King, chief of the loan guarantee section of the Veterans Administration, and others. Representatives of building materials manufacturers also have been invited to discuss the progress of home building with the group.

Sessions got under way Saturday, May 24, with a meeting of the Association's executive committee. Meetings of the board of directors started Tuesday, and continued through Thursday. Nearly 250 builders, representing more than 12,000 home builders and one hundred local building associations, will participate.

Action will be taken at this meeting to solve problems of construction costs; the status of new starts and completions; building materials and labor problems; wage demands; the differences between FHA and Veterans Administration appraisals which are holding back sales to veterans; mortgage finance problems, and current housing legislation.

Rentals On Agenda

A major subject will be the national drive recently launched by the Association to stimulate construction of rental housing. Reports on projects put under way as a result of the drive will be received.

In addition to the local organization, Gellert will represent the Home Builders Council of California at the Washington meetings.

COMMERCE OFFICIAL ADDRESSES MARKET ASSOCIATION MONDAY

Stanley L. Kedzierski, regional domestic commerce representative for the Department of Commerce, told the San Francisco chapter of the American Marketing Association in a luncheon address Monday that facts must replace guesswork in apportioning selling costs.

For firms to stay solvent in the midst of tough competition, Kedzierski said, it may be necessary to eliminate items that fail to pay their way. He gave a formula for finding out which items pay their full share of costs for a firm handling a variety of products.

Costs vary not only with turnover and margin in price markup, but with the commodity, the customer, and the area, Kedzierski asserted.

Roughly translated, the formula for obtaining item costs is this: find out from your records, item by item, customer by customer, and area by area, what your costs are for maintenance, movement, promotion, and reimbursement.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, Gilbert H. Kneiss, district director, 1375 Market Street, has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area.

SERVICE STATION (to complete), $500; Ripon; owner, John Sanchez, Route 1, Box 800A, Ripon.

STORE (shoe and leather repair), $2400; 1055 Hzel St, Gridley; owner, James L Green, 1051 Hazel St, Gridley.

ICE BOX (meat processing), $3500; ½ mile north of Grass Valley; owner, J Gilko & Sons, 716 Whiting, Grass Valley.

DRESS SHOP, $15,000; Lot 13, Block 13, Gustine; owner, Virginia Crusinberry, Box 131, Gustine.

PLANT (paint manufacturing), $6000; Oakland; owner, Albrite Paint & Varnish Co, 85th Ave and G St, Oakland.

WAREHOUSE (electrical appliances) $6000; Hayward; owner, Edward F Hale Co, 22105 Meekland, Hayward.

PLANT (manufacturing plasterboard paper tape), $9500; Birch and Bane Sts, Newark; owner, W L Mackey & Co, 145 Stillman St, San Francisco.

GARAGE (to complete repair), $100; 1128-32 El Camino Real, San Carlos; owner ,Clarence A Schott, 1332 Woodland, San Carlos.

WAREHOUSE (beverage, to complete), $1880; 1800 Block Bayshore, East Palo Alto; owner, Roy B Lausten, 1966 University Ave, Palo Alto.

CHURCH (destroyed by fire, replace) $50,000; Colusa and A Sts, Orland; owner, Roman Catholic Bishop of Sacramento, 175 Yolo, Orland.

CHURCH, $16,000; Lewelling and 4th, San Lorenzo; owner, San Lorenzo Baptist Church, 16099 Paseo Ave, San Lorenzo.

FHA PERMITS ISSUED

SAN FRANCISCO, Calif.—Federal Housing Administration, D. C. McGinness, district director, 815 Montgomery St., San Francisco, Calif., has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

13 Units; San Francisco; Vignati &

Fenestra
RESIDENCE STEEL CASEMENTS
In 24 types and sizes recommended by the Metal Window Institute
Fenestra Steel Windows provide many advantages that result in greater customer satisfaction with the houses you build.
• More daylight • Easier opening • Superior weather-tightness
• Better ventilation • Safer cleaning • Better screening
Why use ordinary, old-fashioned windows, when modern Fenestra Windows offer you all these plus values? Write or call us for further information.

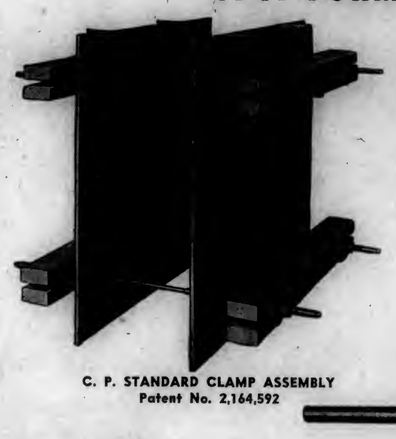
City License Bill

(Continued from Page One)



by the state, but state law provides duty may be relinquished to cities and counties where the county or municipality performs satisfactory inspections.
Commented Vensano: "During the war the state was unable to get inspectors. The work wasn't—and still isn't—being done.
"We estimate that revenue under this law would be about $16,000, and administration expense about $6,000."
The works department estimated that the possible loss of revenue to San Francisco through not administering the program during the past few years was about $27,000.

Official Proposals

FIRST PUBLISHED TODAY

INVITATION FOR BIDS ELECTRICAL EQUIPMENT AND A.W.W.A. GATE VALVES CITY OF MARTINEZ

Sealed proposals for furnishing certain items of equipment for the Martinez Filter Plant, addressed to the City Clerk, will be received by the City Clerk, City Hall, Martinez, California, until 8:00 P. M. June 18, 1947, at which time they will be publicly opened and read.

The materials on which proposals are desired are the following:

33 Gate Valves, 18 inch to 4 inch.
1 Electrical Switchboard, complete as specified.
3 Electrical transformers, complete as specified.

Contract documents may be examined at the Office of the City Engineer, 706 Estudillo Street, Martinez, California, and may be obtained by bona-fide bidders from the City Engineer without charge. Prints of the plans, if desired, may be obtained from the City Engineer on the payment of $0.50 per sheet, which is not refundable.

Bidders may bid on any or all items and awards will be made, if made at all, on each item separately.

FIRST PUBLISHED TODAY

NOTICE TO CONTRACTORS

Subject to conditions prescribed by the undersigned, sealed bids are invited for the construction of approximately 1,950 feet of underground electric ducts and manholes in the vicinity of Agricultural Hall on the Berkeley campus of the University of California. Bids will be received until 2:00 P. M., June 10, 1947. Plans, specifications and information will be available at the cashier's office, 103 Administration Building, University of California, Berkeley, California. A deposit of ten ($10.00) dollars is required for each set of plans and specifications issued. Right to reject any and all bids is reserved.

Signed:
THE REGENTS OF THE UNIVERSITY OF CALIFORNIA
(May 28, 29, June 2, 3, 4, 5, 6, 9, 10, 11, 1947)

Furnishing Certain Items of Equip. For the Martinez Filter Plant

— INVITATION FOR BIDS MATERIALS AND SUPPLIES CITY OF MARTINEZ

Sealed proposals for furnishing certain items of equipment for the Martinez Filter Plant, addressed to the City Clerk, will be received by the City Clerk, City Hall, Martinez, California, until 8:00 P. M. June 4, 1947, at which time they will be publicly opened and read.

The materials on which proposals are desired are the following:

1. (a) 4,100 Linear Feet 16 inch Class 150 Cast Iron Pipe.
1. (b) 4,100 Linear Feet 16 inch Class 150 Transite Pipe.
2. (a) 3,150 Linear Feet 14 inch Class 150 Cast Iron Pipe.
2. (b) 3,150 Linear Feet 14 inch Class 150 Transite Pipe.
3. (a) 1,000 Linear Feet 12 inch Class 150 Cast Iron Pipe.
3. (b) 1,000 Linear Feet 12 inch Class 150 Transite Pipe.
4. (a) 21.88 Tons Class D Cast Iron Fittings for C. I. Pipe.
4. (b) 24.06 Tons Class D Cast Iron Fittings for use with Class 150 Transite Pipe.
5. Three 1400 Gallon Per Minute High Lift Electric Motor Driven Horizontal Centrifugal Pumping Units complete with motors.
6. One Venturi Meter and Recorder - Totalizer - Indicator Panel and appurtenances, complete as specified and shown on drawings.
7. 112 Linear Feet of 24 inch, Class 150, Cast Iron Pipe, as specified.
8. 96 Linear Feet of 18 inch, Class 150, Cast Iron Pipe as specified.

Contract Documents may be examined at the Office of the City Engineer, 706 Estudillo Street, Martinez, California, and may be obtained by bona fide bidders from the City Engineer without charge. Prints of the plans, if desired, may be obtained from the City Engineer on the payment of $0.50 per sheet, which is not refundable.

Bidders may bid on any or all items and awards will be made, if made at all, on each item separately.

PLANS and Speculations

California planning loans announced Thursday include the following: Calipatria school district of Imperial County, elementary school at Calipatria, estimated cost $326,800, federal advance, $13,000; San Ysidro school district of San Diego County, elementary school at San Ysidro, $43,395 and $1,950; Rosemead school district of Los Angeles County (two advanced): elementary school at Rosemead, $192,800 and $8,000; administration offices, garage and shop at Rosemead, $53,020 and $2,200; Mountain View school district of Los Angeles County (2 advances): additions to Mountain View school at El Monte, $84,000 and $3,600; additions to Maxson School at El Monte, $86,000 and $3,800.

oOo

Arizona planning loans announced today include one to Graham County, acting by and through its board of supervisors, general hospital at Safford, estimated cost $372,220, federal advance $10,500.

oOo

San Francisco, Alameda and the Los Angeles metropolitan areas will get 67.4 additional miles of freeways in the state highway system provided agreement con be reached on financing their construction. This decision was reached by the senate - assembly compromise committee on the highway bill.

oOo

California counties have no authority to spend money for repair and maintenance of roads, bridges and lanes in federal reclamation projects unless the services are deeded to the counties, it was held yesterday by the office of Attorney General Howser.

oOo

The city of **San Francisco** will examine candidates for positions as senior draftsman in the civil, mechanical and electrical fields who are legal residents of the city and who have four years of first-class paid experience in drafting. Salary is $330 to $400 for a five-day week. Applications are due June 13; the exam will be July 1.

oOo

Plans for a 600-acre **Marin** County airport have been announced. It would be south of the Greenbrae intersection of Highway 101. Estimated cost is $312,000.

oOo

The bill to establish a $2.5 million naval school at **Del Monte** will be heard of the floor of the house of representatives soon.

cOo

Installation of the mammoth boiler to serve the Kennecott Copper Corp.'s $10 million power plant near the Magna mill in the vicinity of **Reno** is expected to be completed before August 1, D. D. Moffat, vice president and manager announced.

oOo

Bids will be called for next week by the **Tulelake** city council for drilling a new city water well in an effort to meet increasing demands of a rapidly expanding population.

oOo

The Municipal Railway management announced yesterday it had made a start on a modernization program by rebuilding the first of 196 cars slated for a "face-lifting" job. The rebuilding costs $3000 per car.

oOo

Contra Costa county board of supervisors has authorized three important road improvement projects: one at Crockett, one at Crow Canyon, and one at Pleasant Hill.

GROOVER AND I

". . . THAT THESE DEAD SHALL NOT HAVE DIED IN VAIN"

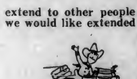
On this Decoration Day flowers are placed upon the graves of the remembered. From the dust of the past call the still voices of the forgotten dead.

* * *

Along the Highway of History gravestones have turned to dust—the vanished markers of forgotten men—men who fought that man need not fight again.

* * *

We have put our trust in shot and steel—yet out of each war we seem only to learn newer methods of killing greater numbers of people.



* * *

There is a Declaration of Peace upon which has settled the dust of the years for twenty centuries. This Peace Treaty may work. We don't know—we have never tried it.

* * *

It consists of the simple formula that we extend to other people the same treatment, consideration and courtesy we would like extended to us.

This is dangerous and subversive thinking. Should the peoples of the world take it seriously, the manufacturers of armament would have to go on relief.

City of San Francisco Collects License Fees From Contractors, Subs Despite Court Ruling

By PHILIP G. BRADY

With a projected ordinance to tax architects and engineers pending before the board of supervisors, thousands of local contractors are heading for a showdown with the City and County of San Francisco over the legality of license fees currently being collected by the city. Despite a court ruling that city license excises are illegal because the contractors are already paying the state for the privilege, the San Francisco tax collector's office, on advice of the city attorney, continues to assess local contractors for license fees.

Philip G. Brady

Many trade associations in the industry are flatly advising their members to withhold payment until a higher court ruling is received. These trade groups are being led by the painters at whose instigation court action protesting the fee was initiated. Their case reached a successful conclusion when Superior Court Judge Herbert Kaufman ruled that the city was without legal right to assess license fees.

The city indicated that it would appeal to the supreme court and since then has continued to bill contractors for new license fees and renewals. Walter Dold, assistant city attorney, told the Daily Pacific Builder this morning, that the notice of appeal had already been prepared and would be filed shortly.

"In the meantime the city is suing everybody who fails to pay, although we are not serving them," Dold disclosed. He indicated that this was being done to keep the statute of limitations from outlawing the suits.

"If the higher court rules in our favor," he said, "we will collect all the fees plus interest and penalties." Should the appeal be denied and Judge Kaufman's ruling be upheld, Dold felt that those contractors who had paid, as requested, would "have a hard time" getting their money back. "Of course if they paid under protest," he continued, "there would be no difficulty."

Anne McArdle, license supervisor in the tax collector's office, said that most contractors under her jurisdiction, with the exception of the painters, are responding to her bills and paying the license. The tax collector handles all but the electricians and plumbers, which are supervised by other departments.

Nearly 1800 contractors have paid the contested fee, according to the records and Miss McArdle disclosed that her office is getting ready to mail out renewal notices on June 30. The city licenses expire July 1.

PAPER, ALUMINUM MATERIALS USED IN DOWNEY PREFABS

WASHINGTON. — Housing Expediter Creedon has requested the Reconstruction Finance Corporation to issue a guaranteed market contract to Southern California Homes, Inc., of Downey, for construction of 250 prefab houses.

The houses are to be built of a new type material—a panel made from plastic-impregnated kraft paper in the form of a honeycomb faced with thin sheets of high-strength aluminum alloy. The panels are used for the walls, partitions and roof of the house. It will be a one-story, two bedroom structure containing approximately 800 square feet of floor area, and will cost $6,410.

#

IRRIGATION OUTLOOK IN SOUTH POOR—KRUG

WASHINGTON.—Interior Secretary J. A. Krug announced Thursday that March and April rains and the spring run-off prospects indicate an ample supply of irrigation water during the 1947 growing season in most of the seventeen western states.

Propects in the southwest, including large areas in Arizona, Nevada and southern California, he added, are "uncertain or poor".

#

STATE OFFICIALS TELL OF $11 MILLION GG PLAN

SACRAMENTO. — California highway officials Tuesday announced that plans have been submitted to directors of the Golden Gate bridge district for improvements costing approximately $11 million.

Included in the program is a new Waldo approach, rumored to cost $9½ million. Inmprovements to the existing Waldo approach, including widening and some reconstruction, probably will require $2 million.

Offices of Daily Pacific Builder will be closed on Friday, Saturday and Sunday, May 30, 31 and June 1.

Electronics Adaptations Virtually Untouched, Standards Bureau Director Tells Engineers

The electronics industry has not even reached first base in its potentialities for usefulness, Dr. Edward U. Condon, director of the national bureau of standards, told San Francisco engineers Wednesday.

The scientist who presides over 56 acres of laboratories in Washington said in a talk at the Engineers' Club that "electronic devices are being used in only five per cent of the applications where they could be useful."

Dr. Condon, one of the world's leading nuclear physicists, said that persons without technical training often thought of these devices as bulky delicate equipment which must be specially housed and protected. "Today electronic control mechanisms can go anywhere the crank shaft can go," he stated, "and they can be made as small as any application calls for."

Plastics Important

One of the most important advances in the electronics art came about through the development of the printed circut technique, he said. In this process, entire radio or electronic circuits are actually printed on flat plates—or even on the glass of a radio tube itself. Circuit wiring consists of silver ink applied through a stencil. Resistors are painted on with carbon ink while tiny condensers, now available through the use of certain rare earths with unusual electrical properties, complete the basic circuit. The radio tubes are themselves no bar to extreme miniaturization, he explained, because they can now be made as small as a finger joint.

The extreme sub-miniaturization now possible was thoroughly battle-tested in the highly successful radio proximity fuzes developed by the bureau of standards for bombs, rockets, and mortar shells. In fact it was design specifications for these fuzes that were primarily responsible for the search which ended in the development of the printing circuit method, he said. The small electronic circuit in a mortar shell experiences a force exerted in every part of it, 10,000 times the force of gravity. Dr. Condon pointed out that this is far beyond conditions that similar circuits adapted to industrial use would be called upon to stand.

Outlining the latest development in the adaptation of electronic circuits Dr. Condon said that a new plastic (called NBS Casting Resin) has been developed in which a complete circuit can be "potted". The electronic device, through the use of this new plastic, can be used in acid environments which would disintegrate ordinary open-to-the-air devices. In addition, it allows the circuits to be put up in much the same way as radio tubes are, allowing plug-in installation.

Reveal Defects

With the use of electronic devices that are both rugged and small, modern industry can now take advantage of the great virtue of this type of equipment which is its speed. Ordinary control devices which use relays and other mechanical parts in combination with electrical circuits have a speed of reaction far too slow for many processes. Electronic devices will react almost with the speed of light. They will detect vital cracks in machinery as fast as they occur; they can guide automatic controls with a greater accuracy and speed than any human operator; and they will automatically make measurements of the highest possible accuracy.

The national bureau of standards established an electronics division late in 1942 to carry on electronic ordnance work for the armed forces. This division is now engaged in both fundamental and applied research in the field. At about the same time as this division was established serious ionospheric research began at the bu-

(Continued on Page 8)

BERKELEY ASSEMBLYMAN TO ASK RE-HEARING OF 2117; MAY BE THIS WEEK

SACRAMENTO.—Assemblyman Thomas. W. Caldecott (r., Berkeley) announced Thursday that he will ask for reconsideration of the architects' and engineers' bill 2117. He said a majority of his colleagues had indicated they would be willing to give the measure a re-hearing.

John S. Bolles, interviewed in San Francisco, said the action to reconsider stemmed from an article published exclusively in the Daily Pacific Builder describing the state's campaign to obtain architectural workers in Washington, and other eastern cities, and from a communication from Washington headquarters of the American Institute of Architects, which arrived shortly after the hearing.

Bolles, who is chairman of the California Council of Architects' committee on governmental relations, praised the cooperation of architects and members of the Structural Engineers Association in support of A. B. 2117.

Urging architects and engineers to write their legislative representatives before the hearing this week, Bolles declared, "We have just begun to fight".

#

LUMBER SHIPMENTS SHOW SLIGHT DROP DURING LAST WEEK

WASHINGTON. — Lumber shipments of 414 mills reporting to the National Lumber Trade Barometer of the National Lumber Manufacturers' Association, were 3.7 per cent below production for the week ending May 17, it was announced today.

New orders were 10.5 per cent below production. Unfilled order files of the reporting mills amounted to 72 per cent of stocks. For reporting softwood mills, unfilled orders are said to be equal to 26 days' production at the current rate, and gross stocks are equivalent to 34 days' production.

#

STATE ADMINISTRATION FIELD FUNDS ENDORSED

WASHINGTON. — The U. S. Chamber of Commerce was among the first proponents to be heard on Senator Brewster's bill to channel airport construction funds thru the states.

The national chamber threw its full weight behind the proposal to pass the federal-aid funds through the states "as a means for sound and successful development".

EXTRACT ALUMINA

WASHINGTON—A large recovery of alumina from South Carolina known as porcelain clay, has been obtained in metallurgical tests conducted by the bureau of mines, Dr. R. R. Sayers, bureau director, announced today in releasing a publication describing the use of the lime-soda sinter process.

A copy of Report of Investigations 4069, "Recovery of Alumina from Kaolin Emnloying the Lime-Soda Sinter Process", may be obtained from the Bureau of Mines, Department of the Interior, Washington 25, D. C.

CPA PERMITS GRANTED

SAN FRANCISCO. — The Civilian Production Administration, Gilbert H. Kneiss, district director, 1275 Market Street, has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area.

WAREHOUSE (building materials), $9500; Clovis and Ventura, Fresno; owner, Marion Nine Lumber Co, Route 11, Box 936, Fresno.

STORE (jewelry), $3800; 122 S. K St, Tulare; owner, Farrar, Inc, 209 Tulare, Tulare.

SERVICE STATION (and garage), $9500; 234 S Commerce, Stockton; owner, Jack Matsumoto, 36 W Washington St, Stockton.

BUILDING (nurses' home, utility room), $34,000; Manor, Calif; owner, Arequipa Sanitorium, 918 Harrison St, San Francisco.

ADDITION (to elementary school), $45,000; Suisun; owner, Green Valley Elementary School, Suisun.

PLANT (glass processing), $20,000; Sonoma and Indiana, Vallejo; owner, Omar Tribble, 507 Marin St, Vallejo.

BUSINESS OFFICE, $4200; L and M Construction Co, 140 New Montgomery St, San Francisco.

PAINT STORE (repartition), $5650; 525 5th St, Eureka; owner, W F Fuller & Co, 301 Mission St, San Francisco.

MOTEL (complete), $750; Ripon; owner, John Sanchez, Route 1, Box 300A, Ripon.

WAREHOUSE (fire loss), $6500; 4345 San Pablo, Emeryville; owner, C P Fink, 369 Pine St, San Francisco.

SCHOOL (elementary), $250,000; 2600 12th St; owner, North Sacramento School District, 110 Dixieanne St, North Sacramento.

DRUG STORE, $12,000; 1502 Fruitvale Ave, Oakland; owner, Naomi Knowlton, 3206 E 14th St, Oakland.

WAREHOUSE, $10,500; Oakland; owner, Ernest and Harold Rodgers, 10168 Foothill, Oakland.

BUILDING (transmitter), $4000; Magalia; owner, Golden Empire Broadcast Co, Magalia.

LAUNDRY, $5000; Miller at Cypress, South San Francisco; owner, Steve and Viola Eliahes, 8 Grand Ave, South San Francisco.

PLANT (olive processing), $7500; Fresno; owner, Florio Bros, Route 3, Box 329A, Fresno.

FLUORESCENT LIGHTING (bank), $1500; Castro and Market Sts, San Francisco; owner, Capital Co, 1 Powell St, San Francisco.

PLANT (manufacture of building blocks), $5300; San Carlos; owner, Western Pumistone Products, Box 340, San Carlos.

BAKERY, $7500; Burney; Shasta Co; owner, Frank Dobrowsky, 1836 Gold St, Redding.

FHA PERMITS ISSUED

SAN FRANCISCO, Calif.—Federal Housing Administration, D. C. McGinness, district director, 815 Montgomery St., San Francisco, Calif., has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

1 UNIT—Morgan Hill; H Westergard, Route 2, Box 121, Morgan Hill.

1 UNIT—Oakland; James Ness, 2736 Oliver Ave, Oakland.

5 UNITS—Sunnyvale; LeRoy Cochran, 371 N Fair Oaks, Sunnyvale.

3 UNITS—Salinas; Rex C Powell, 61 Pearl St, Salinas.

1 UNIT—Martinez; Kenneth S Woodford, 1835 Pine St, Martinez.

1 UNIT—Richmond; A E Owen, 860 52nd St, Oakland.

4 UNITS—Santa Cruz; K J McGranahan, 120 Spring St, Santa Cruz.

4 UNITS—Walnut Creek; W W Fox, 47 Chestnut St, Lafayette.

2 UNITS—San Francisco; Bergstrom & Larvick, 305 Prospect St, San Francisco.

1 UNIT—Santa Cruz; Richard P Freytag, Box 1040, Santa Cruz.

2 UNITS—Richmond; C J Shinn, 3317 Rheem Ave, Richmond.

2 UNITS—Sacramento; Angelo CarteJcelli, 1561 39th St, Sacramento.

2 UNITS—Modesto; Herman S Carroll, 2220 Downey Ave, Modesto.

1 UNIT—Richmond; Wm D Gibbs, 1630 17th St, Richmond.

21 UNITS—Gigarden Annex No 2, Fresno County; Claude T Lindsay, Inc, 824 Taraval St, San Francisco.

12 UNITS—Hayward; George H Calder, 8056 Earl St, Oakland.

1 UNIT—Mt View; Paul H Fretz, 1585 El Camino Real, Mt View.

2 UNITS—San Rafael; J D O'Connor Construction Co, 391 Sutter St, San Francisco.

5 UNITS—Los Altos; Trice Construction Co, 3611 Midfield Way, Redwood City.

28 UNITS—San Rafael; DeLuca & Son, 1745 Filbert St, San Francisco.

7 UNITS—San Jose; J D O'Connor Construction Co, 391 Sutter St, San Francisco.

1 UNIT—Auburn; D N Stearns, 1365 High St, Auburn.

3 UNITS—Rancho Buri-Buri, South San Francisco; Buri-Buri Homes, Inc, Box 186, South San Francisco.

2 UNITS—Santa Cruz; Harold R Adams, Route 2, Box 202, Santa Cruz.

46 UNITS—Hayward; Gross Development Co, Inc, 19567 E 14th St, Hayward.

4 UNITS—Fresno; J Paul Oppenheim, Box 1902, Fresno.

2 UNITS—Oakland; Mario Fassio, 9404 C St, Oakland.

2 UNITS—Oakland; H P Fisher, 376 17th St, Oakland.

Build your STORE or MARKET with STEEL for up to $1.99* per sq. ft. of floorspace

Miller Avenue Super Market, Mill Valley—a 4-arch STRAN-STEEL "Multiple" Quonset building

Steel framing and sheathing erected, complete with standard doors, windows, foundation and concrete floor!

Hayward Butane Company's Quonset "24" near Hayward

THINK OF IT! A permanent, firesafe steel building—for less than $2.00 per square foot! There's no need to let excessive rent eat up your sales profits—or high building costs delay your plans—when you can build *now* at *less than pre-war prices!*

★**SIZES TO MEET YOUR NEEDS EXACTLY**... A full range of widths and lengths offers exactly the size and shape of building to fit your use and property.

★**ATTRACTIVE** store fronts or display windows are easily added to the basic STRAN-STEEL design at moderate cost. You can easily get "buy-appeal" in interior arrangement, too—clear span arch rib construction leaves floor area clear for any layout you desire.

CHECK THESE STRAN-STEEL FEATURES and you'll see why these modern "packaged" steel buildings are appearing in every community for stores, shops, warehouses, factories, garages . . .

★**TOP QUALITY CONSTRUCTION**... Stran-Steel building designs are soundly engineered and "performance-tested." Framing is of structural steel, sheathing of galvanized corrugated iron—there's nothing to warp, shrink or rot.

Get the Facts . . . mail the coupon or phone your nearest Kraftile office (below) for prompt, complete information and prices.

Kraftile Company, Stran-Steel Division
Dept. 2-C, Niles California
YES . . . I want to know how to get steel buildings for only $1.89 to $1.99 per square foot, erected. Mail my copy of your illustrated Stran-Steel booklet describing the buildings now ready for immediate delivery to

ENROLL MORE TRAINEES

WASHINGTON. — Despite the fact that new construction was not up to expectations in April, the number of apprentices hired in the building trades increased by 3.2 per cent. This was announced Thursday, by the apprentice training service of the Department of Commerce.

City License Fee

(Continued from Page One)

"The delinquents—those who refuse to pay—are just being held", she stated. "We can't do anything about it until the test case is decided. We have to abide by the law. The city thus far has not accepted the lower court's decision."
In contrast to the operation of state license laws, the money collected from local contractors goes into the general fund which is used to pay all city expenses. Under state operation, the money is specifically allocated to finance operation of the license law.
Should the city lose the test case, the contractors would be entitled to their money back with seven per cent interest from the date of judgment, according to City Controller Harry D. Ross. Ross disclosed that current collections are not being held in reserve to meet the contingency of repayment.
Under the law, he said, the supervisors would make a special appropriation and could return the fees with interest in a lump sum or ten installments.

SENATE AUTHORIZES COMPLETION OF TEMPS

WASHINGTON. — The senate earlier this week completed congressional action on the bill to authorize federal public housing authority to complete its program of converting surplus army barracks and other wartime structures into temporary veterans' housing units. The legislation provides $35 million for this purpose.
The original bill setting up the program authorized spending of $410 million to aid in furnishing temporary housing to veterans and their families affected by evictions and other hardships.
Because of increased construction costs resulting from labor and building materials prices, many of the units in the process of conversion could not be completed. Additional funds were voted to allow completion of these units for which contracts already have been made.

Official Proposal

Additions to Present School, Mt. Shasta Elementary School, Mt. Shasta, Consisting of a Kindergarten, Four Classrooms, Cafeteria and Kitchen and Connecting Corridors

ADVERTISEMENT FOR BIDS

Sealed bids will be received and publicly opened at 7:30 P. M. on **Thursday, June 12th, 1947,** at the office of the District Superintendent of the Mt. Shasta Union Elementary School District at the **Mt. Shasta Elementary School, Mt. Shasta, California.** No bids will be for additions to the present school, consisting of a kindergarten, four classrooms, cafeteria and kitchen and connecting corridors.

Plans and Specifications may be obtained at the office of Howard R. Perrin, Architect, 1123 Main Street, Klamath Falls, Oregon, upon deposit of $25.00, which deposit will be refunded to the bidder upon return of the Plans and Specifications to the Architect. Plans and Specifications may be examined at the office of the District Superintendent of Mt. Shasta and at the Builders' Exchange, 666 Mission St., San Francisco, California.

As a condition precedent to received Official Proposal Forms, the bidder must have filled out a Bidder's Pre-qualification Questionnaire and delivered the same to the Architect seven days prior to the opening of bids.

The successful bidder will be required to furnish a Surety Company Bond in full amount of the contract price. He shall be required to carry Public Liability Insurance as specified.

A bidder's bond or certified check in an amount equal to 5% of the lump sum bid must accompany the bid as a guarantee for the execution of the contract.

The Board of Trustees of Mt. Shasta Union Elementary School District, Mt. Shasta, California, reserve the right to reject any or all bids and to waive any informalities.

M. A. BRUSH,
Superintendent.

Dr. Condon Speech

(Continued from Page One)

reau. Dr. Condon said that the ionosphere, the electrically conducting layer 30 to 250 miles above the earth's surface, became the object of comprehensive study during the war as control and prediction of radio transmission-reception became critical. It is the existence of this layer that makes long-distance radio communication possible. Wrapped high above the earth like a trillion dollar cable, it bounces back the radio signals sent up into the air.

Aid Communications

If it were not there as a radio reflector, those signals sent up would travel right on out into space and radio transmission beyond 50 miles or so would be an utter impossibility. The study of these electron clouds at the bureau of standards has already led to a great deal of information, Dr. Condon said. The bureau now publishes regular forecasts of radio weather for communication engineers, and publishes them three months in advance.

Another part of the electronics field with immense potentialities involves the use of multimillion-volt betatron and synchrotron equipment. Bureau of standards laboratories now have the job of establishing the basic protective and measurement standards in connection with these new machines, he said. This responsibility is an outgrowth of radiation and x-ray work carried on continuously since 1913.

Study Radiation Hazard

Plans are underway, Dr. Condon said, for the erection of a betatron and a synchrotron at the bureau in order to carry out research using the extremely high voltage x-rays and electron beams which they generate. This equipment will be housed in a four-story building which will be completely underground. This precaution is necessary, he said, because no one yet knows what the radiation hazards are in this multimillion volt range.

(6) 62,000 sq. yds. compact original ground;
(7) 3,750 cu. yds. struct. excav.;
(8) 6,500 cu. yds. struct. excav. overhead and overcrossing;
(9) 500 cu. yds. struct. backfill overhead and overcrossing;
(10) 76,000 sq. yds. cultivation preparatory landscape treatment;
(11) 5,700 cu. yds. import borrow;
(12) develop water supply and furnish water equip.;
(13) 5,800 M gallons apply water;
(14) 55 sta. finish rdwy.;
(15) 31,000 sq. yds. mix and compact cement treated subgrade;
(16) 3,100 bbls. port. cem. treated subgrade and cement treated base;
(17) 6,500 tons min. agg. cement treated base;
(18) 55 tons filter mtl. sumps;
(19) 1 ton liq. asph. SC-2 prime coat;
(20) 60 tons liq. asph. SC-6 Dense graded plant mix surf.;
(21) 1,100 tons min. agg. dense graded plant mix surf.;
(22) 600 tons min. agg. open graded plant mix surf.;
(23) 180 tons pave asph. open graded plant mix surf. and plant mix surf leveling course;
(24) 3,000 tons min. agg. plant mix surf. leveling course;
(25) 75 tons asph. emuls. curing seal, paint binder and seal coat;
(26) 7,000 cu. yds. port. cem. conc. pavement;
(27) 4,500 each tie bolt assemblies;
(28) 11,000 cu. yds. class A port. cem. conc. structs.;
(29) 2,387,500 lbs. furnish bar reinf. steel;
(30) 2,387,500 lbs. place bar reinf. steel;
(31) 513,000 lbs. furnish struct. steel;
(32) 513,000 lbs. erect struct. steel;
(33) 48,900 lbs. misc. iron and steel;
(34) inverted siphon;
(35) 152 lin. ft. 14 in. steel discharge pipe;
(36) 162 lin. ft. steel handrail, 2 rails;
(37) 77 lin. ft. steel handrail, 3 rails;
(38) 3,319 lin. ft. steel railing;
(39) 2 each handhole frames and covers;
(40) 14 each drop inlet frames and covers;
(41) 1,275 cu. yds. Class A port. cem. conc. curbs, rolled gutter and sidewalks;
(42) 1,000 each curb dowels;
(43) 40 each right of way monuments;
(44) 17 each center line monuments;
(45) 25 each culvert markers;
(46) 2,100 lin. ft. chain link fence;
(47) 736 lin. ft. 12 in. reinf. conc. pipe stand. strength;
(48) 161 lin. ft. 15 in. reinf. conc. pipe stand. strength;
(49) 28 lin. ft. 24 in. reinf. conc. pipe stand. strength;
(50) 2210 lin. ft. 4 in. vit. clay pipe;
(51) 82 lin. ft. 6 in. vit. clay pipe;
(52) 461 lin. ft. 12 in. plain conc. pipe;
(53) 594 lin. ft. 15 in. plain conc. pipe;
(54) 1,356 lin. ft. 24x6⅜ in. part circle CM culvert 8 gauge;
(55) 86 lin. ft. salvage exist pipe culverts;
(56) 20 each red reflectors;
(57) engineer's office;
(58) 1,000 lin. ft. 1 in. galv. steel pipe supply lines;
(59) 1,300 lin. ft. 1¼ in. galv. steel pipe supply lines;
(60) 900 lin. ft. 1½ in. galv. steel pipe supply lines;
(61) 2,500 lin. ft. 2 in. galv. steel pipe supply lines;
(62) 1,400 lin. ft. 2½ in. galv. steel pipe supply lines;
(63) 1,000 lin. ft. 3 in. galv. steel pipe supply lines;
(64) 140 each control assemblies;
(65) 11,000 lin. ft. ¾ in. galv. steel pipe nozzle lines;
(66) 12,600 lin. ft. 2 in. galv. steel pipe nozzle lines;
(67) 450 lin. ft. 1¼ in. galv. steel pipe nozzle lines;
(68) 40 each sprinkler connections;
(69) drainage pumping equip.;
(70) elec. system No. 1;
(71) elec. system No. 2;
(72) elec. system No. 3;
(73) elec. system No. 4;
(74) elec. lighting equip. Monterey St. overhead;
(75) elec. equip. Calif. Ave. overcrossing;
(76) remove and reconstruct improvement.
The State will furnish brass plates for centerline monuments.
Specifications obtainable from the above office.

Install a
Majestic STANDARD CIRCULATOR UNIT
This all-steel, preformed fireplace unit takes chimney-wasted heat and puts it to work heating the home. The Majestic Standard Circulator directs warm air to every part of the room through attractive grilles . . . and heat can even be piped to other rooms. Build a new fireplace around it or install in your present one. Firebox, poker-control damper and insulation seal are included. Ask us for more details about the Majestic Standard Circulator today.
★ Delivers All-Over Room Heat . . .
★ Compact, Unified Construction . . .
★ Saves on Fuel and Installation Costs

WANT TO BUILD?
PUMALITE building blocks are beautiful, inexpensive—and available.
Home, store, factory, warehouse . . . whatever it is you want to build NOW, it's possible because PUMALITE building blocks are just what you need.
LOW COST. Cheaper than lumber, easy to use, speedy construction, no maintenance . . . PUMALITE's initial cost is low—upkeep nil.
AVAILABILITY. PUMALITE building blocks are a truly efficient building material, and are available now.
BEAUTY AND STRENGTH. From the base of Mt. Shasta comes the genuine rock pumice from which PUMALITE building blocks are made. The strength and the beauty of the mountains are in these attractive, serviceable blocks.
FIREPROOF, *termite and earthquake proof, insulation for heat, cold and sound.* These amazing blocks solve your building problem now.

WESTERN ASBESTOS COMPANY

Simpson
QUALITY SINCE 1895
—ANNOUNCES the creation and manufacture of a superior, high-efficiency acoustical tile—manufactured in the West and allocated to Western building.
ACOUSTICAL TILE

Extensive tests have proven that under special processing the long, tough fibers of Douglas fir produce material which possesses extremely high sound-absorbing qualities. For this reason, Simpson technicians have selected this fiber in creating the new Simpson Acoustical Tile.
Exclusive Features:
1. PERFORATIONS CLEAN-DRILLED. Into each square tile are drilled 484 perforations, each having a clean edge and a smooth, round wall. The tile will withstand repeated painting without the perforations clogging or filling or impairing acoustical efficiency.
2. BEVELS PAINTED. The entire exposed surface of the tile . . . including bevelled edges . . . is finished in attractive oyster white.
3. GREATER SOUND-ABSORBING COEFFICIENT. Tests prove a remarkably high degree of acoustical efficiency.
Architects . . . Before planning your next job, discuss the new Simpson Acoustical Tile with your nearest Simpson distributor-applicator listed below, or write direct.
Made from the long, strong fibers of Douglas Fir

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

International Lighting Exposition Rule Book Entry Forms Available

CHICAGO. — The official rule book and entrants guide for the planned lighting merit award competition of the Second International Lighting Exposition and Conference is now ready for distribution.

The booklet contains 12 pages of rules and suggestions for preparing entries. Covered are such subjects as minimum data required, type of photographs or lighting layouts, what to include in reporting industrial lighting installations, type of information desirable for inclusion in commercial lighting applications, and data pertinent to street lighting and floodlighting jobs. Copies may be obtained from any of the more than 80 lighting equipment manufacturers exhibiting at the exposition ir by writing the Merit Award Committee, 326 W. Madison St., Chicago.

While the merit awards and 12 Gold Seal $100 Awards are open only to electrical contractors, electrical wholesalers, architects, utility lighting and power men and consulting engineers, the merit award committee is urging all industrial, commercial and school executives to encourage the submission of their installations.

August 31 is Deadline

In addition to the rules and suggestions, the official rule booklet contains the official entry blank which must be filled out before an official registration number can be issued and the entry received. All entries must bear this registration number and be postmarked not later than midnight, August 31, 1947, to be eligible for merit award certificates.

APPROVE PORTLAND MULTI-UNIT RENTAL APARTMENT BUILDING

PORTLAND. — Approval of a 23-unit rental housing project for World War II veterans and their families in Roseburg was announced today by State Director Folger Johnson at the Portland office of the federal housing administration.

The project will be built by Vista Homes Corporation of Roseburg, at Winchester Street and West Third Avenue. John D. Todd of Roseburg, is heading the building corporation. It will be financed by the First National Bank of Portland with a mortgage of $197,900 to be insured by FHA under Title VI of the National Housing Act. The project will consist of 1½ story row houses providing 20 units of 4½ rooms and 3 units of 5½ rooms.

OKAY VET APARTMENTS IN LOS ANGELES AREA

Approval of a 12-unit rental housing project in the Los Angeles area for World War II veterans and their families was announced today by District Director John E. McGovern of the federal housing administration.

Vernon H. Sauble, Earl F. Sauble and Harold L. Bobier will build two-story apartments at the corner of Dickens and Kester Streets, Sherman Oaks, northwest Los Angeles. The project will be financed by the Lincoln National Life Insurance Company with a mortgage of $87,500 to be insured by FHA under Title VI of the National Housing Act. The apartments will provide twelve units of four and one-half rooms.

PAINT SALES TOTALS SHOW RAPID INCREASE

WASHINGTON. —March sales value of paint, varnish, lacquer and filler rose sharply over February, the Department of Commerce announced today. March sales by some 680 makers who represent about 90 per cent of the industry, were $91,769,816, while February sales were $81,631,777. In March, 1946, the total was $64,696,964.

As reported by 580 establishments 1947 trade sales figures were $49,330,448 in March, and $43,345,971 in February. In March 1946, the trade sales were $37,339,412.

Industrial paint sales rose about $11 million in the one-year period.

Did You Know That . . .

Capital Speculates As Non-Residential Building Top Ascends

WASHINGTON. — Some building quarters in Washington—private industry sources in particular—today were reading tremendous significance into the latest release of the office of the housing expediter showing nonresidential construction approvals running as high as $56 million plus in field offices for the latest week covered.

Add to this more than $8 million worth of projects approved by the facilities review committee in Washington and the total sanctioned figure for the week ending May 15—that is, the entire approval activity of all OHE offices, both Washington and field — approximates $65,500,000. This is not too far from the $75 million per week that has been rumored persistently as the new ceiling under a policy change to be announced by Expediter Creedon's office.

The weekly average of construction volume approved between Jan. 10 and May 15 now stands in excess of $50 million; denials for the same period average out slightly more than $25 million worth.

The OHE announcement follows:

"The facilities review committee of the office of the housing expediter in Washington during the week ended May 15 approved 117 non-housing construction projects amounting to $8,343,927 and denied 194 applications totaling 07,-266,790. OHE field offices during the same period authorized 2,387 projects in the current month amounting to a total amount of $56,068,-065 and denied 634 applications involving $14,299,333.

"From January 10 through May 15, non-housing construction approved amounted to $916;235,000, a weekly average of $50,902,000. Denials for the same 18-week period totaled $452,299,200, a weekly average of $25,128,000.

"Total approvals from March 26 1946—the date when the construction authorization order (VHP-1) became effective—through May 15 of this year numbered 107,259 in the amount of $3,426,081, while 66,589 applications involving $2,-343,538 were denied."

STEEL TONNAGE SHOWS SLIGHT DROP IN APRIL

NEW YORK. — Estimated total tonnage for the entire steel industry in April was 143,101 tons, a drop from March's 149,634 tons, but over the rate for January and February, 1947.

Shipments for April were 138,-982 tons. March shipments were 137,799 tons. Estimated total bookings for the first four months of 1947 amounted to 523,589 tons, or an increase of 19 per cent over the same months in the averaged five pre-war years 1936-40.

Copper Support Is Asked to Bolster Small West Mines

WASHINGTON. — Clarence O. Mittendorf, director of the office of premium price plan, announced that $366,000,000 was paid under the PPP to lead, copper and zinc producers from February, 1942, to March, 1947.

He stated that of the total amount of lead and zinc produced in the United States in March, 1947, about 52 per cent of the lead and 73 per cent of the zinc were produced in mines operating under the plan. More than five per cent of the copper produced in United States mines in March received subsidies under the plan, he said.

It was revealed that the average premiums paid in January, this year, to lead and zinc producers amounted to 15 cents per pound for lead and 2.8 cents per pound for zinc.

Western producers of copper have been receiving a subsidy of 5.1 cents per pound (during May) for their output while copper producers in other parts of the country received an average subsidy of 3.14 cents per pound in that month.

The relatively low figure of between five and 10 per cent for subsidized copper output comes about because three firms in the United States produce 80 per cent of the supply—Kennicott, Anaconda and Phelps-Dodge. The balance comes largely from small mines that were developed during the war.

One of the reasons for continuing the PPP on copper is that once these smaller mines are closed down for a long period, they cannot be reopened because of the damage from cave-ins.

Therefore it is essential that these marginal mines be kept open, at least as long as the expiration loan holding housing items off the market.

PUBLISH AED RATES

The fourth edition of the Associated Equipment Distributors "Compilation of Rental Rates for Construction Equipment" is now off the press, according to an announcement issued by the Association's executive office in Washington.

Copies are obtainable from the AED executive office, 1928 Eye St. N.W., Washington, D. C., at $3.00 each. Checks in payment must accompany the order.

BRICK OUTPUT RISES

WASHINGTON.—Production of both brick and tile increased during April over March by the substantial margin of 14 per cent.

The Structural Clay Products Institute announced that manufacturers turned out 388,400,000 brick during April, a 14 per cent boost over the March output. Also, it represented a five per cent increase over April of 1946.

Douglas Fir Fibers Basic Ingredient in New Acoustical Tile Made in Washington

TACOMA.—Douglas fir, grown on the 240,000-acre Simpson tree farm and other timber holdings in the rain belt of the Olympic mountains of Washington, is the basic material of the newly-developed Simpson acoustical tile. Processed, the Douglas fir has a long fiber which results in an acoustical tile of unusually high efficiency and strength.

The acoustical tile—one of the outstanding postwar products to come out of the Pacific northwest, —was developed by the Simpson research laboratory, and is being manufactured in a new and modern plant just completed in April. Entire production is allocated to Simpson applicators in the eleven far western states.

Douglas fir wood is carefully sorted and all bark or rot is removed before chipping. Simpson Logging Company is the only company now using all Douglas fir in the manufacture of acoustical tile.

The new Simpson Acoustical Tile has a high sound-absorption value due to the Douglas fir fibers and clean, drilled perforations of which there are 484 to the 12 inch x 12 inch unit. The tile is bevelled and the bevel is finished in the same oyster white as the surface. It is made in two sizes, 12 inch by 12 ich and 12 inch x 24 inch, and in thicknesses of ½ inch, 5/8 inch and 7/8 inch. The clean-drilled perforations permit repeated painting of the surface without clogging or filling the perforations or impairing acoustical efficiency. Special processes are used during manufacture to render the acoustical tile resistant to termite and fungus infestation.

Tests by Riverbank Laboratory show that the sound absorption of Simpson acoustical tile is equal to or better than that of similar perforated acoustical tile.

The new acoustical tile offers exceptional advantages in effective sound control and acoustical correction in a wide variety of rooms such as offices, clubs, schools, auditoriums, public rooms, stores, hospitals, factories, churches, theatres, banks, bedrooms, dens, and in many other types of rooms.

"Tests show that Simpson acoustical tile is an improved perforated acoustical material of high efficiency," stated R. E. Seeley, vice-president in charge of sales for the Simpson Logging Company.

"Engineers know that perforated tile contains its acoustical value primarily from the perforations, and it was to meet the need of most modern tile drilling machine in use today. The machine drills a clean, round perforation, without leaving stray fibers on either the walls of the perforations or on the edges. Because of these features plus the finished bevels, we believe Simpson is presenting the finest acoustical tile on the market," continued Seeley.

These new developments are a part of the Simpson Company's expansion program in the building material field. Up to the present time, production has been confined to lumber from two sawmills, plywood from two plants, and doors and millwork from one of the largest plants in the industry.

The wood fiber division plant is under the management of C. J. Macke, a vice-president of the Simpson Logging Company. R. E. Seeley, vice-president in charge of sales, has supervision over the sales of all company products. A. L. Crozier, who has been with the company for a number of years, most of which have been as eastern district representative with offices in New York City, has been transferred to the main sales office in Seattle as sales manager of the wood fiber division. Sales engineer and technical adviser is Paul D. Close, nationally known authority on insulation and technical writer on the subject. Close joined the Simpson organization after serving seven years as technical secretary of the Insulation Board Institute, Chicago. The sales division of the Simpson Logging Company is located at 1010 White Building, Seattle.

Simpson acoustical tile will be distributed in the eleven western states by the following applicators: Allied Construction and Specialty Co., Inc., Los Angeles; Angeles Industries, Los Angeles; Arizona Sash, Door and Glass Co., Tucson; Consolidated Roofing and Supply Co., Phoenix; Continental Lumber Co., Boise; Elliott Bay Lumber Co., Seattle and Everett; Exchange Lumber and Manufacturing Co., Spokane; Frost Hardwood Lumber Co., San Diego; Lumber Dealers, Inc., Denver and Pueblo, Colorado, and Billings, Montana; Rose City Floor and Insulating Co., Portland; Utah Lumber Company, Salt Lake City; Van Arsdale-Harris Co., San Francisco.

Spring Building Contracts Decline In Eastern States

NEW YORK—Construction contracts awarded in the 37 states east of the Rocky Mountains in April dropped 18 per cent below the volume reported for April of last year, F. W. Dodge Corporation reported today.

Sharp declines in residential investment commitments were shown in the April contracts. Thirty-two thousand dwelling units are to be provided under the April residential contracts as compared with 51,000 authorized for in contracts let during April of last year, and 35,000 in March of this year.

Nonresidential contract volume in April totaled $184,317,000, and represented a decline of four per cent from March's total and 22 per cent from that of April of last year.

The downward trend in April was checked by an increased volume of heavy engineering works. The total for this type of construction was $161,859,000 against $121,971,000 in March, and $128,-139,000 in April of last year.

20,000 Contractors Ask License Renewal

SACRAMENTO. — Eugene E. Zeiss, registrar of contractors, announced Thursday that 20,000 renewal applications and fees have been received from contractors over the state. The first new licenses were mailed out last Monday.

Since renewal applications were mailed out, Zeiss said, they have been coming back at a rate from 600 to 1,000 per day, with the peak period expected about the end of June. The actual deadline requires that the renewal application be postmarked June 30. After that date, there is a 100 per cent penalty.

"Aside from address changes, we have a nominal amount of suspense—about 600 items", said Zeiss. "They constitute principally changes in personnel from one status to another, such as additions to and deletions from copartnerships. This number also includes thirty-five personel checks, which were unsigned."

STEEL, RESINS AND PIG IRON SHORTAGE HOLD BACK WIRING

Production of electric wiring devices suitable for residential use rose in March, according to manufacturers' reports received by the office of the housing expediter.

First-quarter output surpassed the previous all-time peak reached in 1941, but OHE officials stated that production of critical electrical wiring devices had not yet reached the quarterly level necessary to meet essential requirements.

Manufacturers attribute their failure to reach earlier estimates of production to shortages of raw materials, particularly steel, phenolic resin molding compounds, and pig iron and components such as screws and porcelain bodies.

VET LOANS INCREASE

The number of veterans applying for guaranteed home loans under the G. I. Bill rose sharply in April following a steady drop since last fall, Veterans Administration announced today.

A 25 per cent increase was reflected in VA's figures for April, which show nearly 51,000 home loan applications received, against 41,000 in March.

LUMBERMEN MEET

CHICAGO.—The first meeting of the American Lumber Congress in 25 years will be held here June 16-18 following completion of arrangements by the National Lumber Manufacturers' Association.

More than 1,000 representatives of all phases of the lumber industry are expected to attend.

Official Proposals

Additions to Present School, Mt. Shasta Elementary School, Mt. Shasta, Consisting of a Kindergarten, Four Classrooms, Cafeteria and Kitchen and Connecting Corridors

ADVERTISEMENT FOR BIDS

Sealed bids will be received and publicly opened at 7:30 P. M. on Thursday, June 12th, 1947, at the office of the District Superintendent of the Mt. Shasta Union Elementary School District at the Mt. Shasta Elementary School, Mt. Shasta, California. The bids will be for additions to the present school, consisting of a kindergarten, four classrooms, cafeteria and kitchen and connecting corridors.

Plans and Specifications may be obtained at the office of Howard R. Perrin, Architect, 1121 Main Street, Klamath Falls, Oregon, upon deposit of $25.00, which deposit will be refunded to the bidder upon return of the Plans and Specifications to the Architect. Plans and Specifications may be exmined at the office of the District Superintendent at Mt. Shasta and at the Builders' Exchange, 666 Mission St., San Francisco, California.

As a condition precedent to received Official Proposal Forms, the bidder must have filled out a Bidder's Pre-qualification Questionnaire and delivered the same to the Architect seven days prior to the opening of bids.

The successful bidder will be required to furnish a Surety Company Bond in full amount of the contract price. He shall be required to carry Public Liability Insurance as specified.

A bidder's bond or certified check in an amount equal to 5% of the lump sum bid must accompany the bid as a guarantee for the execution of the contract.

The Board of Trustees of Mt. Shasta Union Elementary School District, Mt. Shasta, California, reserve the right to reject any or all bids and to waive any informalities.

M. A. BRUSH,
Superintendent.

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF ARCHITECTURE

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the Division of Architecture, Public Works Building, 12th and "N" Streets, Sacramento, California, up to 3:30 P. M., Tuesday, June 10, 1947, said bids thereafter on said day to be publicly opened and read for three separate projects, as hereinafter listed, at the Camarillo State Hospital Near Camarillo, Ventura County, California, all in accordance with plans and specifications therefor.

The projects referred to are as follows:

1. Attendants Quarters, Units 4 and 5.
2. Four Physicians Residences and garages.
3. Temporary Steel Buildings.

Project No. 1, Attendants Quarters, are 2 story reinforced Concrete, tile roofs, steel sash. Mechanical Work and services are included. Combined total floor area approximately 18300 square feet.

Alternate bids for the addition of a small Recreation Building of approximately 2720 square feet also for open shelter garages, of wood frame and stucco, composition roofing and road paving to house 116 cars, are required in connection with project No. 1.

Project No. 2, Four Physicians Residences and garages are one story frame and stucco, approximately 1500 square feet each, Mechanical work and services included.

An alternate for omitting one residence is required for Project No. 2.

Project No. 3 ,Temporary Steel Buildings consist of erecting 7 prefabricated steel buildings from materials on hand and adding partitions, mechanical work, services and paving.

Separate bids only will be entertained for each project.

Authority Notice approval for this construction is authorized by FPHA under Serial Nos. 16-FP-33-56, VI-355, VI 212, and VI 315-CO88.

Prevailing Wage Scale: In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Ventura County

Classification	Hourly Rate
Asbestos Workers	$2.00
Bricklayers	2.00
Carpenters	1.90

Highway Improvements—Alameda County on Eastshore Freeway

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock P. M. on June 11, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing State Highway in accordance with the Specifications therefor, to which special reference is made, as follows:

Alameda County, on Eastshore Freeway, between one mile north of South City Limits of Oakland and three-tenths mile south of High Street in Oakland (1V-Ala-69-Oak), about two and three-tenths (2.3) miles to be graded.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate Per Hour
Skilled Labor	
Carpenter	$1.75
Cement finisher	1.875
Concrete mixer operator (less than one cubic yard capacity)	1.60
Concrete mixer operator (one cubic yard capacity or more and paving type)	1.90
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.25
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.35
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or more)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Dredger Fill Work	1.95
Bargeman	1.30
Leverman	1.90
Fireman and oiler	1.30
Deckmate	1.50
Deckhand	1.30
Watch engineer	1.65
Intermediate Grade Labor	
Jackhammer operator	1.375
Oiler power shovels or cranes	1.60
Truck driver (less than 4 cubic yards water level capacity)	1.2825
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $1.50 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above, shall be not less than $1.25 per hour.

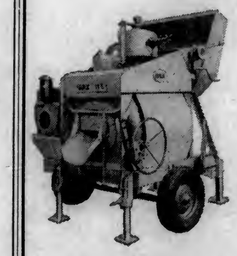
The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, article (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.



Plans may be seen ,and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

Santa Cruz County

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock P. M., on June 11, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the specifications therefor, to which special reference is made as follows:

Santa Cruz County, on Green Valley Road, between Freedom and Heihan Road (IV-SCr-1146), about five tenths (0.5) mile in length, to be graded and surfaced with plant-mixed surfacing on crusher run base and a reinforced concrete bridge to be constructed.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate Per Hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity)	1.90
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Pile driver man	1.86
Reinforcing steel worker	1.75
Roller operator	1.95
Tractor driver	1.95
Truck driver (18 cubic yards water level capacity or more)	1.7125
Truck driver (14 cubic yards and less than 18 cubic yards water level capacity)	1.5875
Truck driver (8 cubic yards and less than 14 cubic yards water level capacity)	1.525
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Truck driver (4 cubic yards and less than 8 cubic yards water level capacity)	1.3375
Truck driver (less than 4 cubic yards water level capacity)	1.25
Unskilled Labor	
Flagman	1.15
Laborer	1.15

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.15 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.15 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays—one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

State Engineer's Estimate
Item 1. 160 cubic yards removing concrete
Item 2. 100 Cubic yards channel excavation.
Item 3. 400 Cubic yards structure excavation.
Item 4. 495 Cubic yards Class "A" Portland cement concrete.
Item 5. 455 Lineal feet concrete railing.
Item 6. 2,750 Pounds miscellaneous iron and steel.
Item 7. 2,650 Lineal feet furnishing steel piling.
Item 8. 53 Each, driving steel piles.
Item 9. 7 Each, steel pile splices.
Item 10. 120 Cubic yards riprap (broken concrete).
Item 11. 100,400 Pounds furnishing bar reinforcing steel.
Item 12. 100,400 Pounds placing bar reinforcing steel.
Item 13. Jacking operations.
Item 14. Miscellaneous items of work.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids, and the Department of Public Works does not, expressly or by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of the work or to omit portions of the work as may be deemed necessary or expedient by the Engineer.

All bids will be compared on the basis of the State Engineer's estimate of the quantities of work to be done.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Carpenter	$1.75
Cement finisher	1.575
Concreto mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Derrick operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including 1 cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over 1 cubic yard)	2.25
Painter (brush)	1.375
Painter (spray)	1.66
Pile driver man	1.86
Reinforcing steel worker	1.75
Structural steel worker	2.00

"When We're Working in Close Quarters
We **TRAXCAVATE"**
says Mr. J. E. Nelson of the firm of Johnson & Nelson, Marin County Contractors. "Our IT4 TRAXCAVATOR is the ONLY RIG for close-in work around foundations and concrete forms, and that's only one of the many jobs it does for us. It's one machine that keeps busy."

TRAXCAVATE for PROFIT
All over the country contractors are calling the Traxcavator "the busiest machine on the job," and here's why: They use it for land-clearing and for leveling; they use it for excavating and for truck loading; they use it for backfilling and for cleanup work. From the time the job is started 'til the earthwork is completed the Traxcavator is busy. That spells *profit* for the contractor because the profitable machine is the one that keeps busy. That's why we say

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Asphalt plant dryerman or fireman	$1.60
Asphalt plant mixer operator	1.65
Asphalt spreading machine operator	1.95
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Concrete vibrator operator	1.375
Flagman	1.15
Jackhammer operator	1.375
Laborer	1.15
Motor grader operator	2.10
Oil distributor bootman	1.275
Oiler power shovels or cranes	1.50
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.10
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.25
Reinforcing steel worker	1.75
Roller operator	1.95
Structural steel worker	2.00
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or more)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.60
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cu. yds. water level capacity)	1.2825
Any classification omitted herein not less than	1.15
Overtime—one and one - half (1½) times the above rates.	

Sundays and holidays—one and one-half (1½) times the above rates.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the District in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions).

Electrician 2.00
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard) 2.25
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard) 2.35
Painter (brush) 1.75
Painter (spray) 1.75
File driver man 1.85
Reinforcing steel worker 1.75
Structural steel worker 2.00
Tractor driver 1.95
Truck driver (8 cubic yards water level capacity or more) 1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity) 1.50

Intermediate Grade Labor

Concrete vibrator operator 1.375
Oiler power shovels or cranes 1.60
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity) 1.4075
Truck driver (less than 4 cubic yards water level capacity) 1.2825

Unskilled Labor

Flagman 1.25
Laborer 1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer, and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

Highway Improvements
San Mateo Co. on Canada Road

STATE OF CALIFORNIA
DEPARTMENT of PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 373, Public Works Building, Sacramento, California, until 2 o'clock p. m., on June 18, 1947, at which time they will be publicly opened and read in the Assembly Room of said building, for constructing Highway in accordance with the Specifications therefor, to which special reference is made as follows:
San Mateo County, on Canada Road, between 2.5 miles north of Woodside and Ralston Avenue (IV-S.M-1048), about four and seven-tenths (4.7) miles in length, to be graded and surfaced with crusher run base and armor coat applied thereto.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Classification	Rate per hour
Skilled Labor	
Asphalt plant dryerman or fireman	$1.60
Carpenter	1.75
Cement finisher	1.875
Concrete mixer operator (one cubic yard capacity or less)..	1.60
Concrete mixer operator (over one cubic yard capacity and paving type)	1.90
Motor grader operator	2.10
Operator of power shovel or other excavating equipment, shovel type controls (up to and including one cubic yard)	2.25
Operator of power shovel or other excavating equipment, shovel type controls (over one cubic yard)	2.35
Painter (brush)	1.75
Painter (spray)	1.75
File driver man	1.85
Reinforcing steel worker	1.75
Structural steel worker	2.00
Tractor driver	1.95
Truck driver (8 cubic yards water level capacity or more)	1.875
Truck driver (6 cubic yards and less than 8 cubic yards water level capacity)	1.50
Intermediate Grade Labor	
Concrete vibrator operator	1.375
Jackhammer operator	1.375
Oiler power shovels or cranes	1.60
Truck driver (4 cubic yards and less than 6 cubic yards water level capacity)	1.4075
Truck driver (less than 4 cubic yards water level capacity)	1.2625
Unskilled Labor	
Flagman	1.25
Laborer	1.25

Positions not listed above will be allocated in accordance with the definitions which appear in the special provisions, as interpreted in the light of this classification.

The minimum wage paid to all skilled labor for which rates are not shown above shall be not less than $1.375 per hour.

The minimum wage paid to all intermediate labor for which rates are not shown above shall be not less than $1.25 per hour.

The minimum wage paid to all unskilled labor for which rates are not shown above shall be not less than $1.25 per hour.

Overtime—one and one-half (1½) times the above rates.

Sundays and holidays — one and one-half (1½) times the above rates.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; and also to the provisions of Section 8, articles (a) and (b), of the Standard Specifications, regarding subcontracting and assignment of the contract, respectively.

Plans may be seen, and forms of proposal, bonds, contract, and specifications may be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California, and they may be seen at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, at the office of the Associated General Contractors in San Francisco, and at the office of the County Engineer or County Surveyor at the county seat of the county in which the work is to be performed.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

PLANS and Speculations

The senate over the weekend passed a bill authorizing San Francisco to purchase a new site for the Farmers' Free Market by instituting eminment domain proceedings. It will be returned to the assembly for approval of minor amendments.

oOo

Inspection of the Monticello dam site on Putah Creek has started as initial step in the rec bureau's report on the Yolo-Solano water conservation project.

oOo

Over the weekend Assemblymen Butters, Brawley and Erwin were scheduled to ask a $3 million appropriation for capital outlays of the state fish and game commission.

oOo

Bakersfield supervisors have authorized purchase of the site of Wasco Airport from Kern County for $12,000.

oOo

In **Bakersfield**, Robert Graham has been named resident engineer for the new Stockdale Bridge. It's cost is estimated at $88,700, and completion is to be in about six months.

oOo

The **San Francisco** supervisors' judiciary committee is paving the way for a $10 million bond issue for urban redevelopment.

oOo

The California assembly voted 41 to 22 to designate as a primary state highway a trans-state route leading from the Las Vegas, Nev., area 300 miles west to **San Luis Obispo.**

oOo

City councils of **Tulare, Porterville, Visalia, Delano, Hinuba** and other San Joaquin Valley cities will make a study of data obtained in a survey of parking meter installations in various California cities.

oOo

The war assets administration will dispose of a $21 million oil refinery operated by Standard of California at **Richmond** by sealed bid by June 20, as well as a $5.8 million magnesium factory formerly operated by Permanente Metals at **Manteca.**

#

Bill 906 Applies Only To Few Sub-Trades; 1930 Held Up Week

SACRAMENTO.—A bill to allow cities and counties to require certain kinds of contractors to pass an examination before being granted a license was on the assembly floor Thursday after receiving committee approval.

The measure, S. B. 906, authored by Senator Harold J. Powers (r., Eagleville), was amended before being given a 6-2 approving vote by the municipal and county government committee.

It probably will come up for floor debate early next week.

In its original form the bill would have required all kinds of contractors to submit to the local regulations. Amendments adopted by the committee limit the restrictions to electrical, plumbing, refrigeration and elevator contractors.

However, representatives of the Associated General Contractors said they will continue to oppose the bill.

Meanwhile, action on A. B. 1930, a bill by Assemblyman Ernest Debs of Los Angeles to set up a state board of civil and professional engineering for the regulation of all engineers in the state, was delayed for one week by the assembly committee on governmental efficiency and economy.

Deletion of Kersten Amendment Probable, Representative Says

WASHINGTON. — There was more news for construction men to cheer about coming down from Capitol Hill today. A top conferee on the labor bill said he now is convinced the Kersten amendment will not stay in when the bill is given final congressional consideration.

The Kersten amendment was described by the construction industry last week as the most harrassing portion of the labor legislation as far as employing contractors are concerned.

Apprenticeship Threat

The house conferee, whose name cannot be used, said he understood the senate was determined not to let the amendment go through.

This is particularly cheering news to sub-contractors who have been worried about the effects such provisions would have on their bargaining activities.

Only two phases of the bill remain to worry the sub-trades if the Kersten proposal is wiped out. These are:

1—the closed shop ban, and

2—the wording on apprentices.

The National Electrical Contractors Association holds that the closed shop provision threatens to destroy the work of many years that has gone into building up good will between employer and employee. The closed shop now acts as an assurance that employers will not fight the union, NECA said. The removal of this assurance to labor will create confusion in the industry and reduce the productivity of labor, the contractors hold.

The bill's wording on apprentice membership is one of the more confusing portions of the measure. Various interpretations have been placed upon these passages. Some say apprentices can pay dues to a union but not hold membership therein; others say payment of dues does constitute membership for the apprentices and none seems to be able to understand whether or not this or that constitutes an unfair labor practice.

One interpretation in high business circles is this:

May Cause Friction

If the stipulation is permitted to pass as now included in the labor bill, the union no longer will have control over the apprentice; this authority will pass to the employer. This might cause the union to "go underground" with activities in connection with its apprenticeship programs. This probably would not be healthy for industry or labor because of the necessity of maintaining a delicate balance in the number of apprentices, journeymen and contractors.

The sub-contractors do not like to see an overabundance of apprentices at any time. This, they feel, has a tendency to force many more journeymen to pull out of the so-called labor ranks and become contractors themselves. Thus, the employer field could easily be overcrowded if the balance once is upset.

Greatly Revised

Here are the mechanics on the labor bill before it went to conference: When the house-passed measure went over to the senate, virtually all the original bill was stricken out as the final draft was prepared for conference. The 150-page report, as it stood when the legislation went to the conferees, shows practically the entire house bill stricken and the senate version substituted. This alone would indicate the size of the job facing the conference members.

It is doubtful a finished conference report can be turned out before the middle of next month, some insiders are saying.

GROOVER AND I

STRANGE BEDFELLOWS

With all due despect to the high office he occupies by accident of death, Harry S. Truman is a political enigma.

☆ ☆ ☆

His journeyman political training was with, in and under as corrupt a crowd as ever gained admission to a penitentiary - - yet Harry Truman came through with his integrity and sense of truth untouched. It doesn't add up, but it is so.

☆ ☆ ☆

(Several score of those political high binders have received Presidential pardons from Messrs. Roosevelt and Truman, yet today others are looking at the "enter here" sign over the gate of the Big House.)

☆ ☆ ☆

In the last election Truman interested himself in a congressional candidate from Kansas City. His jockey won the primary only to be taken by a republican in the finals.

☆ ☆ ☆

The Justice Department, FBI and Grand Jury have just gotten around to investigating that election and word was passed that indictments were being written, naming another group of prospective "Federal Guests".

☆ ☆ ☆

Before anything else could happen some enterprising persons cracked the vaults in the courthouse, stealing the ballot boxes and records.

☆ ☆ ☆

That is practical politics—if you steal an election, make it good by also stealing the records.

OHE WAR SURPLUS CERTIFICATES VALID UNTIL JUNE 30TH

WASHINGTON.—Housing Expediter certificates for surplus material and equipment which would expire between May 1 and June 30, inclusive, are automatically extended through June 30, the office of the housing expediter announced today.

The certificates, issued to qualified persons seeking surplus equipment or materials from war assets administration for use in the housing program, have been valid for 60 days, or could be renewed for 60 additional days.

#

ARCHITECTURAL CLUB TO HEAR F. T. KEBELY

Ferdinand T. Kebely, widely-known industrial designer and plastics engineer, will address the Architectural Club at its meeting in the Builders' Exchange on Wednesday, June 4.

Speaking on "Plastics", he will stress possible uses of plastics materials by architects and will show samples of work he has done.

#

CONTINUES RESEARCH

WASHINGTON.—The office of technical services of the Department of Commerce today told the Dodge newspapers that it considered "very remote" any possibility that outstanding contracts on which work already has started will have to be cancelled because of no funds.

#

BIG TIMBER LOSS

CHICAGO.—Enough timber for 200,000 five-room houses was destroyed by fire last year, Alvin Dodd, president of the American Management Association, told the fifty-first annual meeting of the National Fire Protection Association.

'Industry Can Build $6,000-$7,000 Home by Spring; Return to Prewar Cost Impossible'

WASHINGTON.—Edward W. Carr, president of the National Association of Home Builders, predicted before a press conference here this week that the price of new homes never will return to pre-war levels.

In answer to a question on home costs, Carr said the industry should be able to build a $6,000 to $7,000 home by next spring, even if costs stay as high as they are today. A steadier flow of materials and use of new materials plus mass production would enable the builders to do this, he said.

Such homes still would be double the 1942 cost, he said. The price of homes always will remain higher than these price standards of pre-war time, he maintained.

Carr based his statements on the belief that the materials situation will remain every bit as good as it is now or improve by next spring. "We can produce the $6,000 to $7,000 houses if we get a steady flow of materials," he added, "and it looks like we will get it."

Buyers' Strike Unlikely

Then he explained that among the factors holding housing costs sky high since the war have been scarcities in the metal lines. "Some of these items we need they haven't even been manufacturing. This includes one type of low cost furnace. Another example of the interrupted flow of materials is plywood. All of that has been going to prefabrication."

These factors have kept contractors—thousands of them—from starting houses. But the home builders see encouragement in these conditions:

1—Brick and lumber inventories are piling up. Finally, some buyer resistance now is possible on the builders' part.

2—Firm prices are being listed.

3—Escalator clauses are disappearing.

4—There is competition once again in a limited number of steel items.

5—Last week, for the first time, the BLS cost index on building materials dropped from its high peak.

6—The two-year peace with labor in the steel industry is the most encouraging indicator in the whole supply picture.

The NAHB president minimized the effect on cost that might result from a shortening of the completion time for homes. Some economics will result, he said, but it must be remembered that building materials constitute 45 per cent of home construction costs and any savings in material prices, while it helps, cannot result in a 20 per cent reduction in final price as some economists predict.

Carr said he believed that a shortened completion time would not lower the end cost of a $10,000 home more than $75 to $100.

In the opinion of the home builders, the talk of a nationwide buyers' strike on new housing has been grossly exaggerated. Except for a situation in Long Island, N. Y., which actually deserves the use of these terms, there is no buyers' strike anywhere in the nation, the industry men maintain.

The slowdown in suburban New York they attribute to a Veterans' Administration warning that buyers wait until prices descend. Frank W. Cortright, executive vice president of NAHB, said that 103 American cities were canvassed on buyer resistance and only Long Island showed indications of a real buyers' strike.

'A Spoils Sales'

While starts are not as high as earlier predictions, Cortright feels the industry has done well in the face of shortage handicaps. He pointed to BLS estimates that starts are running between 50,000 and 60,000 units a month with completions set at 62,000 for each of the two months, May and April. The annual figure of 720,000 units permitted by this pace would be far short of the more optimistic

(Continued on Page 7)

Electrical Contractors Flatly Oppose Labor Law As 'Interfering'

WASHINGTON—Speaking over a nationwide radio network, Robt. W. McChesney, president of the National Electrical Contractors Association, this week stated plainly the sub-contractors' position on pending labor legislation. The gist of his brief remarks can be summed up in one phrase—they don't like it.

After reviewing the unruffled and serene experiences that NECA has had with union workers for nearly fifty years, McChesney, who in private life heads Harry Alexander, Inc., New York City, said:

"Where for the past 27 years the Council (on Industrial Relations for the Electrical Contracting Industry) procedure has been followed, there has not been a strike or work disruption and its existence has made for a condition in the industry that has prevented any major or industrywide disruption.

In other words, we have lived in peace and developed and prospered. The high state of modern electrical installation development attests to the public benefit of this fortunate evolution. . . .

Protests Interference

"You cannot expect to have a responsible union unless you give it the means of achieving responsibility. That is, the union must have a measure of security. The closed shop contract in effect between labor and management in our industry assures the union of security and gives it a guarantee that the employer is not interested in fighting the union. Thus the union can concentrate on helping improve production—the only road to greater benefits for labor, management and the public, alike.

"We therefore, protest and oppose any attempt at government interference with the right to deal intelligently and cooperatively with workers and their unions that have demonstrated down through the years a praiseworthy sense of responsibility, foresight in the public interest, high standards of workmanship and an overall basic fairness in their relations with us. If labor legislation is needed, it certainly is not in the direction of upsetting stability achieved by citizens who by careful thought, hard work and heroic persistence carved out a workable industrial relationship without the help of, and indeed, sometimes in spite of governmental interference.

"As employers we feel, too, that

DEMONSTRATIONS OF TOOLS, APPARATUS FEATURED BY SEA

Demonstrations of new tools and apparatus will be featured when the Structural Engineers' Association of Northern California holds its monthly dinner meeting Tuesday at the Engineers' Club.

Tools to be shown include the Tempotool, which shoots stud bolts into concrete, stone, or metal; the Powder Power Tool, also used for shooting in connections; the Cherry Self-spanding Rivets, which require no buckerup; and Nelson Stud Welding apparatus.

Several committees will deliver their reports.

ANNOUNCING THE NEW TREATED
C. P. FORM CLAMP

After years of extended research the C. P. Concrete Equipment Company have developed a treatment which has been applied to the C. P. Form Clamp Assembly, which provides the following advantages:
1—Will not rust.
2—Concrete will not adhere.
3—Easily removed from concrete.
4—No clean-up expense.
Immediate Delivery Available out of Oakland and Los Angeles stock

(Continued from Page One)

predictions that came from government sources back in the days of Wilson W. Wyatt, and since, but the home builders are fatisfied they are doing the best they can.

Housing Expediter Creedon told NAHB officials last week that in any event there would not be enough metal items for construction of more than 800,000 housing units in 1947. Metal now stands as the surcest of all products contributing to home completion.

The alleged slowing down in onsite labor is worrying the contractors. "Most of our trouble," said Carr, "is coming from areas with the tight closed shop." He would not name specific trades that the NAHB feels guilty of restrictive practices but he said the association could document innumerable individual cases.

One of the association's most nettling problems is with VA's system of appraising houses for sale to GIs.

Cortright explained that VA's use of professional appraisers instead of federal housing administration appraisers has stopped many a sale for the builders.

Yet Sales Vital

These VA appraisers do a good job of estimating on their own familiar properties, Cortright admitted, but are so often a good deal lower than FHA estimators who are more familiar with builders' costs that the sales are stopped. It is not unusual, he said, to find the two as much as $1,000 apart.

FHA has been evaluating homes for 14 years. What's more, the agency has its own breakdown sheet by which it follows cost advances by materials, trades and work. Among 50,000 properties surveyed by NAHB, 50 per cent of the returns stated that VA appraisers underestimated the FHA appraisers, spoiling sales.

The builders' most serious current problem on this subject lies in the fact that FHA gets a ceiling on home cost, revises the figure upward where circumstances warrant. But the builder must sell on the basis of a VA appraisal which often does not take the revised cost sheet into account. "If we can't sell to veterans, we are bad off", Cortright said.

Stop With Dealers

The president, Carr, told reporters he had never been approached by the executive branch on the problem of high costs in home construction. There have been informal talks with Creedon, he revealed, but from the facts at hand it would appear the campaign of the White House, announced as seeking out the construction industry in an effort to bring costs and prices down, has not gone beyond the materials dealer and manufacturers. At least, this is true as far as the President and his economic advisors are concerned.

Oppose Labor Bill

(Continued from Page One)

legislation outlawing the closed shop impairs the employers' right of contract. If an employer prefers to deal only with a group of men who have sold him their worth and respect, should he not be permitted to do so? To ban the closed shop is merely to restrict further the employers' right to bargain and to contract with persons of his own choice.

"A law banning the closed shop in our industry might have just the opposite of the effect desired by the sponsors of anti-closed shop legislation in the congress. Such bills, if enacted into law, might well create chaos in industrial relations."

Official Washington had an opportunity to see the NECA Council on Industrial Relations at work in a practical way this week. Three days of open meetings at a local hotel laid bare the functions of this board which many feel to be an ideal approach to labor-management differences.

Verdict in 24 Hours

The members of the council are former union business managers or contractors. As men with fundamental experience in their respective fields they understand the problems that come before them. Membership on the Council is evenly divided with unanimous concurrence given in settlement of each case.

Grievances are submitted to the Council many weeks in advance of the quarterly hearings. Location for the sessions is determined by the number of complaints from certain sections of the country. The Council always meets where the preponderance of controversy lies. Judgment of its members is not based on the written evidence alone. Representatives of both sides are heard at the open meetings. Within 24 hours of this presentation, a verdict is rendered. Parties have a limited time in which they must show good faith in abiding by the decision. If they refuse, in the cases of the unions chartered are revoked. Wages, working conditions and most general labor problems except jurisdictional disputes, come before the Council.

Stress Cooperation

This system described as "voluntary arbitration arrived at by collective bargaining" by those who advocate its widespread adoption as a suitable solution to much of the nation's labor strife; democracy for industry and labor.

Official Proposal

NOTICE TO CONTRACTORS

Subject to conditions prescribed by the undersigned, sealed bids are invited for the construction of approximately 1,950 feet of underground electric ducts and manholes in the vicinity of Agricultural Hall on the Berkeley campus of the University of California. Bids will be received until 2:00 P. M., June 10, 1947. Plans, specifications and information will be available at the cashier's office, 103 Administration Building, University of California, Berkeley, California. A deposit of ten ($10.00) dollars is required for each set of plans and specifications issued. Right to reject any and all bids is reserved.

Acre Limitation Issue Draws Fire From Congressmen

WASHINGTON, May 31.—As a senate appropriations subcommittee continued hearings on the Interior Department budget bill here this week, Senator George W. Malone of Nevada objected to the reclamation bureau plan to buy up 85 defense homes at Boulder City, Nev. for employes at the Hoover dam.

Defending the tenants, Senator Malone said the people living in those houses want to and should be allowed to buy those homes.

In answer to a similar objection from Senator Pat McCarran of Nevada, Assistant Reclamation Commissioner Kenneth Markwell earlier testified that $340,000 from 1947 Hoover Dam carry-over funds was re-programmed to purchase the houses for employes now living in other towns. Senator Malone insisted the bureau should come to congress for the funds with which to build homes for these workers instead of juggling its own books to get the necessary funds from other sources.

Representative Thor C. Tolefson of Washington added his voice to the growing demand for restoration of funds for western reclamation projects. He made particular reference to grand Coulee and Bonneville projects.

Still other senators and congressmen appeared as the subcommittee finally wound up over 3,000 pages of testimony on the Interior Department appropriations which the house cut by as much as 45 per cent.

Meanwhile, Boyd Stewart, a Marin county (Calif.) rancher, told congressmen that large California land holdings would decrease in value by about 50 per cent if the 160-acre limit remained in the Interior bill, forcing minute division of central valley land.

A California official of the Agriculture Department's production and marketing administration, Stewart made his statement at resumption of hearings on the bill to govern acreage size on CVP, the San Luis project in Colorado and the Valley Gravity project in Texas. He said the limit would force an unnatural pattern of land development on the CVP, denying that revocation of the limit on CVP would boost land costs there. He added that there is an "economic ceiling" on land values.

Acting Chairman Zales N. Ecton of Montana agreed with Stewart in the matter of land values, but said, "I still can't see how that justifies us making an exception on CVP giving reclamation benefits from the public treasury to excess landholders."

Stewart answered with the explanation the exception could be justified on the ground of general public good in view of taxes and wages paid by large landholders.

WAA Paint Stocks Offered for Sale

WASHINGTON.—Seven to eight million dollars' worth of surplus, government - owned paints, clear and pigmented lacquers, enamels, aircraft dopes and related products are being offered for sale by war assets administration at low fixed prices. These products generally are best suited for use as production or maintenance finishes in the industrial field.

A wide range of colors is available mostly in the earth, sea and sky colors used by the military, in gloss, semi-gloss and lustreless finishes. These paint products are generally packaged in large size containers—55 gallon drums and five-gallon containers.

These products are available in all WAA regional offices.

GROOVER AND I

THE LABOR BILL?

The past two years have added pounds until President Truman is now watching his diet. If the seat of Mr. President's pants is larger it means he can sit on a greater number of hot spots at the same time.

☆ ☆ ☆

The hottest spot for some time will be the Labor Bill. Washington "guessers" are making their predictions, and at the same time leaving themselves a carefully-worded safety exit.

☆ ☆ ☆

I have no crystal ball nor can I read the stars. I merely listen to the words, and then watch the action, of "The Boys in the Back Room". It is my considered opinion:

☆ ☆ ☆

The joint Senate - House Labor Bill will become law!

☆ ☆ ☆

Now, as I am in the air, I am going to play that bet across-the-board. This is doing it the hard way:

☆ ☆ ☆

1. Congress will pass the joint Senate-House Labor Bill.

☆ ☆ ☆

2. President Truman will VETO the Labor Bill.

☆ ☆ ☆

3. Congress will override the Presidential veto.

☆ ☆ ☆

If I have guessed wrong, please forward all first-class mail to Zamboanga—

Architects, Home Builders to Seek Cost Reductions

WASHINGTON.—The American Institute of Architects and the National Association of Home Builders are to collaborate in a joint program designed to improve the quality of low cost homes and to find ways to reduce building costs, Douglas W. Orr, president of the Institute, announced Monday.

Housing Big Factor

"The joint committee composed of architects and home builders has been appointed to prepare a suggested program," Orr said. "With small house construction so badly needed and accounting for a major portion of the total building in the country, this collaboration should not only be very successful in speeding up the construction of small houses but could have a very beneficial effect upon the character of the structures.

"We believe that the small house field offers both an opportunity and a challenge to the architectural profession. In the past a large proportion of our small homes have been built without the services of a trained architect, with a resulting impairment of aesthetic and economic values which is quite apparent in many medium and low-cost residential areas.

"Housing is a far greater factor in determining the appearance of a community than the many fewer larger buildings, no matter how much architectural study is devoted to the latter.

Hold Joint Meetings

"The collaboration between the Institute and the National Association of Home Builders will include joint meetings

Northern Counties To Pay 15c An Hour More to Four Crafts

With signing of a contract with operating engineers late Monday afternoon, four heavy construction crafts have accepted a fifteen cent across-the-board hourly wage increase, William Coughlin, labor representative of the Northern California chapter of Associated General Contractors, announced today.

Agreements covering the forty-six northern California counties have been negotiated with the cement finishers, operating engineers and laborers. The laborers' contract is subject to ratification by Washington headquarters.

Teamsters of Alameda, Contra Costa, San Francisco and San Mateo counties have agreed to the 15c hourly pay boost, but a few minor issues remain to be settled.

Negotiations are still being held between the industry and the carpenters, with the next meeting scheduled for Thursday. The carpenters are holding out for a 25c hourly wage increase.

#

Scrapping Permits Puts Building On The 'Honor System'

WASHINGTON.—Doing away with the federal housing administration permit system on new homes will not reduce the effectiveness of the 2,000 square foot limitation on new housing, a spokesman for the housing expediter said today.

Compliance on Job

"We do not feel," this OHE official said, "that removal of the permit regulation will cause the 2,000 square foot maximum regulation to be any less effective. Our compliance people will still be on the job and the checking of reported violations will continue. I believe we still will learn of all glaring violations. It is doubtful many contractors will start 20-room homes without our learning about it."

This explanation was given in answer to an inquiry concerning OHE ability to follow the home building of the nation without the permit system as a check. It was said that the permits have not comprised the principal source of information on th home size anyway; that compliance people have operated mainly on the "spot check" basis and through response to compaints about constructors starting over-size houses.

In no event, however, has OHE interpretation of this rule been too strict. It is understood that only the outstandingly obvious infringements have resulted in stop orders against home builders.

Use 'Honor System'

In effect, yesterday's announcement merely sets aside a paper procedure which enabled FHA offices to fill their files with paper work which was not too frequently consulted.

Lifting the lid off the permit system continues still further the tendency to place the construction industry on a voluntary basis with regard to carrying out the intentions contained in the veterans' emergency housing program.

#

NECA EXECUTIVES TO HOLD CHICAGO MEET

WASHINGTON.—A one - week institute aimed at advancing the knowledge of all chapter managers of the National Electrical Contractors Association is being planned in Chicago starting June 9.

Purpose of the meetings is to inform all chapter managers concerning organization policy, administration of their offices in relation to national events. This is the first meeting of its kind to be fostered by NECA.

State Discriminated Against in Hospital Construction—CVB

The California veterans board today charged that the Veterans Administration is ignoring the huge influx of veterans to California in allocating funds for construction of new veterans hospitals and other purposes.

Branch 12 of the Veterans Administration, with headquarters in San Francisco, has estimated the present World War II veteran population in California at 1,170,000, compared with about 750,000 who entered the service from this state.

The Washington headquarters of the federal agency, however, according to a recent press release, has scaled down the estimate prepared by its San Francisco branch to 890,000.

This reduction is particularly serious, the state board commented in a resolution, "in view of the fact that budget estimates of the Veterans Administration for hospital construction and administrative costs are based on the estimated veteran population of the various states."

Members of the board explained a similar situation occurred following World War I, in that allocations were made to California for many years on the basis of 100,000 men who entered the service, while by the early 1930's there were more than 400,000 World War I veterans living in the state.

The resolution, directed to General Omar N. Bradley, administrator of veterans affairs and to members of the California congressionaly delegation, asked that steps be taken to "establish the true veteran population of California as the basis of allocating construction and administrative funds so that California will not be discriminated against because of the influx of veterans to this state."

Membership of the California veterans board, policy making agency for the administration of state veterans benefits, is as follows:

Louis H. Burke, Montebello, chairman; D. J. Callaghan, Jr., San Francisco; Laurence W. Carr, Redding; Austin M. Healey, Fresno; Ernest R. Orfila, Los Angeles; Edward M. Seacord, San Jose; Orien W. Todd, Jr., San Diego.

FIRE PROTECTION ABSENT IN HOMES CONSTRUCTION—TCA

NEW YORK—Lack of adequate fire protection in many new homes is a dangerous by-product of the rush to ease the housing shortage, according to a report issued by the Tile Council of America.

In the headlong race to provide low-cost dwellings and convert others for rental housing some builders are paying too little attention to fire safeguards, the report pointed out. Although safety engineering dictates against it, some home builders are even specifying combustible wall finishes for installation in kitchens, thus multiplying fire risks in what usually is considered the most hazardous room in the house, the report stated.

#

AFTER-DARK TRAFFIC FATALITIES GREATER

CLEVELAND. — The chances that a traffic accident will be fatal are 40 per cent greater after dark than in daylight, according to analysis of 261,204 accidents just completed by the Street and Traffic Safety Lighting Bureau's office of informational services.

The study, which emphasizes the need of adequate light for traffic safety, covers all accidents, both urban and rural, occurring in 14 states during a 12-month period.

Prominent Engineer Dies In Sleep; Was Active Civic Leader

Funeral services for L. H. Nishkian, widely known San Francisco structural engineer, will be held at 3 p. m., Wednesday, from the chapel of N. Gray & Sons, 1545 Divisadero. He died in his sleep early Monday morning.

Born in Constantinople on Mar. 28, 1882, he immigrated to California at six years of age. He was graduated from the University of California in 1906.

The engineer was active in civic affairs, and authored the Nishkian or Bay Land Crossing plan for a second San Francisco Bay span. He did the structural designing of the Western Furniture Mart, both

L. H. NISHKIAN

original and present phases, the Fox and Warfield Theatres, and the main office of the Bank of America at California and Montgomery, as well as many branches throughout the state.

His field was wide, and it was Nishkian who designed the recently built new dock at Bethlehem shipyards, the Permanente Cement Company's plant and docks, piers, office buildings, warehouses, etc., at the Kaiser shipyards.

Surviving are his widow, Mrs. Elsie S. Nishkian, 65 St. Germain, and a son, Byron L. Nishkian, 143 Stratford Drive.

#

JUNE RENTS REFLECT IMPROVEMENTS COSTS

Higher rentals to reflect increases in construction costs will be allowed after June 1 in all rents established by area rent directors in cases involving major capital improvements to existing dwelling accommodations or the creation of new dwelling units by conversion of existing structures, the office of rent control of the housing expediter's office announced today.

The allowance will be $5 a month for each $1,000 spent. The present allowance is $4 a month.

#

RENTALS SKID

WASHINGTON. — The number of homes for sale completed this year probably will equal the goal set at the beginning of the year, but the number of new rental units will fall well below, Douglas Whitlock, chairman of the Building Products Institute, predicted Monday.

OHE PERMITS GRANTED

SAN FRANCISCO—The Office of Housing Expediter, division of nonresidential construction, 1375 Market St., has announced the following permits granted for construction of commercial and industrial buildings in the San Francisco area:

MAY 29, 1947 (Partial)

FIELD HOUSES, $42,000; High School Concord; owner, Mt. Diablo Union High School, Concord.

PRINTING shop, $15,000; 1217 M St., Fresno; owner, Williams and Son, premises.

EMPLOYMENT bldg, Calif Dept of, $20,000; 1130 Clay St., Napa; owner, G C Schnabel, 543 Franklin St., Napa.

ADDN to school, cafeteria, $70,000; Rio Linda; owner, Rio Linda Union School Dist., Rio Linda.

ADDN classrooms, $30,000; Royal & Sunset, San Lorenzo; owner, San Lorenzo School District, Box 4, San Lorenzo.

REPAIR, restaurant, $7000; 60 6th St., San Francisco; owner, James Rodea, premises.

REPAIR fire loss, church, $52,000; 130 N Gale Hill, Lindsay; owner, First Methodist Church, premises.

AUTOMOBILE parts sales bldg., $92-500; 5050 Mission St., San Francisco owner, Cresta Bros, 5098 Mission St., San Francisco.

ALTER duplex and furniture store, $2000; 3257 Folsom, Sacramento; owner, Arthur F Randall, prem.

LABOR TEMPLE, $591,000; 2111 Webster St., Oakland; owner, Labor Temple Assn. of Alameda Co. premises.

SERVICE Station and cafe, $14,000; E 11th and MacArthur, Tracy; owner, Christ Farakes, 400 W 10th, Tracy.

FHA PERMITS ISSUED

SAN FRANCISCO, Calif.—Federal Housing Administration, D. C. McGinness, district director, 815 Montgomery St., San Francisco, Calif., has announced the following list of permits granted by the above office for the construction of dwelling or rental units (other than for owner-occupancy) in the San Francisco area for applicants as noted:

4 UNITS—Oakland; Klein & Gandle, 2501 Grand Ave, Oakland.

8 UNITS—Los Gatos; Thomas L Mitchell & Co, 97 E Santa Clara St, San Jose.

1 UNIT—Richmond; Robert R Lucas, 422 Taylor Ave, Alameda.

1 UNIT—Santa Cruz; W B Sampson, Route 3, Box 4310, Santa Cruz.

1 UNIT—San Francisco; George I Adams, 2546 27th Ave, San Francisco.

20 UNITS—Visalia; Southwest Development Corp, Box 349, North Hollywood.

1 UNIT—Alameda; William J Gould Sr, Box 62, Newark.

4 UNITS—Salinas; Joseph H McPherson, 913 E St, Salinas.

14 UNITS—Menlo Park; Cecil L Smith, 420 Chestnut St, San Carlos.

4 UNITS—San Francisco; J H Caruso, 3220 Folsom St, San Francisco.

6 UNITS—Fresno; Henry Haas, 743 S St, Fresno 1.

7 UNITS—Orange Cove; F E Greer, Orange Cove.

1 UNIT—Sacramento; Thos A Scott, 1910 28th St, Sacramento.

1 UNIT—Monterey; E M Yantis, 120 Fountain Ave, Pacific Grove.

1 UNIT—North Palo Alto; John W Fyfman, 991 Willow Rd, Palo Alto.

1 UNIT—San Leandro; Ellsworth S Russi, 1200 148th Ave, San Leandro.

2 UNITS—San Mateo; George Trollman, 1120 El Camino Real, Burlingame.

7 UNITS—Eureka; Paul Williamson, 510 G St, Eureka.

3 UNITS—Sacramento; C C Ruby, 3330 Freeport Blvd, Sacramento.

1 UNIT—Patterson; Henry C Vancil, 1031 E Main St, Turlock.

4 UNITS—Menlo Park; Peninsula Pacific Construction Co, Box 1070, Redwood City.

2 UNITS—Richmond; Myers Construction Co, Inc, 2161 Shattuck, Berkeley.

1 UNIT—Santa Cruz; Richard P Freytag, Drawer 1040, Santa Cruz.

3 UNITS—Santa Cruz; A C and Mildred Elder, Box 443, Santa Cruz.

SUB - BIDS WANTED

General contractors desiring sub-bids on any job are invited to make known their requirements in this column. There is no charge for this service

County Jail Addn., Oroville; Bids Due June 6, 2:00 P. M.
H. & R. Constr. Co., 110 Market St., San Francisco (DOuglas 7516)
MacDonald, Young & Nelson, 127 Montgomery St., S. F. (SUtter 8296)
L. G. Shalz, 853 Arbutus, Route 1, Box 142, Chico (Chico 1088 or 1210)
William Horstmeyer Co., 23 Mars St., San Francisco (MArket 7239)

School, Inverness; Bids due June 3, 3:00 P. M
Wm. McIntosh & Son, 740 36th Ave., San Francisco (SKyline 9903)
Litchfield Constr. Co., 721 Francisco Blvd, San Rafael (San Rafael 4107)
J. D. O'Connor Constr. Co., Inc., 391 Sutter St., San Francisco (DO 2905)
Marin Corporation, P. O. Box 417, Sausalito (Sausalito 1360)

Brisbane Elementary School Addn., Brisbane; Bids due June 3, 8 P. M.
Wm. McIntosh & Son, 740 36th Ave., San Francisco (SKyline 9903)
Huber Constr. Co., 5098 Mission St., Daly City (JUniper 1-0417)

Alter Junior High Gymnasium, Petaluma; Due June 9, 8:00 P. M.
Marin Corp., P. O. Box 417, Sausalito (Sausalito 1360)

Repairs and Alter., Administration Bldg. San Francisco Hospital; Due June 11, 2:30 P. M.
Elvin C. Stendell, 2778 Market St., San Francisco (HEmlock 5352)
Wm. McIntosh & Sons, 740 36th Ave., San Francisco (SKyline 9903)

Alter. and Addns. to Mothers' House; Bids due June 10, 2 P. M.
Wm. McIntosh & Sons, 740 36th Ave., San Francisco (SKyline 9903)
Antone Petersen & Sons, 2758 San Bruno Ave., S. F. (DElaware 6121)

Clayton Valley Elementary School, near Concord; Due June 16, 8 P. M.
Wm. Horstmeyer Co., 23 Mars Street, San Francisco (MArket 7239)
Swinerton & Walberg Co., 225 Bush St., San Francisco (GA 2980) and 1723 Webster St., Oakland (HIghgate 4322)

Office and Shop Bldgs. for Pacific Public Service Co., Pittsburg; Bids Due June 16, 5:00 P. M.
Swinerton & Walberg Co., 225 Bush St., San Francisco (GA 2980) and 1723 Webster St., Oakland (HIghgate 4322)

Restoration of Premises, Lands End, S. F.; Bids due June 19, 2 P. M.
Henry Arian Construction, 4142 Geary Blvd., S. F. (BAyview 3170)

Seventh Day Adventist Church, Oakland; Bids due June 9
Willis F. Lynn, 1040 Folger Ave., Berkeley (BErkeley 6044)

PLANS ON FILE

The following list of plans and specifications for construction projects are now available for inspection at the office of DAILY PACIFIC BUILDER, 485 Tenth Street, San Francisco

Work	Location	Bid Opening Date
Conn Creek Pipe Line	Napa	6-16

Building Section

1-8—COMMERCIAL BLDGS.

6/3/47 4
CPA Approval Granted In Amount of $4200.00
Alter Business Office
TULARE, Calif. Tulare Co. —L & Tulare Sts.
Owner—Pac. Tel. & Tel. Co., 140 New Montgomery St., San Francisco, Calif.

6/3/47 7
Plans In Progress—Work to Begin as Soon as Government Restriction and Material Supplies Permit.
Farmers' Market
FRESNO, Calif., Fresno County. 4-acre site bounded by Lulare, Divisadero and U. Sts.
Owner — Fresno Farmers' Market, Inc., William D. Paris, president; J. E. O'Neill, vice-president, State Highway and North St.; G. C. Appleton, secretary - treasurer, 1301 Broadway, and C. O. Kenworth, Elmer L. Lord, Tom Cooper, and Dr. Harry C. Mitchell.
Plans by O. A. Bell, c/o Master Craft Homes, Mason Bldg., Fresno Calif.
Pentagonal-shaped structure in the center housing various shops and the administrative office; inside the structure will be an open court for the display of farm and garden produce; will include dress shop, shoe store, children's wearing apparel store, sporting goods store, barber and beauty shop, photographer's studio, drug store, meat market, bakery and restaurant. The market has been incorporated with a capital of $404,000.

6/3/47 5
Owner Taking Bids—Due June 19, 8 P. M.
Cafeteria Building
PORTERVILLE, Calif., Tulare Co. On the high school site on Olive St.
Owner—The Porterville Union High School District, I. H. Althouse, clerk, High School Bldg., Porterville, Calif.
Architect.—W. D. Coates, 704 Helm Bldg., Fresno, Calif.
Plans and specifications may be obtained from the architect's office upon deposit of $25, refundable.
Each bid must be accompanied by certified check or bidder's bond in amount of at least 10% of bid.

9-10—EDUCATIONAL BUILDINGS

6/3/47 9
Bond Election In Amount of $17,000 Set for June 13
School (Improvements and Additions)
LA GRANGE, Calif., Stanislaus Co.
Owner—La Grande School District, Mrs. Shirley Ingalls, Mrs. Fae Breecia, Mrs. Palma Levaggi, members of governing board, La Grange Schoolhouse, La Grande, Calif.

6/3/47 9
Bonds Approved May 27 in Amount of $150,000
Schools (Additions)
ROSEVILLE, Calif., Placer County. Woodbridge, Vernon and Atlantic Sts. elementary schools.

Even a Child Can Open Them!
STRAND-STEEL OVERHEAD-TYPE GARAGE DOORS

YES, these new Strand-Steel Overhead garage doors are so simple to operate that a mere child can handle them. At a finger's command these modern overhead doors open and rise gracefully and smoothly... lowering with like precision. Although constructed of steel for strength and endurance, Strand-Steel Overhead-Type doors are perfectly balanced to permit easy opening and closing. Ready now for immediate installation, these garage doors are always out of the way, protecting your car from fender knocks so often received from swinging doors. For additional information regarding the Strand-Steel Overhead garage door, call your local P. C. A. office or mail the coupon below.

Official Proposal

NOTICE TO CONTRACTORS

Subject to conditions prescribed by the undersigned, sealed bids are invited for the construction of approximately 1,950 feet of underground electric ducts and manholes in the vicinity of Agricultural Hall on the Berkeley campus of the University of California. Bids will be received until 2:00 P. M., June 10, 1947. Plans, specifications and information will be available at the cashier's office, 103 Administration Building, University of California, Berkeley, California. A deposit of ten ($10.00) dollars is required for each set of plans and specifications issued. Right to reject any and all bids is reserved.

Signed:
THE REGENTS OF THE
UNIVERSITY OF CALIFORNIA
(May 28, 29, June 2, 3, 4, 5, 6, 9, 10, 11, 1947)

LS-383—Welded Steel Water Main

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the East Bay Municipal Utility District, Room 205, 512 Sixteenth Street, Oakland, California, until 5:30 P. M., Wednesday, June 11, 1947, and will at that hour be opened and read, for installing approximately 3250 linear feet of 24-inch welded steel water main and 45 linear feet of 12-inch cast iron pipe together with valves and appurtenances in Webster Street between Pacific Avenue and Tynan Street, in Alameda, Alameda County, California.

The general prevailing rate of per diem wages in the locality in which the work is to be performed, for laborers, and for each craft or type of workman and mechanic needed to execute the contract, and the general prevailing rate for legal holiday and overtime work, specifically set forth in the plans and specifications on file with the Secretary of the District, are referred to and incorporated herein.

Specifications No. LS 383 covering this work, may be obtained at Room 406 of the Office of the District.

DANIEL READ,
Secretary.
Oakland, California.
May 29, 1947.

IV-S.M-104B—On Canada Rd., between 2.5 miles north of Woodside and Ralston Ave.: Plans, $2.31; mass diagram, $0.46; cross-sections, $10.15; total cost plans, mass diagram and cross-sections, $12.92.

IV-Ala-60-Oak — Over Eastshore Freeway at 29th Ave.: Plans, $1.38; total cost plans, $1.38.

V-SBt-22-C—Between Route 2 and San Juan Bautista: no plans available (location sheet in special provisions).

VI-Fre-41-M — Across Helm and Colony canals: Plans, $0.62; total cost plans, $0.62.

IX-Mno-109S—Near Bridgeport on Twin Lakes Rd.: Plans, $2; mass diagram, $0.15; cross-sections, $3.54; total cost plans, mass diagram and cross-sections, $5.69.

X-Sta-13-B — At Wildcat Creek: Plans, $0.62; mass diagram, $0.15; cross-sections, $1.69; total cost plans, mass diagram and cross-sections, $2.46.

VII-LA-161,9-Ada, Mnro,G — Traffic signals: Plans, $1.85; total cost plans, $1.85.

VII-LA-167-Lyn,SGt—Traffic signals: Plans, $1.69; total cost plans, $1.69.

(Prices shown above include sales tax.)

Checks for the above should be made payable to the Department of Public Works, Division of Highways, and should accompany the order to this office.

Requests for the above plans, specifications and proposal form must be addressed to the office of the State Highway Engineer, P. O. Box 1499, Sacramento, Calif.

Blue prints of plans are sold at cost and are not returnable for refund.

A representative will meet prospective bidders on projects for which bids are to be opened in Sacramento on June 18, 1947, as follows:

MENDOCINO COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in Mendocino County (I-Men-56-F), at Kibbesillah Creek on Friday, June 13, 1947, at 10 A. M.

• • •

LASSEN COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in Lassen County (II-Las-29-C), at Baxter Creek bridge on Friday, June 13, 1947, between 1 and 3 P. M.

• • •

TRINITY COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in Trinity County (II-Tri-1089, II-Tri-20-A), at New York Hotel in Weaverville on Thursday, June 12, 1947, between 11 A. M. and 3 P. M.

• • •

NEVADA COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in Nevada County (III-Nev-25-NevC,A), at the Nevada City maintenance station on Tuesday, June 10, 1947, at 10 A. M.

• • •

SAN MATEO COUNTY, Calif.—A representative of the district office and county will meet prospective bidders for the proposed project in San Mateo County (IV-S.M-104B), at the Stone Circle junction of Canada and Whipple Rds., Station 183, on Tuesday, June 10, 1947, at 2 P. M.

• • •

SAN BENITO COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in San Benito County (V-SBt-22-C), at the junction of Routes 2 and 22 on Thursday, June 12, 1947, at 10 A. M.

• • •

MONO COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in Mono County (IX-Mno-109S), in front of Courthouse in Bridgeport on Thursday, May 29; June 5 and June 12, 1947, at 11 A. M.

• • •

STANISLAUS COUNTY, Calif.—A representative of the district office will meet prospective bidders for the proposed project in Stanislaus County (X-Sta-13-B), at the Wildcat Creek bridge on Thursday, June 12, 1947, at 1 P. M.

Prospective bidders are urged to co-operate with the district office and county and arrange to make their field inspection on the above dates.

6/3/47 40
Contract Awarded
Grading and Surfacing Cost $32,820.50
SACRAMENTO COUNTY, Calif. El Camino Ave.
Owner—County of Sacramento, C. C. LaRue, county clerk, Courthouse, Sacramento, Calif.
County Engineer—E. A. Fairbairn, Courthouse, Sacramento, Calif.
About 1.5 miles grading, crusher run base and plant mix surfacing.
Contractor—Brigdon Sand & Gravel Co., Box 2604, Sacramento, Calif.

6/3/47 40
Contract Awarded
Crows Landing Road Reconstruction
Cost $102,424.25
STANISLAUS COUNTY, Calif. Crows Landing Road at designated sites from the Tuolumne River to Modesto to State Highway No. 33 at Crows Landing.
Owner—County of Stanislaus, C. C. Eastin, clerk, Board of Supervisors, Courthouse, Modesto, Calif.
County Surveyor—G. D. Macomber, Courthouse, Modesto, Calif.
Reconstruction at designated sites, using 4-in. untreated rock base and 2-inch plant-mixed surfacing.
Contractor—Frank B. Marks & Sons, 203 Berverdor, Tracy, Calif.

6/3/47 40
West Main Road Reconstruction
Cost $84,678.94
STANISLAUS COUNTY, Calif. West Main Road from the Crows Landing Road to easterly city limits of City of Patterson.
Owner—County of Stanislaus, C. C. Eastin, clerk, Board of Supervisors, Courthouse, Modesto, Calif.
County Surveyor—G. D. Macomber, Courthouse, Modesto, Calif.
Reconstruction of road using 2 inches of untreated rock base with 1½ inches plant-mixed surfacing.
Contractor—Frank B. Marks & Sons, 203 Berverdor St., Tracy, Calif.

6/3/47 40
Owner Taking Bids—Due June 10, 2 P. M.
Surfacing
DUCHESNE COUNTY, Utah. S. R. No. 121, between Roosevelt and Neola.
Owner—Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
About 5.680 miles 2-inch road-mixed bituminous surfaced road.
Specifications obtainable from the above office upon deposit of $2, refundable.

6/3/47 40
Owner Taking Bids—Due June 10, 2:45 P. M.
UTAH COUNTY, Utah. S. R. No. 73, between Lehi and Fairfield.
Owner—Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
Specifications obtainable from the above office upon deposit of $2, refundable.

6/3/47 40
Owner Taking Bids—Due June 10, 2:30 P. M.
Surfacing
DAGGETT COUNTY, Utah. S. R. No. 48, between Linwood and Manila.
Owner—Utah State Road Commission, State Capitol, Salt Lake City, Utah.
Plans by engineering department of owner.
About 4.536 miles 2-inch road-mixed bituminous surfaced road.
Specifications obtainable from the above office upon deposit of $2, refundable.

6/3/47 40
Contract Awarded
Alemany Blvd. Improvement; Spec. 20,214
SAN FRANCISCO, Calif. Alemany Blvd., Section A, from Mission St. viaduct easterly for approximately 3500 feet.
Owner—City and County of San Francisco, Department of Public Works, Room 282 City Hall, San Francisco, Calif.
City Engineer—Ralph Wadsworth, City Hall, San Francisco, Calif.
150 days completion time.
Contractor—Charles L. Harney, 575 Berry St., San Francisco, Calif.

6/3/47 40
Contract Awarded
Franklin Blvd. Improvement
Cost $90,948.50
SACRAMENTO COUNTY, Calif.
From city limits to 47th Ave.
Owner—County of Sacramento, C. C. LaRue, county clerk, Courthouse, Sacramento, Calif.
County Engineer—E. A. Fairbairn, Courthouse, Sacramento, Calif.

Laboratory Case Work Equipment
(Furnish and Install)
Low and Only Bidder
SEATTLE, Wash.—Hamilton Manufacturing Co., Two Rivers, Wis., at $539,354, submitted only bid to the Board of Regents of the University of Washington, Herbert T. Condon, secretary, Room 1030 Henry Bldg., Seattle 1, Wash., for laboratory case work equipment for the health sciences building. Equipment includes counters, shelving, etc.

6/3/47 44
Piles (Furnish and Drive)
Sub-Contracts Awarded
PALO ALTO, Calif., Santa Clara Co.—M. B. McGowan Inc., 625 Market St., San Francisco, awarded subcontract by Fred J. Early Jr., Co., 399 Pine St., San Francisco, Calif., for furnishing and driving creosoted and untreated piles for Municipal sewage works enlargement for the City of Palo Alto. Plans by City Engr. Fabian S. Milier, City Hall, Palo Alto and Consulting Sanitary Engr. Harry N. Jenks, 346 Madrono Ave., Palo Alto, Calif.

6/3/47 44
Moving Bldg.—Bids Wanted
ARMONA, Calif., Kings Co.—Until June 10, 7 P. M., bids will be received by the Armona Union Elementary School District in the office of the Armona school for moving one (1) building 25 ft x 150 ft. formerly a hospital ward and designated as T-1072, from Hammer Field, State of California, to the Armona Union Elementary School grounds.

6/3/47 44
Rewiring School—Bids Wanted
PENNGROVE, Calif., Sonoma Co. —Until June 11 bids will be received by the Fenngrove School, Eagle School District, Sonoma county, at the office of the Penngrove School for rewiring of the school buildings.

Additional information obtainable from the above office.

6/3/47 44
Refinish School Furniture—Bids Wanted
PORTERVILLE, Calif., Tulare Co. —Until June 11, 8 P. M., bids will be received by the Vincent Elementary School District, Mrs. F. D. Williams, clerk, Vincent Elementary School, Porterville, for the following repair work:
1. refinishing tops of 305 school desks and making necessary repairs on same. 2. replacing of 13 school deck backs. 3. refinishing 42 children's chairs. 4. refinishing blackboard in room 1. 5. refinishing 13 tables. 6. refinishing 4 drainboards. 7. refinishing 8 teachers' desks.

6/3/47 44
Install Bleachers—Bids Wanted
MODESTO, Calif., Stanislaus Co. —Until June 9, 7:30 P. M., bids will be received by the Modesto City School District, E. D. Abbott, secretary, board of education, Capitol School Building, 14th St., Modesto, for the installation of folding-type bleachers on both sides of the gymnasium playing floor.

6/3/47 44
Repair Roofs—Bids Wanted
TIBURON, Calif., Marin Co.—Until June 18, 11 A. M., bids will be received by the public works officer, Mare Island Naval Shipyard, Vallejo, Calif., under Spec. 18661, Noy 4618, for furnishing of all labor, material and equipment for (a) brush coating the roofs of two corrugated steel buildings, one 125 ft. by 200 ft. and one 110 ft. by 400 ft., with asbestos roof coating; (b) reshingling a roof of about 4600 sq. ft. with red cedar shingles, and (c) renewing a small galley range flue. Spec. No. 18661 and other bidding information may be obtained on application to the Bureau of Yards and Docks, Navay Department, Washington 25, D. C., or to the public works officer, Mare Island Naval Shipyard, Vallejo, Calif.
Deposit of check or postal money order for $10, payable to Chief of Bureau of Yards and Docks, is required as security for safe return of each set of bidding data.

6/3/47 44
Aid Conditioning Equipment
Bids Wanted
SAN FRANCISCO, Calif. — Until June 11, 2:30 P. M., bids will be received by the Department of Public Works, Room 282 City Hall, San Francisco, Calif., for furnishing and installing air conditioning equipment in the telephone exchange room, City Hall, San Francisco, Calif.
Plans and specifications obtainable from the office of City Architect Dodge A. Riedy ,Room 265, City Hall, upon deposit of $5.

6/3/47 44
Gasoline Storage System
Bids Wanted
SAN FRANCISCO, Calif. — Until June 11, 1:30 P. M., informal bids will be received by the Department of Public Works, Room 282 City Hall, San Francisco, Calif., for furnishing and installing gasoline storage system at Alemany Emergency Hospital, San Francisco, Calif.
Specifications obtainable from R. A .Chisholm, 590 11th St., San Francisco, Calif.

6/3/47 44
Resurface Stair Treads
Bids Wanted
SAN FRANCISCO, Calif. — Until June 18, 2:30 P. M., bids will be received by the Department of Public Works, Room 282 City Hall, San Francisco, Calif., for resurfacing stair treads and landings at Yerba Buena School (Job No. 618), and resurfacing stair treads and landings at Paul Revere School (old building) (Job No. 619.
Plans and specifications obtainable from office of City Architect Dodge A. Riedy, Room 265, City Hall, San Francisco, Calif., upon deposit of $5.

6/3/47 44
Refinishing Floors—Bids Wanted
SAN FRANCISCO, Calif. — Until June 4, 1:30 P. M., informal bids will be received by the Dept. of Public Works, Room 282, City Hall, for refinishing of gymnasium floors at the James Lick Jr. High School.
Specifics obtainable from R. A. Chisholm, 490 11th St.

Industry Looks for Further Decontrol; Oppose Truman Plan

WASHINGTON.—Government's "house of cards" construction control program showed signs of crumbling today following Housing Expediter Frank R. Creedon's announcement of discontinuance of the permit system for new homes and relaxation of the square footage and single bathroom requirements.

Beginning June 1, Creedon said, FHA permits no longer will be required of those building for themselves or veterans. The limitation on number of finished bathrooms per home was eliminated entirely and the square foot provision will be raised from 1,500 to 2,000.

Those who already have obtained permits for new houses may adopt the more liberal provisions at once, OHE said.

All other construction controls are remaining in effect, Creedon explained, until conditions permit further relaxation or unless Congress directs they be removed.

OHE said the permit removal now is a logical step following abandonment of the old HH priority system last December. Increase in production of plumbing items enabled the office to lift the one bathroom ban. The encouraging supply situation is expected to continue.

The construction industry hailed the announcement as an early indication that controls are due for a quick exit. While the announcement did not go far enough to suit most sections of the industry, it was viewed as the inital step in a series of government moves for which builders long have fought.

Regarding President Truman's efforts to persuade congress to combine all remaining activities of

England Needs A VHP-i, Politician Declares; Fourteen Inch Walls Are Used for Factories

By LORNA S. STOCK

Has the commercial limitation order on the construction industry been beneficial to postwar building progress in the United States?

An Englishman—Councillor William Eckert, of Middlesborough, Yorkshire—believes it has, and laments the lack of a similar control in his country.

"I think it's wrong," he said in an interview this week. "We are importing Belgian brick, and paying four pounds a ton subsidy on millions of tons. In England, factories are being built with fourteen inch thick brick walls on steel frame construction.

"A maximum of 1,350 pounds is allowed for brick houses; however, the materials shortage is forcing extensive use of prefabricated houses, which are made of steel or aluminum, and cost 1,150 pounds each, or about $4600 in American money." And if wood frame houses were not built in England, he explained that almost all the houses were of brick, and always had been.

Eckert deplored the system which allows unrestricted construction of commercial and industrial structures, at such a huge—and to him, unnecessary—cost in brick. In his opinion, reinforced concrete on steel should be used.

Up until recently, he related, the socialist government believed in "direct labor", and all construction work was under license by the local authorities. Recently, some of the work has been let out to contractors, and this practice has proved much more successful.

He firmly believes all construction but housing should be stopped in England for a twelve month period. That contention had enough popular support to win him an election in November.

Import Laborers

Labor is an enormous factor in England's building problem, Eckert continued. An attempt to place war veterans as apprentices brought on a "go slow" movement in the ranks of journeymen bricklayers. Where a workman formerly laid seven or eight hundred bricks, the quota was cut to six hundred.

"And," he said, "while thousands of people are drawing the dole, England has to import 100,000 Poles to work in the mines. And we already have a terrible housing shortage.

"Wages are sky high. Laborers who formerly worked for two pounds now get four pounds, 16 shillings. All wages in the building trades have followed this pattern."

Eckert found it impossible to emphasize enough the need for food in England, but said his own diet consisted largely of greens, and lacked meat, eggs, fats and bread.

He said: "The workman complains that he isn't getting enough to eat to do his work. Coal also is very short. The streets are dimly lighted, and we cannot have a gas or electric fire in an office or home from May to the end of September."

Rents, he said, are very low, and are strictly controlled at a level 40 per cent above the standard rent of the period immediately before World War I.

(Continued on Page 7)

Fewer Freight Cars Turned Out Despite High Steel Allocation

WASHINGTON—Col. J. Monroe Johnson, director of the office of defense transportation, met with the industry advisory committee on distribution of steel for freight cars May 28 to review the domestic freight car building program.

The steel committee reported that during the month of March they shipped to the railroads and car builders more than 202,000 tons of steel and during the month of April more than 206,000 tons of steel, of various types required for freight-car construction.

The steel industry had previously agreed to underwrite a sufficient amount of steel for the production of 7,000 cars per month and had allocated a total of 163,000 tons to start full rolling in the month of April, however, so that the program could be initiated as quickly as possible they endeavored to step up their deliveries starting in March with results as stated above.

Freight-car production in both railroad and car building shops during April reached a total of 4,123 cars per month, a slight increase over previous months.

The reported production of 1,797 domestic freight cars for the first half of May was a drop of 81 cars for the same period in the month of April.

#

FEDERAL PROPERTY HOLDINGS STUDIED

WASHINGTON. — The public lands committee of the house, through one of its sub-committees, is studying a number of new bills which would require the federal government to reimburse localities for tax losses suffered on federal property holdings.

As a usual thing, the government pays no local taxes on its holdings. The first testimony heard this week was given by executive departments opposed to the provisions of these measures.

FINAL CODE HEARING

Final hearing on the proposed San Francisco building code has been scheduled for Wednesday, June 4, at 2 p. m., in the supervisors' chambers in the city hall. The meeting will be for consideration of the code exclusively. It may be the last opportunity members of the construction industry will have to voice their objections or recommendations on the legislation.

Members of the advisory committee, headed by William H. Popert, and members of the Building Industry Conference Board are among those who will present objections to portions of the code.

On Thursday, June 4, at 2 p. m., the supervisors will hold another extra session to iron out alleged inequities contained in the proposed city business license tax ordinance.

GROOVER AND I

SALT . . . AND RYDER

Regardless of how busy I pretend to be, I always find time to read anything by David Warren Ryder of the Gerth-Pacific Advertising Agency. Ryder could write about post office pens or a cold boiled potato without salt, eaten at midnight—and make it not only factually accurate but interesting.

☆ ☆ ☆

Just read a booklet about Robt. E. Clarke—Marine Magnesium, salts and such (the book has pictures yet—and what's wrong with the little number second from he right?).

☆ ☆ ☆

Years ago I must have crossed Clarke's trail many times out in Manila. Bet he remembers the Silver Dollar just across the Puente de Espana, and the Round Table in the rear of Clark's on Calle Escolta—but that is another story.

☆ ☆ ☆

From 1,000 gallons of sea water Clarke and his boys recover about 35 pounds of "gluck", an unappetizing looking mess containing many things from common table salt to gold.

☆ ☆ ☆

The table salt or sodium chloride is more valuable than the gold. We have been living without gold since 1933—but how long do you think you could live without salt?

☆ ☆ ☆

The thing that impresses me (in addition to the little number, second from the right) is the unlimited supply of raw material available to Clarke.

☆ ☆ ☆

Figure it out for yourself: the Pacific Ocean alone contains 172,-745,512½ cubic miles of sea water (if you question my figures, go make your own measurements). For gallons, multiply those cubic miles by 5,280 cubed, times 7.5— and Brother, them is some gallons!

☆ ☆ ☆

But, about the little number, second from the right—bet they didn't filter her from sea water—or did they?

☆ ☆ ☆

Of course, there was Aphrodite—but she was a blonde, and produced by the "foamentation" process.

T-E-W Public Housing Program Would Draw Architects and Contractors From Anywhere

WASHINGTON.—If the Taft-Ellender-Wagner housing bill should meet a miracle in the eightieth session and squeeze by the republican opposition, contractors will be hearing a lot more about the "post-war shelf" of planned housing projects.

It is far too early to tell in number of units exactly what passage of this measure would mean to each community. Closest approach comes from an appraisal of local estimates turned in to the federal public housing authority after former President Roosevelt's executive order directing agencies rendering financial aid to local bodies to receive applications for post-war housing and file these against future appropriation of funds.

Now it is wholly conceivable that these dust-gathering applications would be dragged out and reviewed if the Wagner-Ellender-Taft bill provided money for public housing, so-called, and liberalized financing arrangements for housing undertaken by private builders on their own initiative.

Not Strictly Local

Of course it is impossible to ascertain yet, what quotas would be assigned to any locality of and when the T-E-W bill becomes law. No one hs thought of establishing share percentages in funds provided. This is an administrative feature that would be worked out after congress sonctioned the T-E-W proposal, putting the government in the business of subsidizing housing for lower-income groups for many, many years to come.

A few things in connection with this legislation can be assumed with certainty, however, with F P H A verification.

First, this agency said the so-called public housing provided under this act, the dwellings to be erected at government-instigation, can be built by contractors and planned by architects from anywhere—the planners and builders do not have to be drawn from the community benefiting. In this respect the provisions resemble those under the old U. S. Housing Act, FPHA spokesmen said.

Liberal Financing

Secondly, that type of housing to benefit from liberalized financing will also be constructed by private home builders and in this instance they are to be given more freedom than in erection of the public types. Local labor scales will be paid and probably income limits for occupants will be specified; without that the purpose of the act (to provide housing for those families in greatest need) would be defeated.

Add to these to say the bill goes broadly into financial aids to the private construction industry with a variety of liberalizing features. It revises the FHA 90 per cent mortgage guarantee, provides yield insurance in an effort to entice big money into the rental housing field, and a number of other "aids" including long-term credit to builders.

No Guarantee

The country over, S. 866 would program 1,500,000 housing units per year. Of these, 1,250,000 would be non-farm and the balance farm units. The T-E-W legislation does not guarantee this number but sets it as a goal. Its success would be measured in the zeal that home builders displayed in taking advantage of its various sections.

There is little doubt of this since congress merely would have provided certain sums with which the work could be done, and federal encouragement in the form of huge subsidies to raise the economic housing level of lower income families.

#

AT POLICY MEET

CHICAGO.—Among those attending the meeting of the board of governors of the National Association of Real Estate Boards here recently were Lucille A. Swital, Glendale, and Willard L. Johnson, San Francisco.

Carl Gellert New President of San Francisco Builders

Carl Gellert, of the Standard Building Co., has been named to the presidency of the Associated Home Builders of San Francisco. He succeeds J. C. Johnson.

Others elected to office for the term ending June 1, 1948, include Earl Popovich, vice president; H. C. "Josh" Billings, Jr., secretary; and Oliver Rousseau, treasurer.

Newly elected members of the board of directors include Albert Bernhardt, Ellis Stoneson, Chris D. McKeon, J. C. Johnson, H. C. Billings, Jr., Andrew Berwick, Geo. Belcher, Henry Doelger, Paul Ford, Carl Gellert, David D. Bohannon, Boyd C. Lindsay, Gilbert Plov, Earl Popovich, Oliver Rousseau and Eugene Vignati.

The association will honor J. C. Johnson, junior past president, at a dinner dance to be held in the Gold Room of the Fairmont Hotel on June 28.

Senator Buck Cites Record of Creedon

WASHINGTON. — Housing Expediter Frank R. Creedon, though he still has no funds appropriated for operation of his office during fiscal 1947, was paid a very high tribute on the senate floor the other day when Senator Buck proposed him for the position of rent control liquidater.

Senator Buck, who authored the rent extension bill on which the senate spent all its time Thursday, said the government was fortunate in having in its service a man of the experience and ability of Creedon.

The senator reviewed Creedon's background and cited the expediter's testimony before Buck's subcommittee of the senate banking and currency committee. At that time Creedon said he was convinced he had done more for construction during the first 48 hours of his tenure of office than he would be able to accomplish during the rest of his term as expediter. He had reference to his simplification of government controls over building.

Senator Buck told his colleagues he believed Creedon would take action to eliminate rent controls rapidly.

The housing shortage itself is the cause of rent control, the senator reasoned, but if rent control doesn't permit an increase in construction of more rental housing, it is useless.

#

T-E-W BILL 'DEAD DUCK' THIS SESSION

WASHINGTON—A daily roundup of congressional action on housing, published by the office of the general counsel of the national housing agency, last week summarized Capitol Hill reaction to the President's economic report.

It quotes Representative Hollfield of California, on housing:

"Although the Wagner-Ellender-Taft bill was reported favorably out of committee by a slim majority in the other body, it is rumored that it will be ignored by the appropriate committee in the house (banking and currency). It can be considered as a dead duck in this session."
